

### Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Rule

This action amends 14 CFR part 71 by establishing RNAV route T-768. The new T-route is described below.

**T-768:** T-768 is a new RNAV route extending between the International Falls, MN, VORTAC and the ARBBY, MN, waypoint (WP). This T-route provides routing between the International Falls VORTAC and the U.S./Canada border; connecting to NAV CANADA's existing T-768 within Canadian airspace.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory

Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

The FAA has determined that this action of establishing T-768, to compensate for the removal of VOR Federal airway V-242 due to the Atikokan, ON, Canada, NDB being decommissioned and to provide cross border connectivity to NAV CANADA's T-768, qualifies for categorical exclusion under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5-6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). As such, this action is not expected to result in any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5-2 regarding Extraordinary Circumstances, the FAA

has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. The FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

### The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

### PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

#### 15 CFR Part 744

[Docket No. 220627-0141]

RIN 0694-A188

### Addition of Entities, Revision and Correction of Entries, and Removal of Entities From the Entity List

**AGENCY:** Bureau of Industry and Security, Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding 36 entities under 41

entries to the Entity List. These 36 entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. These entities will be listed on the Entity List under the destinations of the People's Republic of China (China), Lithuania, Pakistan, the Russian Federation (Russia), Singapore, the United Arab Emirates (UAE), the United Kingdom, Uzbekistan, and Vietnam. Some entities are added under multiple entries, accounting for the difference in the total number of entities and entries in this rule. This rule also revises eleven existing entries under the destinations of Belarus, China, Russia, and Slovakia and corrects one existing entry on the Entity List under the destination of

Pakistan. Lastly, this rule removes two entities and one address for a non-listed entity, consisting of one removal of an entity and one removal of an address under the destination of China, and one removal under the destination of Pakistan. The removals from the Entity List are made in connection with requests for removal that BIS received pursuant to the EAR and a review of the information provided in those requests.

**DATES:** This rule is effective on June 28, 2022.

**FOR FURTHER INFORMATION CONTACT:** Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-5991, Email: [ERC@bis.doc.gov](mailto:ERC@bis.doc.gov).

**SUPPLEMENTARY INFORMATION:**

**Background**

The Entity List (supplement no. 4 to part 744 of the EAR) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States. The EAR (15 CFR parts 730-774) impose additional license requirements on and limit the availability of most license exceptions for exports, reexports, and transfers (in-country) to listed entities.

The license review policy for each listed entity is identified in the "License Review Policy" column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the entity to the Entity List. Any license application for an export, reexport, or transfer (in-country) involving an entity on the Entity List that is subject to an additional EAR license requirement will also be reviewed in accordance with the license review policies in the sections of the EAR applicable to those license requirements. For example, for Russian entities on the Entity List, if the export, reexport, or transfer (in-country) is subject to a license requirement in § 746.6, 746.8 or 746.10, the license application will be reviewed in accordance with the license review policies in those sections (as applicable) in addition to the specified license review policy under the Entity List entry.

BIS places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special

Controls) of the EAR. Paragraphs (b)(1) through (5) of § 744.11 include an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

**Entity List Decisions**

*A. Additions to the Entity List*

The ERC determined to add the following six entities under ten entries to the Entity List on the basis of § 744.11(b) and under the destinations of China, Lithuania, Russia, the United Kingdom, Uzbekistan, and Vietnam: Connec Electronic Ltd. (added under China and the United Kingdom); King Pai Technology Co., Ltd. (added under China, Russia, and Vietnam); Sinno Electronics Co., Ltd. (added under China and Lithuania); Winninc Electronic (added under China); World Jetta (H.K.) Logistics Limited (added under China); and Promcomplektlogistic Private Company (added under Uzbekistan) for providing support to Russia's military and/or defense industrial base. Specifically, these entities have previously supplied items to Russian entities of concern before February 24, 2022 and continue to contract to supply Russian entity listed and sanctioned parties after Russia's further invasion of Ukraine. This activity is contrary to U.S. national security and foreign policy interests under § 744.11(b) of the EAR. These six entities and their identified subsidiaries are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under a policy of denial apart from food and medicine designated as EAR99, which will be reviewed on a case-by-case basis. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add the following twelve entities to the Entity List on the basis of § 744.11(b) under the destination of China: At One Electronics; Blueschip Company Limited; Chen Zhouqian; Chipwinone Electronics; Chuangxinda Electronics-Tech Co., Ltd.; Ehang International

Trade Limited; Gaohui HK Electronics; ICSOSO Electronics Company Limited; Shenzhen Avanelane; Suntric Company Limited; Wayne Weipeng; and Yiru Zhuang for their activities contrary to the national security and foreign policy interests of the United States.

Specifically, these entities use deceptive practices to supply or attempt to supply Iran with U.S.-origin electronics that would ultimately provide support to Iran's military. These entities are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under a presumption of denial. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add eight entities under nine entries to the Entity List on the basis of § 744.11(b) under the destinations of China and Singapore, with one of the entities listed under both destinations. The entities are as follows: Beijing Highlander Digital Technology Co. Ltd (added under China and Singapore); China Academy of Science—Shenyang Institute of Automation; China State Shipbuilding Corp.—Systems Engineering Research Institute; CSSC Electronic Technology; Highlander (Hong Kong) Maritime Navigation Science and Technology LLC; Laurel Technologies Co. Ltd.; Sansha Highlander Marine Information Technology Co. Ltd.; and Sanya Highlander Huanyu Ocean Information Technology Corporation. All of the eight entities are added to the Entity List for acquiring and attempting to acquire U.S.-origin items in support of military applications, contrary to the national security or foreign policy interests of the United States. These entities are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under a presumption of denial. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add two entities to the Entity List on the basis of § 744.11(b) under the destination of Russia: Laboratory Systems and Technologies LTD; and Intertech Rus LLC. The two entities are added on the basis of their attempts to procure items, including U.S.-origin items, for activities contrary to the national security and foreign policy interests of the United States. Specifically, Intertech Rus LLC and Laboratory Systems and Technologies LTD are acting as agents, fronts or shell companies for OOO Intertech Instruments, an entity added

to the Entity List under the destination of Russia on March 4, 2021 (86 FR 12531). The two entities are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under the license review policies specified in §§ 744.2(d) (restrictions on certain nuclear end-uses), 744.3(d) (restrictions on certain rocket systems and unmanned aerial vehicles end-uses), and 744.4(d) (restrictions on certain chemical and biological weapons end-uses) of the EAR. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add two entities to the Entity List on the basis of § 744.11(b) under the destination of Russia: FASTAIR and Avcom-Technique. These two entities are added for actions contrary to the national security and foreign policy interests of the United States. These entities are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under a case-by-case license review policy. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add four entities to the Entity List on the basis of §§ 744.11(b), 744.2 and 744.3, including one entity under the destination of the United Arab Emirates (UAE): Gulf Trade House FZC; and three entities under the destination of Pakistan: Industrial Process Automation; Jim Corporation; and Maira Trade International. The four entities are added for actions contrary to the national security or foreign policy interests of the United States, and because these entities pose an unacceptable risk of using or diverting items subject to the EAR to certain nuclear end-uses and certain rocket systems and unmanned aerial vehicles end-uses. These entities are added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for these entities under a presumption of denial. No license exceptions are available for exports, reexports, or transfers (in-country) to these entities.

The ERC determined to add one entity to the Entity List on the basis of § 744.11(b) under the destination of the UAE: Al Noor Alaili Trading Company (ANATCO). This entity is added for preventing the accomplishment of an End Use Check (EUC) by precluding access to, refusing to provide information to, and/or providing false or misleading information about parties to

the transaction or the item to be checked. This entity is added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for this entity under a presumption of denial. No license exceptions are available for exports, reexports, or transfers (in-country) to this entity.

The ERC determined to add the following one entity to the Entity List on the basis of § 744.11(b) under the destination of the UAE: Scott Technologies FZE, for acquiring and attempting to acquire U.S.-origin items on behalf of entities listed on the Entity List, in circumvention of the licensing requirements set forth in § 744.11 of the EAR. Specifically, the entity was added for re-exporting aircraft parts to Syria. This entity will be added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications for items for this entity under a presumption of denial. No license exceptions are available for exports, reexports, or transfers (in-country) to this entity.

For the reasons described in section A of the Supplementary Information, this final rule adds the following entities under to the Entity List including, where appropriate, aliases:

#### B. Revisions to the Entity List

This final rule revises eleven existing entries, under the destinations of Belarus, China, Russia, and Slovakia.

This rule revises nine entries, consisting of one entry for “JSC Integral,” first added to the Entity List under the destination of Belarus on March 2, 2022 (87 FR 13061, March 8, 2022); seven entries under Russia consisting of “Avant-Space LLC,” first added to the Entity List on March 3, 2022 (87 FR 13143, March 9, 2022) (the “March 9 rule”); “Elara,” first added to the Entity List in the March 9 rule; “JSC Central Research Institute of Machine Building,” first added to the Entity List on February 24, 2022 (87 FR 12240, March 3, 2022) (the “March 3 rule”); “JSC Element,” first added to the Entity List in the March 9 rule; “JSC Rocket and Space Centre,” first added to the Entity List in the March 3 rule; “Russian Space Systems (RKS),” first added to the Entity List in the March 9 rule; “Scientific Research Institute NII Submikron,” first added to the Entity List in the March 9 rule; and one entry for “Incoff Aerospace, S.R.O.,” first added to the Entity List under the destination of Slovakia in the March 9 rule. This rule revises the License

Requirement column for some of the nine entities to specify that License Exception GOV under § 740.11(b)(2) and (e) may be available for use to export items to these entities. This rule also revises the License Review Policy column for all nine entities to specify that there is a case-by-case license review policy for items destined for use in U.S. government supported use in the International Space Station (ISS).

These nine entities are integral to supporting the International Space Station (ISS), therefore the ERC determined it was warranted to allow the License Exception GOV authorizations under paragraphs (b)(2) and (e) to be available and to have a case-by-case license review policy for U.S. Government supported use in the International Space Station. This rule revises both the License Requirement

column and License Review Policy column for JSC Central Research Institute of Machine Building. For the other eight entities revised by this rule, only one of the two columns needed to be revised. Specifically, this rule revises the License Requirement column for Incoff Aerospace LLC; JSC Element; and Russian Space Systems (RKS) and revises the License Review Policy Column for Avant-Space LLC; Elara; JSC Integral; JSC Rocket and Space Centre; and Scientific Research Institute NII Submikron.

This rule revises one existing entry for “China National Offshore Oil Corporation Ltd.,” first added to the Entity List under the destination of China on January 14, 2021 (85 FR 4864). Specifically, this rule removes the phrase “not operating in the South China Sea” and adds in its place the

phrase “not operating in any body of water, or the airspace above any body of water, within the following coordinates:

Upper Left:  
26°4′48.931″ N  
104°31′41.383″ E  
Upper Right:  
26°4′48.931″ N  
123°19′22.225″ E  
Lower Right:  
0°0′0.00″ N  
123°19′22.225″ E  
Lower Left:  
0°0′0.00″ N  
104°31′41.383″ E

The following is an illustration with an approximate representation of these coordinates to assist the public in understanding the applicability of the license requirement for this entity:

**BILLING CODE 3510–33–P**

2020-00228-25 2-21

**BILLING CODE 3510-33-C**

BIS has received numerous questions from the public on how to interpret this limitation on the exclusion from the license requirement for this entry. After reviewing these questions and evaluating various options for clarifying the scope of this limitation, the ERC determined that the best approach to facilitate compliance, consistent with U.S. national security and foreign policy interests, is to use coordinates that form a geographic box such that any body of water (e.g., the South China Sea, the Celebes Sea, the Sulu Sea) that falls within these coordinates, as well as the airspace above any such body of water, will be subject to the limitation on the exclusion from the license requirement. This modification provides greater

clarity, thus reducing the compliance burden on the public.

In response to questions received about the entity name, BIS makes an additional revision to the entry to clarify that the entity listed on the Entity List is CNOOC Limited, which is a core subsidiary of China National Offshore Oil Corporation (CNOOC Group). While the parent entity, CNOOC Group, is not listed on the Entity List, BIS recommends that due diligence should be conducted by exporters, reexporters, and transferors when dealing with CNOOC Group to determine whether there is any “knowledge,” as it is defined in part 772 of the EAR, that an item subject to the EAR may be destined to CNOOC Limited or to any other entity listed on the Entity List. The rule also

makes minor typographical corrections to clarify the regulatory text.

This rule also modifies the entry for the National University of Defense Technology (NUDT), which was first added to the Entity List under the destination of China on February 18, 2015 (80 FR 8527). This final rule adds three additional addresses and two additional aliases to the entry.

### *C. Correction to the Entity List*

This final rule implements corrections to one existing entry on the Entity List. The correction is under the destination of Pakistan for the entity X-Cilent Engineering. This entity was added to the Entity List on February 14, 2022 (87 FR 8182). This final rule corrects the punctuation of this entity’s address.

#### D. Removals From the Entity List

This rule implements decisions of the ERC to remove two entities and one address for a non-listed entity from the Entity List, as described below.

This rule implements a decision of the ERC to remove “Nanchang O-Film Tech.”, an entity located in China, from the Entity List on the basis of a removal request. The entry for Nanchang O-Film Tech. under the destination of China was added to the Entity List on July 22, 2020 (85 FR 44166). The ERC decided to remove this one entity based on information BIS received pursuant to § 744.16(e) of the EAR and the review the ERC conducted in accordance with procedures described in supplement no. 5 to part 744 of the EAR.

This rule also implements a decision of the ERC to remove one address associated with Oriental Logistics Group LTD, specifically, 10/F, Union Bldg, 112 How Ming, Kwun Tong, Kowloon, Hong Kong from the Entity List, because this address does not belong to Oriental Logistics Group LTD. Rather, it belongs to Oriental Logistics Group Ltd., which has a similar name, but is a different legal entity and is not on the Entity List. The ERC determined that Oriental Logistics Group LTD is not located at this address, and therefore has decided to remove this address from the entry. Two entries for the entity Oriental Logistics Group LTD were added under the destinations of China and Hong Kong to the Entity List on September 22, 2020 (85 FR 59421). Subsequently, the entries under Hong Kong were relocated under the destination of China on the Entity List on December 23, 2020 (85 FR 83769) with the result that the entry for Oriental Logistics Group LTD contained three addresses: one in China and two in Hong Kong, China. This rule is removing the Hong Kong address referenced above; it is not removing the entry for Oriental Logistics Group LTD under China or the second Hong Kong address for Oriental Logistics Group LTD under this entry. The ERC decided to remove the one address based on information BIS received pursuant to § 744.16(e) of the EAR and the review the ERC conducted in accordance with procedures described in supplement no. 5 to part 744 of the EAR.

This rule implements a decision of the ERC to remove “Mushko Electronics Pvt. Ltd.”, an entity located in Pakistan, from the Entity List on the basis of a removal request. The entry for Mushko Electronics Pvt. Ltd. was added to the Entity List on March 22, 2018 (83 FR 12480). The ERC decided to remove this one entity based on information BIS received pursuant to § 744.16(e) of the

EAR and the review the ERC conducted in accordance with procedures described in supplement no. 5 to part 744 of the EAR.

This final rule implements the decision to remove the following two entities and one address for a non-listed entity, located in China, and Pakistan, from the Entity List:

#### China

- Nanchang O-Film Tech; and
- Oriental Logistics Group Ltd. (As described above, this entity is not on the Entity List, but its address is being removed from the Entity List in this rule to avoid any confusion regarding whether Oriental Logistics Group Ltd. is or is not on the Entity List.)

#### Pakistan

- Mushko Electronics Pvt. Ltd.

#### Savings Clause

For the changes being made in this final rule, shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country), on June 28, 2022, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR).

#### Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS’s principal authorities and serves as the authority under which BIS issues this rule.

#### Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously

approved by OMB under control number 0694–0088, Simplified Network Application Processing System, which includes, among other things, license applications and commodity classifications, and carries a burden estimate of 29.6 minutes for a manual or electronic submission for a total burden estimate of 33,133 hours. Total burden hours associated with the PRA and OMB control number 0694–0088 are not expected to increase as a result of this rule.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

**BILLING CODE 3510-33-P****DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration****15 CFR Part 904****[Docket No. 220609-0132]****RIN 0648-BI72****Civil Procedures in Civil Administrative Enforcement Proceedings****AGENCY:** Office of General Counsel (OGC), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Final rule.**SUMMARY:** NOAA is amending procedures governing its civil administrative enforcement proceedings. The principal changes

include updates to statutory references, clarifications regarding the Administrator's discretionary review, revised directions for appealing a written warning, revised requirements for denying a request for admission, and revised directions for electronic service related to certain appeals and petitions. Other changes remove the requirement for NOAA to challenge late hearing requests, simplify the use of electronic signatures, rename discovery filings, allow depositions by videoconference, require discovery filings to state when a witness is expected to testify in a language other than the English language in order to arrange interpretation, clarify when failing to pay can be a basis for permit sanctions, incorporate Civil Asset Forfeiture Reform Act deadlines into administrative forfeiture proceedings,
