Japan-U.S. Joint Leaders' Statement / G7 Leaders' Statement

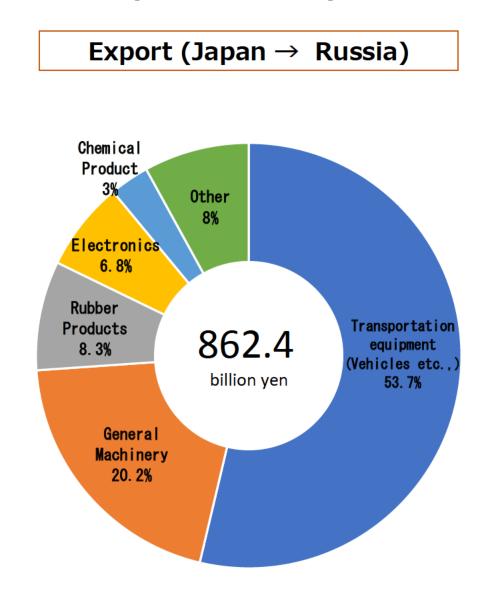

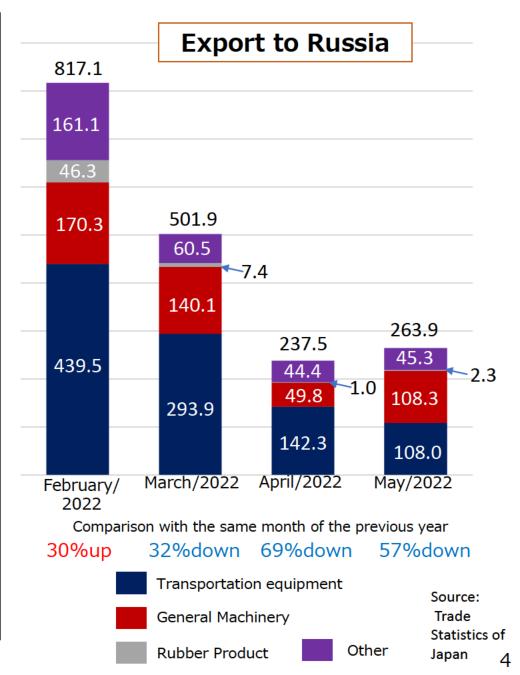

Japan-U.S. Joint Leaders' Statement - Strengthening the Free and Open International Order - May 23, 2022

As global partners, Japan and the United States affirm that the rules based international order is indivisible; threats to international law and the free and fair economic order anywhere constitute a challenge to our values and interests everywhere. Prime Minister Kishida and President Biden shared the view that the greatest immediate challenge to this order is Russia's brutal, unprovoked, and unjustified aggression against Ukraine. The two leaders condemned Russia's actions, and called for Russia to be held accountable for its atrocities. They reaffirmed their support for Ukraine's sovereignty and territorial integrity. The Prime Minister and the President underscored the importance of the international community's unity, and expressed solidarity with the Ukrainian people in responding to Russia's aggression through sanctions, including financial sanctions, export controls, and other steps, taken with like-minded countries to impose long-lasting economic costs on Russia.

G7 Leaders' Statement, Berlin, 8 May 2022

We continue to <u>work with our international partners</u> and invite them to stand with us and to follow suit with similar actions, including <u>to prevent sanctions evasion</u>, <u>circumvention and backfilling</u>.
