Military Surface Vessels and Related Items

- Need BIS authorization to use STA for surface vessels subject to ECCN 8A609.a.
- b. Certain non-magnetic diesel engines.
- x. Specially designed parts, components, accessories and attachments not enumerated in USML Cat VI.
- y. Listed parts, components, accessories and attachments (AT 1 and China military end use license requirements).

Military Surface Vessels and Related Items

- New ECCN 8B609 – Test, inspection and production equipment for ECCN 8A609 or USML Category VI (except for Cat VI(f)(7)).
- New ECCN 8C609 – Materials for 8A609 not specified on the USML.
- New ECCN 8D609 – Software for 8A609, 8B609 or 8C609.
- New ECCN 8E609 – Technology for 8A609, 8B609, 8C609 or 8D609.

Submersible Vessels and Related Items

- New ECCN 8A620
 - a. Submersible and semi-submersible vessels “specially designed” for a military use and not on the USML.
 - b. Submersible and semi-submersible vessels “specially designed” for cargo transport and parts, components, accessories and attachments.
 - Need BIS authorization to use STA for submersible vessels subject to ECCN 8A620.

Submersible Vessels and Related Items

- New ECCN 8A620 (cont.)
 - c. through f. specifically enumerated parts components, accessories and attachments.
 - x. Specially designed parts, components, accessories and attachments not specified elsewhere in this ECCN or in the USML.
 - y. Specific parts, components, accessories and attachments for items in this ECCN.

Submersible Vessels and Related Items

- New ECCN 8B620 – Test, inspection and production equipment for commodities in 8A620.
- New ECCN 8D620 – Software for 8A620 or 8B620.
- New ECCN 8E620 – Technology for 8A620, 8B620 or 8D620.

Miscellaneous Equipment

- New ECCN 0A617
 - Concealment and deception equipment.
 - Ferries, bridges, etc.
 - Test models for missiles & rockets, surface vessels, military vehicles and aircraft.
 - Metal embrittlement agents.
- No .x paragraph

Miscellaneous Equipment

- ECCN 0A617 (cont.)
- y.
 - Military construction equipment, parts, components, accessories and attachments.
 - Containers “specially designed” for items in 600 series ECCNs.
 - Field generators.
 - Power control searchlights.

Miscellaneous Equipment

- New ECCN 0B617 – Test, inspection and production equipment.
- New ECCN 0C617 – Certain signature suppression materials.
- New ECCN 0D617 – Software for 0A617, 0B617 or 0C617.
- New ECCN 0E617 – Technology for 0A617, 0B617, 0C617 or 0D617.

Thank You.
