## PART I--AUTHORITY AND ADMINISTRATION OF CONTROLS

### Sec. 1751. Short Title.

This part may be cited as the "Export Controls Act of 2018".

### Sec. 1752. Statement of Policy.

The following is the policy of the United States:

(1) To use export controls only after full consideration of the impact on the economy of the United States and only to the extent necessary--

(A) To restrict the export of items which would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States; and

(B) To restrict the export of items if necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations.

(2) The national security and foreign policy of the United States require that the export, reexport, and in-country transfer of items, and specific activities of United States persons, wherever located, be controlled for the following purposes:

(A) To control the release of items for use in--

(i) The proliferation of weapons of mass destruction or of conventional weapons;

(ii) The acquisition of destabilizing numbers or types of conventional weapons;

(iii) acts of terrorism;

(iv) military programs that could pose a threat to the security of the United States or its allies; or

(v) activities undertaken specifically to cause significant interference with or disruption of critical infrastructure.

(B) To preserve the qualitative military superiority

## Legal Authority

of the United States.

(C) To strengthen the United States defense industrial base.

(D) To carry out the foreign policy of the United States, including the protection of human rights and the promotion of democracy.

(E) To carry out obligations and commitments under international agreements and arrangements, including multilateral export control regimes.

(F) To facilitate military interoperability between the United States and its North Atlantic Treaty Organization (NATO) and other close allies.

(G) To ensure national security controls are tailored to focus on those core technologies and other items that are capable of being used to pose a serious national security threat to the United States.

(3) The national security of the United States requires that the United States maintain its leadership in the science, technology, engineering, and manufacturing sectors, including foundational technology that is essential to innovation. Such leadership requires that United States persons are competitive in global markets. The impact of the implementation of this part on such leadership and competitiveness must be evaluated on an ongoing basis and applied in imposing controls under sections 1753 and 1754 to avoid negatively affecting such leadership.

(4) The national security and foreign policy of the United States require that the United States participate in multilateral organizations and agreements regarding export controls on items that are consistent with the policy of the United States, and take all the necessary steps to secure the adoption and consistent enforcement, by the governments of such countries, of export controls on items that are consistent with such policy.

(5) Export controls should be coordinated with the multilateral export control regimes. Export controls that are multilateral are most effective, and should be tailored to focus on those core technologies and other items that are capable of being used to pose a serious national security threat to the United States and its allies.

(6) Export controls applied unilaterally to items widely available from foreign sources generally are less effective in preventing end-users from acquiring those items. Application of unilateral export controls should be limited for purposes of protecting specific United States national security and foreign policy interests.

(7) The effective administration of export controls requires a clear understanding both inside and outside the United States Government of which items are controlled and an efficient process should be created to regularly update the controls, such as by adding or removing such items.

(8) The export control system must ensure that it is transparent, predictable, and timely, has the flexibility to be adapted to address new threats in the future, and allows seamless access to and sharing of export control information among all relevant United States national security and foreign policy agencies.

(9) Implementation and enforcement of United States export controls require robust capabilities in monitoring, intelligence, and investigation, appropriate penalties for violations, and the ability to swiftly interdict unapproved transfers.

(10) Export controls complement and are a critical element of the national security policies underlying the laws and regulations governing foreign direct investment in the United States, including controlling the transfer of critical technologies to certain foreign persons. Thus, the President, in coordination with the Secretary, the Secretary of Defense, the Secretary of State, the Secretary of Energy, and the heads of other Federal agencies, as appropriate, should have a regular and robust process to identify the emerging and other types of critical technologies of concern and regulate their release to foreign persons as warranted regardless of the nature of the underlying transaction. Such identification efforts should draw upon the resources and expertise of all relevant parts of the United States Government, industry, and academia. These efforts should be in addition to traditional efforts to modernize and update the lists of controlled items under the multilateral export control regimes.

(11) The authority under this part may be exercised only in furtherance of all of the objectives set forth in paragraphs (1) Through (10).

(7) enforce the controls through means such as regulations, requirements for compliance, lists of controlled items, lists of foreign persons who threaten the national security or foreign policy of the United States, and guidance in a form that facilitates compliance by United States persons and foreign persons, in particular academic institutions, scientific and research establishments, and small- and medium-sized businesses.

**(c) Application of Controls.**--The President shall impose controls over the export, reexport, or in-country transfer of items for purposes of the objectives described in subsections (b)(1) or (b)(2) without regard to the nature of the underlying transaction or any circumstances pertaining to the activity, including whether such export, reexport, or in-country transfer occurs pursuant to a purchase order or other contract requirement, voluntary decision, inter-company arrangement, marketing effort, or during a joint venture, joint development agreement, or similar collaborative agreement.

(ii) The export, reexport, or in-country transfer of such items could make a significant contribution to the military potential of such country, including its military logistics capability, or could enhance the ability of such country to support acts of international terrorism.

## Legal Authority

**AN ACT TO** provide authority to regulate exports, to improve the efficiency of export regulation, and to minimize interference with the ability to engage in commerce.

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,

### Section 1. SHORT TITLE

This Act may be cited as the “Export Administration Act of 1979”.

### Section 2. FINDINGS

The Congress makes the following findings:

(1) The ability of United States citizens to engage in international commerce is a fundamental concern of United States policy.

(2) Exports contribute significantly to the economic well-being of the United States and the stability of the world economy by increasing employment and production in the United States, and by earning foreign exchange, thereby contributing favorably to the trade balance. The restriction of exports from the United States can have serious adverse effects on the balance of payments and on domestic employment, particularly when restrictions applied by the United States are more extensive than those imposed by other countries.

(3) It is important for the national interest of the United States that both the private sector and the Federal Government place a high priority on exports, consistent with the economic, security, and foreign policy objectives of the United States.

(4) The availability of certain materials at home and abroad varies so that the quantity and composition of United States exports and their distribution among importing countries may affect the welfare of the domestic economy and may have an important bearing upon fulfillment of the foreign policy of the United States.

(5) Exports of goods or technology without regard to whether they make a significant contribution to the military potential of individual countries or combinations of countries may adversely affect the national security of the United States.

(6) Uncertainty of export control policy can inhibit the efforts of United States business and work to the detriment of the overall attempt to improve the trade balance of the United States.

(7) Unreasonable restrictions on access to world supplies can cause worldwide political and economic instability, interfere with free international trade, and retard the growth and development of nations.

(8) It is important that the administration of export controls imposed for national security purposes give special emphasis to the need to control exports of technology (and goods which contribute significantly to the transfer of such technology) which could make a significant contribution to the military potential of any country or combination of countries which would be detrimental to the national security of the United States.

(9) Minimization of restrictions on exports of agricultural commodities and products is of critical importance to the maintenance of a sound agricultural sector, to a positive contribution to the balance of payments, to reducing the level of Federal expenditures for agricultural support programs, and to United States cooperation in efforts to eliminate malnutrition and world hunger.

(10) It is important that the administration of export controls imposed for foreign policy purposes give special emphasis to the need to control exports of goods and substances hazardous to the public health and the environment which are banned or severely restricted for use in the United States, and which, if exported, could affect the international reputation of the United States as a responsible trading partner.

(11) Availability to controlled countries of goods and technology from foreign sources is a fundamental concern of the United States and should be eliminated through negotiations and other appropriate means whenever possible.

(12) Excessive dependence of the United States,

## Legal Authority

it allies, or countries sharing common strategic objectives with the United States, on energy and other critical resources from potential adversaries can be harmful to the mutual and individual security of all those countries.

### Section 3. DECLARATION OF POLICY

The Congress makes the following declarations:

(1) It is the policy of the United States to minimize uncertainties in export control policy and to encourage trade with all countries with which the United States has diplomatic or trading relations, except those countries with which such trade has been determined by the President to be against the national interest.

(2) It is the policy of the United States to use export controls only after full consideration of the impact on the economy of the United States and only to the extent necessary--

(A) to restrict the export of goods and technology which would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States;

(B) to restrict the export of goods and technology where necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations; and

(C) to restrict the export of goods where necessary to protect the domestic economy from the excessive drain of scarce materials and to reduce the serious inflationary impact of foreign demand.

(3) It is the policy of the United States (A) To apply any necessary controls to the maximum extent possible in cooperation with all nations, and (B) To encourage observance of a uniform export control policy by all nations with which the United States has defense treaty commitments or common strategic objectives.

(4) It is the policy of the United States to use its economic resources and trade potential to further the

sound growth and stability of its economy as well as to further its national security and foreign policy objectives.

(5) It is the policy of the United States--

(A) to oppose restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States or against any United States person;

(B) to encourage and, in specified cases, require United States persons engaged in the export of goods or technology or other information to refuse to take actions, including furnishing information or entering into or implementing agreements, which have the effect of furthering or supporting the restrictive trade practices or boycotts fostered or imposed by any foreign country against a country friendly to the United States or against any United States person; and

(C) to foster international cooperation and the development of international rules and institutions to assure reasonable access to world supplies.

(6) It is the policy of the United States that the desirability of subjecting, or continuing to subject, particular goods or technology or other information to United States export controls should be subjected to review by and consultation with representatives of appropriate United States Government agencies and private industry.

(7) It is the policy of the United States to use export controls, including license fees, to secure the removal by foreign countries of restrictions on access to supplies where such restrictions have or may have a serious domestic inflationary impact, have caused or may cause a serious domestic shortage, or have been imposed for purposes of influencing the foreign policy of the United States. In effecting this policy, the President shall make reasonable and prompt efforts to secure the removal or reduction of such restrictions, policies, or actions through international cooperation and agreement before imposing export controls. No action taken in fulfillment of the policy set forth in this paragraph shall apply to the export of medicine or medical supplies.

(8) It is the policy of the United States to use export

## Legal Authority

controls to encourage other countries to take immediate steps to prevent the use of their territories or resources to aid, encourage, or give sanctuary to those persons involved in directing, supporting, or participating in acts of international terrorism. To achieve this objective, the President shall make reasonable and prompt efforts to secure the removal or reduction of such assistance to international terrorists through international cooperation and agreement before imposing export controls.

(9) It is the policy of the United States to cooperate with other countries with which the United States has defense treaty commitments or common strategic objectives in restricting the export of goods and technology which would make a significant contribution to the military potential of any country or combination of countries which would prove detrimental to the security of the United States and of those countries with which the United States has defense treaty commitments or common strategic objectives, and to encourage other friendly countries to cooperate in restricting the sale of goods and technology that can harm the security of the United States.

(10) It is the policy of the United States that export trade by United States citizens be given a high priority and not be controlled except when such controls (A) are necessary to further fundamental national security, foreign policy, or short supply objectives, (B) will clearly further such objectives, and (C) are administered consistent with basic standards of due process.

(11) It is the policy of the United States to minimize restrictions on the export of agricultural commodities and products.

(12) It is the policy of the United States to sustain vigorous scientific enterprise. To do so involves sustaining the ability of scientists and other scholars freely to communicate research findings, in accordance with the applicable provisions of law, by means of publication, teaching, conferences, and other forms of scholarly exchange.

(13) It is the policy of the United States to

control the export of goods and substances banned or severely restricted for use in the United States in order to foster public health and safety and to prevent injury to the foreign policy of the United States as well as to the credibility of the United States as a responsible trading partner.

(14) It is the policy of the United States to cooperate with countries which are allies of the United States and countries which share common strategic objectives with the United States in minimizing dependence on imports of energy and other critical resources from potential adversaries and in developing alternative supplies of such resources in order to minimize strategic threats posed by excessive hard currency earnings derived from such resource exports by countries with policies adverse to the security interests of the United States.

## Section 4. GENERAL PROVISIONS<sup>3</sup>

(a) Types of Licenses.-- Under such conditions as may be imposed by the Secretary which are consistent with the provisions of this Act, the Secretary may require any of the following types of export licenses:

(1) A validated license, authorizing a specific export, issued pursuant to an application by the exporter.

(2) Validated licenses authorizing multiple exports, issued pursuant to an application by the exporter, in lieu of an individual validated license for each such export, including but not limited to the following:

(A) A distribution license, authorizing exports of goods to approved distributors or users of the goods in countries other than controlled countries, except that the Secretary may establish a type of distribution license appropriate for consignees in the People's Republic of China. The Secretary shall grant the distribution license primarily on the basis of the reliability of the applicant and foreign consignees with respect to the prevention of diversion of goods to controlled countries. The Secretary shall have the

responsibility of determining, with the assistance of all appropriate agencies, the reliability of applicants and their immediate consignees. The Secretary's determination shall be based on appropriate investigations of each applicant and periodic reviews of licensees and their compliance with the terms of licenses issued under this Act. Factors such as the applicant's products or volume of business, or the consignee's geographic location, sales distribution area, or degree of foreign ownership, which may be relevant with respect to individual cases, shall not be determinative in creating categories or general criteria for the denial of applications or withdrawal of a distribution license.

**(B)**A comprehensive operations license, authorizing exports and reexports of technology and related goods, including items from the list of militarily critical technologies developed pursuant to section 5(d) of this Act which are included on the control list in accordance with that section, from a domestic concern to and among its foreign subsidiaries, affiliates, joint venturers, and licensees that have long-term, contractually defined relations with the exporter, are located in countries other than controlled countries, (except the People's Republic of China) and are approved by the Secretary. The Secretary shall grant the license to manufacturing, laboratory, or related operations on the basis of approval of the exporter's systems of control, including internal proprietary controls, applicable to the technology and related goods to be exported rather than approval of individual export transactions. The Secretary and the Commissioner of U.S. Customs and Border Protection, consistent with their authorities under section 12(a) of this Act, and with the assistance of all appropriate agencies, shall periodically, but not less frequently than annually, perform audits of licensing procedures under this subparagraph in order to assure the integrity and effectiveness of those procedures.

**(C)**A project license, authorizing exports of goods or technology for a specified activity.

**(D)**A service supply license, authorizing exports of spare or replacement parts for goods previously exported.

**(3)** A general license, authorizing exports, without application by the exporter.

**(4)** Such other licenses as may assist in the effective and efficient implementation of this Act.

**(b)** Control List.-- The Secretary shall establish and maintain a list (hereinafter in this Act referred to as the "control list") stating license requirements (other than for general licenses) for exports of goods and technology under this Act.

**(c)** Foreign Availability.-- In accordance with the provisions of this Act, the President shall not impose export controls for foreign policy or national security purposes on the export from the United States of goods or technology which he determines are available without restriction from sources outside the United States in sufficient quantities and comparable in quality to those produced in the United States so as to render the controls ineffective in achieving their purposes, unless the President determines that adequate evidence has been presented to him demonstrating that the absence of such controls would prove detrimental to the foreign policy or national security of the United States. In complying with the provisions of this subsection, the President shall give strong emphasis to bilateral or multilateral negotiations to eliminate foreign availability. The Secretary and the Secretary of Defense shall cooperate in gathering information relating to foreign availability, including the establishment and maintenance of a jointly operated computer system.

**(d)** Right of Export.-- No authority or permission to export may be required under this Act, or under regulations issued under this Act, except to carry out the policies set forth in section 3 of this Act.

**(e)** Delegation of Authority.-- The President may delegate the power, authority, and discretion conferred upon him by this Act to such departments, agencies, or officials of the Government as he may consider appropriate, except that no authority under this Act may be delegated to, or exercised by, any official of any department or agency the head of which is not appointed by the President, by and with the advice and consent of the Senate. The President may not delegate or transfer his power, authority, and discretion to overrule or modify any recommendation or decision made by the Secretary, the Secretary of Defense, or the Secretary of State pursuant to the provisions of this Act.

## Legal Authority

(f) Notification of the Public; Consultation with Business.-- The Secretary shall keep the public fully apprised of changes in export control policy and procedures instituted in conformity with this Act with a view to encouraging trade. The Secretary shall meet regularly with representatives of a broad spectrum of enterprises, labor organizations, and citizens interested in or affected by export controls, in order to obtain their views on United States export control policy and the foreign availability of goods and technology.

(g) Fees.-- No fee may be charged in connection with the submission or processing of an export license application.

### Section 5. NATIONAL SECURITY CONTROLS<sup>4</sup>

(a) Authority--

(1) In order to carry out the policy set forth in section 3(2)(A) of this Act, the President may, in accordance with the provisions of this section, prohibit or curtail the export of any goods or technology subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States. The authority contained in this subsection includes the authority to prohibit or curtail the transfer of goods or technology within the United States to embassies and affiliates of controlled countries. For purposes of the preceding sentence, the term “affiliates” includes both governmental entities and commercial entities that are controlled in fact by controlled countries. The authority contained in this subsection shall be exercised by the Secretary, in consultation with the Secretary of Defense, and such other departments and agencies as the Secretary considers appropriate, and shall be implemented by means of export licenses described in section 4(a) of this Act.

(2) Whenever the Secretary makes any revision with respect to any goods or technology, or with respect to the countries or destinations, affected by export controls imposed under this section, the

Secretary shall publish in the *Federal Register* a notice of such revision and shall specify in such notice that the revision relates to controls imposed under the authority contained in this section.

(3) In issuing regulations to carry out this section, particular attention shall be given to the difficulty of devising effective safeguards to prevent a country that poses a threat to the security of the United States from diverting critical technologies to military use, the difficulty of devising effective safeguards to protect critical goods, and the need to take effective measures to prevent the reexport of critical technologies from other countries to countries that pose a threat to the security of the United States.

(4) (A) No authority or permission may be required under this section to reexport any goods or technology subject to the jurisdiction of the United States to any country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee [Coordinating Committee for Multilateral Export Controls], or pursuant to an agreement described in subsection (k) of this section. The Secretary may require any person reexporting any goods or technology under this subparagraph to notify the Secretary of such reexports.

(B) Notwithstanding subparagraph (A), the Secretary may require authority or permission to reexport the following:

- (i) supercomputers;
- (ii) goods or technology for sensitive nuclear uses (as defined by the Secretary);
- (iii) devices for surreptitious interception of wire or oral communications; and
- (iv) goods or technology intended for such end users as the Secretary may specify by regulation.

(5) (A) Except as provided in subparagraph (B), no authority or permission may be required under this section to reexport any goods or technology subject to

Protection in this section.

## Legal Authority

the jurisdiction of the United States from any country when the goods or technology to be reexported are incorporated in another good and--

(i) The value of the controlled United States content of that other good is 25 percent or less of the total value of the good; or

(ii) The export of the goods or technology to a controlled country would require only notification of the participating governments of the Coordinating Committee.

For purposes of this paragraph, the “controlled United States content” of a good means those goods or technology subject to the jurisdiction of the United States which are incorporated in the good, if the export of those goods or technology from the United States to a country, at the time that the good is exported to that country, would require a validated license.

(B) The Secretary may by regulation provide that subparagraph (A) does not apply to the reexport of a supercomputer which contains goods or technology subject to the jurisdiction of the United States.

(6) Not later than 90 days after the date of the enactment of this paragraph, the Secretary shall issue regulations to carry out paragraphs (4) and (5). Such regulations shall define the term “supercomputer” for purposes of those paragraphs.

### (b) Policy Toward Individual Countries--

(1) In administering export controls for national security purposes under this section, the President shall establish as a list of controlled countries those countries set forth in section 620(f) of the Foreign Assistance Act of 1961 [22 U.S.C. 2370(f)], except that the President may add any country to or remove any country from such list of controlled countries if he determines that the export of goods or technology to such country would or would not (as the case may be) make a significant contribution to the military potential of such country or a combination of countries which would prove detrimental to the national security of the United States. In determining whether a country is added to or removed from the list of controlled countries, the President shall take into account--

(A) the extent to which the country's policies are adverse to the national security interests of the United States;

(B) the country's Communist or non-Communist status;

(C) the present and potential relationship of the country with the United States;

(D) the present and potential relationships of the country with countries friendly or hostile to the United States;

(E) the country's nuclear weapons capability and the country's compliance record with respect to multilateral nuclear weapons agreements to which the United States is a party; and

(F) such other factors as the President considers appropriate.

Nothing in the preceding sentence shall be interpreted to limit the authority of the President provided in this Act to prohibit or curtail the export of any goods or technology to any country to which exports are controlled for national security purposes other than countries on the list of controlled countries specified in this paragraph. The President shall review not less frequently than every three years in the case of controls maintained cooperatively with other nations, and annually in the case of all other controls, United States policy toward individual countries to determine whether such policy is appropriate in light of the factors set forth in this paragraph.

(2) (A) Except as provided in subparagraph (B), no authority or permission may be required under this section to export goods or technology to a country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee or pursuant to an agreement described in subsection (k) of this section, if the export of such goods or technology to the People's Republic of China or a controlled country on the date of the enactment of the Export Enhancement Act of 1988, [August 23, 1988, Title II - Pub. L. 100-418] would require only notification of the participating governments of the Coordinating Committee.

## Legal Authority

**(B) (i)** The Secretary may require a license for the export of goods or technology described in subparagraph (A) To such end users as the Secretary may specify by regulation.

**(ii)** The Secretary may require any person exporting goods or technology under this paragraph to notify the Secretary of those exports.

**(C)**The Secretary shall, within 3 months after the date of the enactment of the Export Enhancement Act of 1988, determine which countries referred to in subparagraph (A) are implementing an effective export control system consistent with principles agreed to in the Coordinating Committee, including the following:

**(i)** national laws providing appropriate civil and criminal penalties and statutes of limitations sufficient to deter potential violations;

**(ii)** a program to evaluate export license applications that includes sufficient technical expertise to assess the licensing status of exports and ensure the reliability of end-users;

**(iii)** an enforcement mechanism that provides authority for trained enforcement officers to investigate and prevent illegal exports;

**(iv)** a system of export control documentation to verify the movement of goods and technology; and

**(v)** procedures for the coordination and exchange of information concerning violations of the agreement of the Coordinating Committee.

The Secretary shall, at least once each year, review the determination made under the preceding sentence with respect to all countries referred to in subparagraph (A). The Secretary may, as appropriate, add countries to, or remove countries from, the list of countries that are implementing an effective export control system in accordance with this subparagraph. No authority or permission to export may be required for the export of goods or technology to a country on such list.

**(3) (A)**No authority or permission may be required under this section to export to any country,

other than a controlled country, any goods or technology if the export of the goods or technology to controlled countries would require only notification of the participating governments of the Coordinating Committee.

**(B)**The Secretary may require any person exporting any goods or technology under subparagraph (A) To notify the Secretary of those exports.

### **(c) Control List--**

**(1)** The Secretary shall establish and maintain, as part of the control list, a list of all goods and technology subject to export controls under this section. Such goods and technology shall be clearly identified as being subject to controls under this section.

**(2)** The Secretary of Defense and other appropriate departments and agencies shall identify goods and technology for inclusion on the list referred to in paragraph (1). Those items which the Secretary and the Secretary of Defense concur shall be subject to export controls under this section shall comprise such list. If the Secretary and the Secretary of Defense are unable to concur on such items, as determined by the Secretary, the Secretary of Defense may, within 20 days after receiving notification of the Secretary's determination, refer the matter to the President for resolution. The Secretary of Defense shall notify the Secretary of any such referral. The President shall, not later than 20 days after such referral, notify the Secretary of his determination with respect to the inclusion of such items on the list. Failure of the Secretary of Defense to notify the President or the Secretary, or failure of the President to notify the Secretary, in accordance with this paragraph, shall be deemed by the Secretary to constitute concurrence in the implementation of the actions proposed by the Secretary regarding the inclusion of such items on the list.

**(3)** The Secretary shall conduct partial reviews of the list established pursuant to this subsection at least once each calendar quarter in order to carry out the policy set forth in section 3(2)(A) of this Act and the provisions of this section, and shall promptly make such revisions of the list as may be necessary after each such review. Before beginning each quarterly

## Legal Authority

review, the Secretary shall publish notice of that review in the *Federal Register*. The Secretary shall provide a 30-day period during each review for comment and the submission of data, with or without oral presentation, by interested Government agencies and other affected or potentially affected parties. After consultation with appropriate Government agencies, the Secretary shall make a determination of any revisions in the list within 30 days after the end of the review period. The concurrence or approval of any other department or agency is not required before any such revision is made. The Secretary shall publish in the *Federal Register* any revisions in the list, with an explanation of the reasons for the revisions. The Secretary shall use the data developed from each review in formulating United States proposals relating to multilateral controls in the group known as the Coordinating Committee. The Secretary shall further assess, as part of each review, the availability from sources outside the United States of goods and technology comparable to those subject to export controls imposed under this section. All goods and technology on the list shall be reviewed at least once each year. The provisions of this paragraph apply to revisions of the list which consist of removing items from the list or making changes in categories of, or other specifications in, items on the list.

(4) The appropriate technical advisory committee appointed under subsection (h) of this section shall be consulted by the Secretary with respect to changes, pursuant to paragraph (2) or (3), in the list established pursuant to this subsection, and such technical advisory committee may submit recommendations to the Secretary with respect to such changes. The Secretary shall consider the recommendations of the technical advisory committee and shall inform the committee of the disposition of its recommendations.

(5) (A) Not later than 6 months after the date of enactment of this paragraph [August 23, 1988], the following shall no longer be subject to export controls under this section:

(i) All goods and technology the export of which to controlled countries on the date of the enactment of the Export Enhancement Act of 1988 would require only notification of the participating governments of the Coordinating Committee, except for those goods or technology on which the

Coordinating Committee agrees to maintain such notification requirement.

(ii) All medical instruments and equipment, subject to the provisions of subsection (m) of this section.

(B) The Secretary shall submit to the Congress annually a report setting forth the goods and technology from which export controls have been removed under this paragraph.

(6) (A) Notwithstanding subsection (f) or (h)(6) of this section, any export control imposed under this section which is maintained unilaterally by the United States shall expire 6 months after the date of the enactment of this paragraph, or 6 months after the export control is imposed, whichever date is later, except that--

(i) any such export controls on those goods or technology for which a determination of the Secretary that there is no foreign availability has been made under subsection (f) or (h)(6) of this section before the end of the applicable 6-month period and is in effect may be renewed for periods of not more than 6 months each, and

(ii) any such export controls on those goods or technology with respect to which the President, by the end of the applicable 6-month period, is actively pursuing negotiations with other countries to achieve multilateral export controls on those goods or technology may be renewed for 2 periods of not more than 6 months each.

(B) Export controls on goods or technology described in clause (i) or (ii) of subparagraph (A) may be renewed only if, before each renewal, the President submits to the Congress a report setting forth all the controls being renewed and stating the specific reasons for such renewal.

(7) Notwithstanding any other provision of this subsection, after 1 year has elapsed since the last review in the *Federal Register* on any item within a category on the control list the export of which to the People's Republic of China would require only notification of the members of the group known as the Coordinating Committee, an export license applicant may file an allegation with the Secretary that such item

### Legal Authority

has not been so reviewed within such 1-year period. Within 90 days after receipt of such allegation, the Secretary--

(A) shall determine the truth of the allegation;

(B) shall, if the allegation is confirmed, commence and complete the review of the item; and

(C) shall, pursuant to such review, submit a finding for publication in the *Federal Register*.

In such finding, the Secretary shall identify those goods or technology which shall remain on the control list and those goods or technology which shall be removed from the control list. If such review and submission for publication are not completed within that 90-day period, the goods or technology encompassed by such item shall immediately be removed from the control list.

#### (d) Militarily Critical Technologies.—

(1) The Secretary, in consultation with the Secretary of Defense, shall review and revise the list established pursuant to subsection (c), as prescribed in paragraph (3) of such subsection, for the purpose of insuring that export controls imposed under this section cover and (to the maximum extent consistent with the purposes of this Act) are limited to militarily critical goods and technologies and the mechanisms through which such goods and technologies may be effectively transferred.

(2) The Secretary of Defense shall bear primary responsibility for developing a list of militarily critical technologies. In developing such list, primary emphasis shall be given to--

(A) arrays of design and manufacturing know-how,

(B) keystone manufacturing, inspection, and test equipment,

(C) goods accompanied by sophisticated operation, application, or maintenance know-how, and

(D) keystone equipment which would reveal or give insight into the design and manufacture of a United States military system, which are not possessed

by, or available in fact from sources outside the United States to, controlled countries and which, if exported, would permit a significant advance in a military system of any such country.

(3) The list referred to in paragraph (2) shall be sufficiently specific to guide the determinations of any official exercising export licensing responsibilities under this Act.

(4) The Secretary and the Secretary of Defense shall integrate items on the list of militarily critical technologies into the control list in accordance with the requirements of subsection (c) of this section. The integration of items on the list of militarily critical technologies into the control list shall proceed with all deliberate speed. Any disagreement between the Secretary and the Secretary of Defense regarding the integration of an item on the list of militarily critical technologies into the control list shall be resolved by the President. Except in the case of a good or technology for which a validated license may be required under subsection (f)(4) or (h)(6) of this section, a good or technology shall be included on the control list only if the Secretary finds that controlled countries do not possess that good or technology, or a functionally equivalent good or technology, and the good or technology or functionally equivalent good or technology is not available in fact to a controlled country from sources outside the United States in sufficient quantity and of comparable quality so that the requirement of a validated license for the export of such good or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section. The Secretary and the Secretary of Defense shall jointly submit a report to the Congress, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985, on actions taken to carry out this paragraph. For the purposes of this paragraph, assessment of whether a good or technology is functionally equivalent shall include consideration of the factors described in subsection (f)(3) of this section.

(5) The Secretary of Defense shall establish a procedure for reviewing the goods and technology on the list of militarily critical technologies on an ongoing basis for the purpose of removing from the list of militarily critical technologies any goods or technology that are no longer militarily critical. The Secretary of Defense may add to the list of militarily

## Legal Authority

critical technologies any good or technology that the Secretary of Defense determines is militarily critical, consistent with the provisions of paragraph (2) of this subsection. If the Secretary and the Secretary of Defense disagree as to whether any change in the list of militarily critical technologies by the addition or removal of a good or technology should also be made in the control list, consistent with the provisions of the fourth sentence of paragraph (4) of this subsection, the President shall resolve the disagreement.

(6) The establishment of adequate export controls for militarily critical technology and keystone equipment shall be accompanied by suitable reductions in the controls on the products of that technology and equipment.

(7) The Secretary of Defense shall, not later than 1 year after the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985], report to the Congress on efforts by the Department of Defense to assess the impact that the transfer of goods or technology on the list of militarily critical technologies to controlled countries has had or will have on the military capabilities of those countries.

### (e) Export Licenses.--

(1) The Congress finds that the effectiveness and efficiency of the process of making export licensing determinations under this section is severely hampered by the large volume of validated export license applications required to be submitted under this Act. Accordingly, it is the intent of Congress in this subsection to encourage the use of the multiple validated export licenses described in section 4(a)(2) of this Act in lieu of individual validated licenses.

(2) To the maximum extent practicable, consistent with the national security of the United States, the Secretary shall require a validated license under this section for the export of goods or technology only if--

(A) the export of such goods or technology is restricted pursuant to a multilateral agreement, formal or informal, to which the United States is a party and, under the terms of such multilateral agreement, such export requires the specific approval of the parties to such multilateral agreement;

(B) with respect to such goods or technology, other nations do not possess capabilities comparable to those possessed by the United States; or

(C) the United States is seeking the agreement of other suppliers to apply comparable controls to such goods or technology and, in the judgment of the Secretary, United States export controls on such goods or technology, by means of such license, are necessary pending the conclusion of such agreement.

(3) The Secretary, subject to the provisions of subsection (1) of this section, shall not require an individual validated export license for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that has been lawfully exported from the United States.

(4) The Secretary shall periodically review the procedures with respect to the multiple validated export licenses, taking appropriate action to increase their utilization by reducing qualification requirements or lowering minimum thresholds, to combine procedures which appear to be of marginal utility.

(5) The export of goods subject to export controls under this section shall be eligible, at the discretion of the Secretary, for a distribution license and other licenses authorizing multiple exports of goods, in accordance with section 4(a)(2) of this Act. The export of technology and related goods subject to export controls under this section shall be eligible for a comprehensive operations license in accordance with section 4(a)(2)(B) of this Act.

(6) Any application for a license for the export to the People's Republic of China of any good on which export controls are in effect under this section, without regard to the technical specifications of the good, for the purpose of demonstration or exhibition at a trade show shall carry a presumption of approval if--

(A) the United States exporter retains title to the good during the entire period in which the good is in the People's Republic of China; and

(B) the exporter removes the good from the People's Republic of China no later than at the conclusion of the trade show.

### (f) Foreign Availability.--

## Legal Authority

### (1) Foreign Availability to Controlled Countries.—

(A) The Secretary, in consultation with the Secretary of Defense and other appropriate Government agencies and with appropriate technical advisory committees established pursuant to subsection (h) of this section, shall review, on a continuing basis, the availability to controlled countries, from sources outside the United States, including countries which participate with the United States in multilateral export controls, of any goods or technology the export of which requires a validated license under this section. In any case in which the Secretary determines, in accordance with procedures and criteria which the Secretary shall by regulation establish, that any such goods or technology are available in fact to controlled countries from such sources in sufficient quantity and of comparable quality so that the requirement of a validated license for the export of such goods or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section, the Secretary may not, after the determination is made, require a validated license for the export of such goods or technology during the period of such foreign availability, unless the President determines that the absence of export controls under this section on the goods or technology would prove detrimental to the national security of the United States. In any case in which the President determines under this paragraph that export controls under this section must be maintained notwithstanding foreign availability, the Secretary shall publish that determination, together with a concise statement of its basis and the estimated economic impact of the decision.

(B) The Secretary shall approve any application for a validated license which is required under this section for the export of any goods or technology to a controlled country and which meets all other requirements for such an application, if the Secretary determines that such goods or technology will, if the license is denied, be available in fact to such country from sources outside the United States, including countries which participate with the United States in multilateral export controls, in sufficient quantity and of comparable quality so that denial of the license would be ineffective in achieving the purpose set forth in subsection (a) of this section, unless the President

determines that approving the license application would prove detrimental to the national security of the United States. In any case in which the Secretary makes a determination of foreign availability under this subparagraph with respect to any goods or technology, the Secretary shall determine whether a determination of foreign availability under subparagraph (A) with respect to such goods or technology is warranted.

### (2) Foreign Availability to Other Than Controlled Countries--

(A) The Secretary shall review, on a continuing basis, the availability to countries other than controlled countries, from sources outside the United States, of any goods or technology the export of which requires a validated license under this section. If the Secretary determines, in accordance with procedures which the Secretary shall establish, that any goods or technology in sufficient quantity and of comparable quality are available in fact from sources outside the United States (other than availability under license from a country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee or pursuant to an agreement described in subsection (k) of this section), the Secretary may not, after the determination is made and during the period of such foreign availability, require a validated license for the export of such goods or technology to any country (other than a controlled country) to which the country from which the goods or technology is available does not place controls on the export of such goods or technology. The requirement with respect to a validated license in the preceding sentence shall not apply if the President determines that the absence of export controls under this section on the goods or technology would prove detrimental to the national security of the United States. In any case in which the President determines under this paragraph that export controls under this section must be maintained notwithstanding foreign availability, the Secretary shall publish that determination, together with a concise statement of its basis and the estimated economic impact of the decision.

(B) The Secretary shall approve any application for a validated license which is required under this section for the export of any goods or technology to a

## Legal Authority

country (other than a controlled country) and which meets all other requirements for such an application, if the Secretary determines that such goods or technology are available from foreign sources to that country under the criteria established in subparagraph (A), unless the President determines that approving the license application would prove detrimental to the national security of the United States. In any case in which the Secretary makes a determination of foreign availability under this subparagraph with respect to any goods or technology, the Secretary shall determine whether a determination of foreign availability under subparagraph (A) with respect to such goods or technology is warranted.

### (3) Procedures for Making Determinations.—

(A) The Secretary shall make a foreign availability determination under paragraph (1) or (2) on the Secretary's own initiative or upon receipt of an allegation from an export license applicant that such availability exists. In making any such determination, the Secretary shall accept the representations of applicants made in writing and supported by reasonable evidence, unless such representations are contradicted by reliable evidence, including scientific or physical examination, expert opinion based upon adequate factual information, or intelligence information. In making determinations of foreign availability, the Secretary may consider such factors as cost, reliability, the availability and reliability of spare parts and the cost and quality thereof, maintenance programs, durability, quality of end products produced by the item proposed for export, and scale of production. For purposes of this subparagraph, "evidence" may include such items as foreign manufacturers' catalogues, brochures, or operations or maintenance manuals, articles from reputable trade publications, photographs, and depositions based upon eyewitness accounts.

(B) In a case in which an allegation is received from an export license applicant, the Secretary shall, upon receipt of the allegation, submit for publication in the *Federal Register* notice of such receipt. Within 4 months after receipt of the allegation, the Secretary shall determine whether the foreign availability exists, and shall so notify the applicant. If the Secretary has determined that the foreign availability exists, the Secretary shall, upon making such determination, submit the determination for

review to other departments and agencies as the Secretary considers appropriate. The Secretary's determination of foreign availability does not require the concurrence or approval of any official, department, or agency to which such a determination is submitted. Not later than 1 month after the Secretary makes the determination, the Secretary shall respond in writing to the applicant and submit for publication in the *Federal Register*, that--

(i) The foreign availability does exist and--

(I) the requirement of a validated license has been removed,

(II) the President has determined that export controls under this section must be maintained notwithstanding the foreign availability and the applicable steps are being taken under paragraph (4), or

(III) in the case of a foreign availability determination under paragraph (1), the foreign availability determination will be submitted to a multilateral review process in accordance with the agreement of the Coordinating Committee for a period of not more than 4 months beginning on the date of the publication; or

(ii) The foreign availability does not exist.

In any case in which the submission for publication is not made within the time period specified in the preceding sentence, the Secretary may not thereafter require a license for the export of the goods or technology with respect to which the foreign availability allegation was made. In the case of a foreign availability determination under paragraph (1) To which clause (i)(III) applies, no license for such export may be required after the end of the 9-month period beginning on the date on which the allegation is received.

(4) Negotiations to Eliminate Foreign Availability.--

(A) In any case in which export controls are maintained under this section notwithstanding foreign availability, on account of a determination by the President that the absence of the controls would prove detrimental to the national security of the United

## Legal Authority

States, the President shall actively pursue negotiations with the governments of the appropriate foreign countries for the purpose of eliminating such availability. No later than the commencement of such negotiations, the President shall notify in writing the committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on International Relations of the House of Representatives that he has begun such negotiations and why he believes it is important to national security that export controls on the goods or technology involved be maintained.

(B) If, within 6 months after the President's determination that export controls be maintained, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export controls involved would prove detrimental to the national security of the United States. Whenever the President has reason to believe that goods or technology subject to export controls for national security purposes by the United States may become available from other countries to controlled countries and that such availability can be prevented or eliminated by means of negotiations with such other countries, the President shall promptly initiate negotiations with the governments of such other countries to prevent such foreign availability.

(C) After an agreement is reached with a country pursuant to negotiations under this paragraph to eliminate or prevent foreign availability of goods or technology, the Secretary may not require a validated license for the export of such goods or technology to that country.

(5) Expedited License for Items Available to Countries Other Than Controlled Countries.--

(A) In any case in which the Secretary finds that any goods or technology from foreign sources is of similar quality to goods or technology the export of which requires a validated license under this section and is available to a country other than a controlled country without effective restrictions, the Secretary

shall designate such goods or technology as eligible for export to such country under this paragraph.

(B) In the case of goods or technology designated under subparagraph (A), then 20 working days after the date of formal filing with the Secretary of an individual validated license application for the export of those goods or technology to an eligible country, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license unless the license has been denied by the Secretary on account of an inappropriate end user. The Secretary may extend the 20-day period provided in the preceding sentence for an additional period of 15 days if the Secretary requires additional time to consider the application and so notifies the applicant.

(C) The Secretary may make a foreign availability determination under subparagraph (A) on the Secretary's own initiative, upon receipt of an allegation from an export license applicant that such availability exists, or upon the submission of a certification by a technical advisory committee of appropriate jurisdiction that such availability exists. Upon receipt of such an allegation or certification, the Secretary shall publish notice of such allegation or certification in the *Federal Register* and shall make the foreign availability determination within 30 days after such receipt and publish the determination in the *Federal Register*. In the case of the failure of the Secretary to make and publish such determination within that 30-day period, the goods or technology involved shall be deemed to be designated as eligible for export to the country or countries involved, for purposes of subparagraph (B).

(D) The provisions of paragraphs (1), (2), (3), and (4) do not apply with respect to determinations of foreign availability under this paragraph.

(6) Office of Foreign Availability.-- The Secretary shall establish in the Department of Commerce an Office of Foreign Availability, which shall be under the direction of the Under Secretary of Commerce for Export Administration. The Office shall be responsible for gathering and analyzing all the necessary information in order for the Secretary to make determinations of foreign availability under this Act. The Secretary shall make available to the Committee on International Relations of the House of

## Legal Authority

Representatives and the Committee on Banking, Housing and Urban Affairs of the Senate at the end of each 6-month period during a fiscal year information on the operations of the Office, and on improvements in the Government's ability to assess foreign availability, during that 6-month period, including information on the training of personnel, the use of computers, and the use of Foreign Commercial Service officers. Such information shall also include a description of representative determinations made under this Act during that 6-month period that foreign availability did or did not exist (as the case may be), together with an explanation of such determinations.

(7) **Sharing of Information.**-- Each department or agency of the United States, including any intelligence agency, and all contractors with any such department or agency, shall, upon the request of the Secretary and consistent with the protection of intelligence sources and methods, furnish information to the Office of Foreign Availability concerning foreign availability of goods and technology subject to export controls under this Act. Each such department or agency shall allow the Office of Foreign Availability access to any information from a laboratory or other facility within such department or agency.

(8) **Removal of Controls on Less Sophisticated Goods or Technology.**-- In any case in which the Secretary may not, pursuant to paragraph (1), (2), (3) or (4) of this subsection or paragraph (6) of subsection (h) of this section, require a validated license for the export of goods or technology, then the Secretary may not require a validated license for the export of any similar goods or technology whose function, technological approach, performance thresholds, and other attributes that form the basis for export controls under this section do not exceed the technical parameters of the goods or technology from which the validated license requirement is removed under the applicable paragraph.

(9) **Notice of All Foreign Availability Assessments.**-- Whenever the Secretary undertakes a foreign availability assessment under this subsection or subsection (h)(6), the Secretary shall publish notice of such assessment in the *Federal Register*.

(10) **Availability Defined.**-- For purposes of this subsection and subsections (f) and (h), the term "available in fact to controlled countries" includes

production or availability of any goods or technology in any country--

(A) from which the goods or technology is not restricted for export to any controlled country; or

(B) in which such export restrictions are determined by the Secretary to be ineffective.

For purposes of subparagraph (B), the mere inclusion of goods or technology on a list of goods or technology subject to bilateral or multilateral national security export controls shall not alone constitute credible evidence that a country provides an effective means of controlling the export of such goods or technology to controlled countries.

(g) **Indexing.**--

(1) In order to ensure that requirements for validated licenses and other licenses authorizing multiple exports are periodically removed as goods or technology subject to such requirements become obsolete with respect to the national security of the United States, regulations issued by the Secretary may, where appropriate, provide for annual increases in the performance levels of goods or technology subject to any such licensing requirement. The regulations issued by the Secretary shall establish as one criterion for the removal of goods or technology from such license requirements the anticipated needs of technology which no longer meets the performance levels established by the regulations shall be removed from the list established pursuant to subsection (c) of this section unless, under such exceptions and under such procedures as the Secretary shall prescribe, any other department or agency of the United States objects to such removal and the Secretary determines, on the basis of such objection, that the goods or technology shall not be removed from the list. The Secretary shall also consider, where appropriate, removing site visitation requirements for goods and technology which are removed from the list unless objections described in this subsection are raised.

(2) (A) In carrying out this subsection, the Secretary shall conduct annual reviews of the performance levels of goods or technology--

(i) which are eligible for export under a distribution license,

## Legal Authority

(ii) below which exports to the People's Republic of China require only notification of the governments participating in the group known as the Coordinating Committee, and

(iii) below which no authority or permission to export may be required under subsection (b)(2) or (b)(3) of this section.

The Secretary shall make appropriate adjustments to such performance levels based on these reviews.

(B) In any case in which the Secretary receives a request which--

(i) is to revise the qualification requirements or minimum thresholds of any goods eligible for export under distribution license, and

(ii) is made by an exporter of such goods, representatives of an industry which produces such goods, or a technical advisory committee established under subsection (h) of this section,

the Secretary, after consulting with other appropriate Government agencies and technical advisory committees established under subsection (h) of this section, shall determine whether to make such revision, or some other appropriate revision, in such qualification requirements or minimum thresholds. In making this determination, the Secretary shall take into account the availability of the goods from sources outside the United States. The Secretary shall make a determination on a request made under this subparagraph within 90 days after the date on which the request is filed. If the Secretary's determination pursuant to such a request is to make a revision, such revision shall be implemented within 120 days after the date on which the request is filed and shall be published in the *Federal Register*.

(h) Technical Advisory Committees.--

(1) Upon written request by representatives of a substantial segment of any industry which produces any goods or technology subject to export controls under this section or being considered for such controls because of their significance to the national security of the United States, the Secretary shall appoint a technical advisory committee for any such

goods or technology which the Secretary determines are difficult to evaluate because of questions concerning technical matters, worldwide availability, and actual utilization of production and technology, or licensing procedures. Each such committee shall consist of representatives of United States industry and Government, including the Departments of Commerce, Defense, and State, the intelligence community and, in the discretion of the Secretary, other Government departments and agencies. No person serving on any such committee who is a representative of industry shall serve on such committee for more than four consecutive years.

(2) Technical advisory committees established under paragraph (1) shall advise and assist the Secretary, the Secretary of Defense, and any other department, agency, or official of the Government of the United States to which the President delegates authority under this Act, with respect to actions designed to carry out the policy set forth in section 3(2)(A) of this Act. Such committees, where they have expertise in such matters, shall be consulted with respect to questions involving (A) Technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to any goods or technology, (D) revisions of the control list (as provided in subsection (c)(4)), including proposed revisions of multilateral controls in which the United States participates, (E) The issuance of regulations, and (F) any other questions relating to actions designed to carry out the policy set forth in Section 3(2)(A) of this Act. Nothing in this subsection shall prevent the Secretary or the Secretary of Defense from consulting, at any time, with any person representing industry or the general public, regardless of whether such person is a member of a technical advisory committee. Members of the public shall be given a reasonable opportunity, pursuant to regulations prescribed by the Secretary, to present evidence to such committees.

(3) Upon request of any member of any such committee, the Secretary may, if the Secretary determines it appropriate, reimburse such member for travel, subsistence, and other necessary expenses incurred by such member in connection with the duties of such member.

(4) Each such committee shall elect a chairman,

## Legal Authority

and shall meet at least every three months at the call of the chairman, unless the chairman determines, in consultation with the other members of the committee, that such a meeting is not necessary to achieve the purposes of this subsection. Each such committee shall be terminated after a period of 2 years, unless extended by the Secretary for additional periods of 2 years. The Secretary shall consult each such committee with respect to such termination or extension of that committee.

(5) To facilitate the work of the technical advisory committees, the Secretary, in conjunction with other departments and agencies participating in the administration of this Act, shall disclose to each such committee adequate information, consistent with national security, pertaining to the reasons for the export controls which are in effect or contemplated for the goods or technology with respect to which that committee furnishes advice.

(6) Whenever a technical advisory committee certifies to the Secretary that goods or technology with respect to which such committee was appointed have become available in fact, to controlled countries from sources outside the United States, including countries which participate with the United States in multilateral export controls, in sufficient quantity and of comparable quality so that requiring a validated license for the export of such goods or technology would be ineffective in achieving the purpose set forth in subsection (a) of this section the technical advisory committee shall submit that certification to the Congress at the same time the certification is made to the Secretary, together with the documentation for the certification. The Secretary shall investigate the foreign availability so certified and, not later than 90 days after the certification is made, shall submit a report to the technical advisory committee and the Congress stating that--

(A) the Secretary has removed the requirement of a validated license for the export of the goods or technology, on account of the foreign availability,

(B) the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, or

(C) the Secretary has determined on the basis of the investigation that the foreign availability does not

exist.

To the extent necessary, the report may be submitted on a classified basis. In any case in which the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, the President shall actively pursue such negotiations with the governments of the appropriate foreign countries. If, within 6 months after the Secretary submits such report to the Congress, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the exports of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States. After an agreement is reached with a country pursuant to negotiations under this paragraph to eliminate foreign availability of goods or technology, the Secretary may not require a validated license for the export of such goods or technology to that country.

(i) **Multilateral Export Controls.**-- Recognizing the ineffectiveness of unilateral controls and the importance of uniform enforcement measures to the effectiveness of multilateral controls, the President shall enter into negotiations with the governments participating in the group known as the Coordinating Committee (hereinafter in the subsection referred to as the "Committee") with a view toward accomplishing the following objectives:

(1) Enhanced public understanding of the Committee's purpose and procedures, including publication of the list of items controlled for export by agreement of the Committee, together with all notes, understandings, and other aspects of such agreement of the Committee, and all changes thereto.

(2) Periodic meetings of high-level representatives of participating governments for the purpose of coordinating export control policies and issuing policy guidance to the Committee.

(3) Strengthened legal basis for each government's export control system, including, as appropriate, increased penalties and statutes of limitations.

## Legal Authority

(4) Harmonization of export control documentation by the participating governments to verify the movement of goods and technology subject to controls by the Committee.

(5) Improved procedures for coordination and exchange of information concerning violations of the agreement of the Committee.

(6) Procedures for effective implementation of the agreement through uniform and consistent interpretations of export controls agreed to by the governments participating in the Committee.

(7) Coordination of national licensing and enforcement efforts by governments participating in the Committee, including sufficient technical expertise to assess the licensing status of exports and to ensure end-use verification.

(8) More effective procedures for enforcing export controls, including adequate training, resources, and authority for enforcement officers to investigate and prevent illegal exports.

(9) Agreement to provide adequate resources to enhance the functioning of individual national export control systems and of the Committee.

(10) Improved enforcement and compliance with the agreement through elimination of unnecessary export controls and maintenance of an effective control list.

(11) Agreement to enhance cooperation among members of the Committee in obtaining the agreement of governments outside the Committee to restrict the export of goods and technology on the International Control List, to establish an ongoing mechanism in the Committee to coordinate planning and implementation of export control measures related to such agreements, and to remove items from the International Control List if such items continue to be available to controlled countries or if the control of such items no longer serves the common strategic objectives of the members of the Committee.

For purposes of reviews of the International Control List, the President may include as advisors to the United States delegation to the Committee

representatives of industry who are knowledgeable with respect to the items being reviewed.

### (j) Commercial Agreements with Certain Countries.--

(1) Any United States firm, enterprise, or other nongovernmental entity which, enters into an agreement with any agency of the government of a controlled country that calls for the encouragement of technical cooperation and is intended to result in the export from the United States to the other party of unpublished technical data of United States origin, shall report to the Secretary the agreement with such agency in sufficient detail.

(2) The provisions of paragraph (1) shall not apply to colleges, universities, or other educational institutions.

(k) Negotiations with Other Countries.-- The Secretary of State, in consultation with the Secretary of Defense, the Secretary of Commerce, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with other countries, including those countries not participating in the group known as the Coordinating Committee, regarding their cooperation in restricting the export of goods and technology in order to carry out the policy set forth in section 3(9) of this Act, as authorized by subsection (a) of this section, including negotiations with respect to which goods and technology should be subject to multilaterally agreed export restrictions and what conditions should apply for exceptions for those restrictions. In cases where such negotiations produce agreements on export restrictions comparable in practice to those maintained by the Coordinating Committee, the Secretary shall treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports to members of the Coordinating Committee are treated, including the same manner as exports are treated under subsection (b)(2) of this section and Section 10(o) of this Act.

### (l) Diversion of Controlled Goods or Technology.--

(1) Whenever there is reliable evidence, as determined by the Secretary, that goods or technology, which were exported subject to national security controls under this section to a controlled country have been diverted to an unauthorized use or consignee in

## Legal Authority

violation of the conditions of an export license, the Secretary for as long as that diversion continues--

(A) shall deny all further exports, to or by the party or parties responsible for that diversion or who conspired in that diversion, of any goods or technology subject to national security controls under this section regardless of whether such goods or technology are available from sources outside the United States; and

(B) may take such additional actions under this Act with respect to the party or parties referred to in subparagraph (A) as the Secretary determines are appropriate in the circumstances to deter the further use of the previously exported goods or technology.

(2) As used in this subsection, the term “unauthorized use” means the use of United States goods or technology in the design, production, or maintenance of any item on the United States Munitions List, or the military use of any item on the International Control List of the Coordinating Committee.

(m) Goods Containing Controlled Parts and Components.-- Export controls may not be imposed under this section, or under any other provision of law, on a good solely on the basis that the good contains parts or components subject to export controls under this section if such parts or components--

(1) are essential to the functioning of the good,

(2) are customarily included in sales of the good in countries other than controlled countries, and

(3) comprise 25 percent or less of the total value of the good, unless the good itself, if exported, would by virtue of the functional characteristics of the good as a whole make a significant contribution to the military potential of a controlled country which would prove detrimental to the national security of the United States.

(n) Security Measures.-- The Secretary and the Commissioner of U.S. Customs and Border Protection, consistent with their authorities under section 12(a) of this Act, and in consultation with the Director of the Federal Bureau of Investigation, shall provide advice and technical assistance to persons engaged in the manufacture or handling of goods or

technology subject to export controls under this section to develop security systems to prevent violations or evasions of those export controls.

(o) Recordkeeping.-- The Secretary, the Secretary of Defense, and any other department or agency consulted in connection with a license application under this Act or a revision of a list of goods or technology subject to export controls under this Act, shall make and keep records of their respective advice, recommendations, or decisions in connection with any such license application or revision, including the factual and analytical basis of the advice, recommendations, or decisions.

(p) National Security Control Office.-- To assist in carrying out the policy and other authorities and responsibilities of the Secretary of Defense under this section, there is established in the Department of Defense, a National Security Control Office under the direction of the Under Secretary of Defense for Policy. The Secretary of Defense may delegate to that office such of those authorities and responsibilities, together with such ancillary functions, as the Secretary of Defense considers appropriate.

(q) Exclusion for Agricultural Commodities.-- This section does not authorize export controls on agricultural commodities, including fats, oils, and animal hides and skins.

## Section 6.

### FOREIGN POLICY CONTROLS

(a) Authority.--

(1) In order to carry out the policy set forth in paragraph (2)(B), (7), (8), or (13) of section 3 of this Act, the President may prohibit or curtail the exportation of any goods, technology, or other information subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States, to the extent necessary to further significantly the foreign policy of the United States or to fulfill its declared international obligations. The authority granted by this subsection shall be exercised by the Secretary, in consultation with the Secretary of State, the Secretary of Defense, the Secretary of Agriculture, the Secretary of the Treasury, the United States Trade Representative, and

## Legal Authority

such other departments and agencies as the Secretary considers appropriate, and shall be implemented by means of export licenses issued by the Secretary.

(2) Any export control imposed under this section shall apply to any transaction or activity undertaken with the intent to evade that export control, even if that export control would not otherwise apply to that transaction or activity.

(3) Export controls maintained for foreign policy purposes shall expire on December 31, 1979, or one year after imposition, whichever is later, unless extended by the President in accordance with subsections (b) and (f). Any such extension shall not be for a period of more than one year.

(4) Whenever the Secretary denies any export license under this subsection, the Secretary shall specify in the notice to the applicant of the denial, of such license that the license was denied under the authority contained in this subsection, and the reasons for such denial with reference to the criteria set forth in subsection (b) of this section. The Secretary shall also include in such notice what, if any, modifications in or restrictions on the goods or technology for which the license was sought would allow such export to be compatible with controls implemented under this section, or the Secretary shall indicate in such notice which officers and employees of the Department of Commerce who are familiar with the application will be made reasonably available to the applicant for consultation with regard to such modifications or restrictions, if appropriate.

(5) In accordance with the provisions of section 10 of this Act, the Secretary of State shall have the right to review any export license application under this section which the Secretary of State requests to review.

(6) Before imposing, expanding, or extending export controls under this section on exports to a country which can use goods, technology, or information available from foreign sources and so incur little or no economic costs as a result of the controls, the President should, through diplomatic means, employ alternatives to export controls which offer opportunities of distinguishing the United States from, and expressing the displeasure of the United States with, the specific actions of that country in

response to which the controls are proposed. Such alternatives include private discussions with foreign leaders, public statements in situations where private diplomacy is unavailable or not effective, withdrawal of ambassadors, and reduction of the size of the diplomatic staff that the country involved is permitted to have in the United States.

### (b) Criteria.--

(1) Subject to paragraph (2) of this subsection, the President may impose, extend, or expand export controls under this section only if the President determines that--

(A) such controls are likely to achieve the intended foreign policy purpose, in light of other factors, including the availability from other countries of the goods or technology proposed for such controls, and that foreign policy purpose cannot be achieved through negotiations or other alternative means;

(B) the proposed controls are compatible with the foreign policy objectives of the United States and with overall United States policy toward the country to which exports are to be subject to the proposed controls;

(C) the reaction of other countries to the imposition, extension, or expansion of such export controls by the United States is not likely to render the controls ineffective in achieving the intended foreign policy purpose or to be counter-productive to United States foreign policy interests;

(D) the effect of the proposed controls on the export performance of the United States, the competitive position of the United States in the international economy, the international reputation of the United States as a supplier of goods and technology, or on the economic well-being of individual United States companies and their employees and communities does not exceed the benefit to United States foreign policy objectives; and

(E) the United States has the ability to enforce the proposed controls effectively.

(2) With respect to those export controls in effect under this section on the date of the enactment of the Export Administration Amendments Act of 1985 [July

## Legal Authority

12, 1985], the President, in determining whether to extend those controls, as required by subsection (a) (3) of this section, shall consider the criteria set forth in paragraph (1) of this subsection and shall consider the foreign policy consequences of modifying the export controls.

**(c) Consultation with Industry.**-- The Secretary in every possible instance shall consult with and seek advice from affected United States industries and appropriate advisory committees established under section 135 of the Trade Act of 1974 [19 U.S.C. 2155] before imposing any export control under this section. Such consultation and advice shall be with respect to the criteria set forth in subsection (b) (1) and such other matters as the Secretary considers appropriate.

**(d) Consultation with Other Countries.**-- When imposing export controls under this section, the President shall, at the earliest appropriate opportunity, consult with the countries with which the United States maintains export controls cooperatively, and with such other countries as the President considers appropriate with respect to the criteria set forth in subsection (b)(1) and such other matters as the President considers appropriate.

**(e) Alternative Means.**-- Before resorting to the imposition of export controls under this section, the President shall determine that reasonable efforts have been made to achieve the purposes of the controls through negotiations or other alternative means.

**(f) Consultation with the Congress.**--

**(1)** The President may impose or expand export controls under this section, or extend such controls as required by subsection (a)(3) of this section, only after consultation with the Congress, including the Committee on International Relations of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

**(2)** The President may not impose, expand, or extend export controls under this section until the President has submitted to the Congress a report--

**(A)** specifying the purpose of the controls;

**(B)** specifying the determinations of the President (or, in the case of those export controls described in subsection (b)(2), the considerations of the President) with respect to each of the criteria set forth in subsection (b)(1), the bases for such determinations (or considerations), and any possible adverse foreign policy consequences of the controls;

**(C)** describing the nature, the subjects, and the results of, or the plans for, the consultation with industry pursuant to subsection (c) and with other countries pursuant to subsection (d);

**(D)** specifying the nature and results of any alternative means attempted under subsection (e), or the reasons for imposing, expanding, or extending the controls without attempting any such alternative means; and

**(E)** describing the availability from other countries of goods or technology comparable to the goods or technology subject to the proposed export controls, and describing the nature and results of the efforts made pursuant to subsection (h) To secure the cooperation of foreign governments in controlling the foreign availability of such comparable goods or technology.

Such report shall also indicate how such controls will further significantly the foreign policy of the United States or will further its declared international obligations.

**(3)** To the extent necessary to further the effectiveness of the export controls, portions of a report required by paragraph (2) may be submitted to the Congress on a classified basis, and shall be subject to the provisions of section 12(c) of this Act.<sup>5</sup>

**(4)** In the case of export controls under this section which prohibit or curtail the export of any agricultural commodity, a report submitted pursuant to paragraph (2) shall be deemed to be the report required by section 7(g)(3)(A) of this Act.

<sup>5</sup> Pub. L. 104-316 128(c) (110 Stat. 3841) amended subsection (f)(3) by striking the second sentence which provided for the report to be submitted to the

General Accounting Office for the purpose of assessing compliance with this subsection.

## Legal Authority

(5) In addition to any written report required under this section, the Secretary, not less frequently than annually, shall present in oral testimony before the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on International Relations of the House of Representatives a report on policies and actions taken by the Government to carry out the provisions of this section.

(g) Exclusion for Medicine and Medical Supplies and for Certain Food Exports.-- This section does not authorize export controls on medicine or medical supplies. This section also does not authorize export controls on donations of goods (including but not limited to, food, educational materials, seeds and hand tools, medicines and medical supplies, water resources equipment, clothing and shelter materials, and basic household supplies) That are intended to meet basic human needs. Before export controls on food are imposed, expanded, or extended under this section, the Secretary shall notify the Secretary of State in the case of export controls applicable with respect to any developed country and shall notify the Administrator of the Agency for International Development in the case of export controls applicable with respect to any developing country. The Secretary of State with respect to developed countries, and the Administrator with respect to developing countries, shall determine whether the proposed export controls on food would cause measurable malnutrition and shall inform the Secretary of that determination. If the Secretary is informed that the proposed export controls on food would cause measurable malnutrition, then those controls may not be imposed, expanded, or extended, as the case may be, unless the President determines that those controls are necessary to protect the national security interests of the United States, or unless the President determines that arrangements are insufficient to ensure that the food will reach those most in need. Each such determination by the Secretary of State or the Administrator of the Agency for International Development, and any such determination by the President, shall be reported to the Congress, together with a statement of the reasons for that determination. It is the intent of Congress that the President not impose export controls under this section on any goods or technology if he determines

that the principal effect of the export of such goods or technology would be to help meet basic human needs. This subsection shall not be construed to prohibit the President from imposing restrictions on the export of medicine or medical supplies, or of food under the International Emergency Economic Powers Act [50 U.S.C. 1701 *et seq.*]. This subsection shall not apply to any export control on medicine, medical supplies, or food, except for donations, which is in effect on the date of the enactment of the Export Administration Amendments Act of 1985 [July 12, 1985]. Notwithstanding the preceding provisions of this subsection, the President may impose export controls under this section on medicine, medical supplies, food, and donations of goods in order to carry out the policy set forth in paragraph (13) of Section 3 of this Act.<sup>6</sup>

## (h) Foreign Availability.--

(1) In applying export controls under this section, the President shall take all feasible steps to initiate and conclude negotiations with appropriate foreign governments for the purpose of securing the cooperation of such foreign governments in controlling the export to countries and consignees to which the United States export controls apply of any goods or technology comparable to goods or technology controlled under this section.

(2) Before extending any export control pursuant to subsection (a)(3) of this section, the President shall evaluate the results of his actions under paragraph (1) of this subsection and shall include the results of the evaluation in his report to the Congress pursuant to subsection (f) of this section.

(3) If, within 6 months after the date on which export controls under this section are imposed or expanded, or within 6 months after the date of the enactment of the Export Administration Amendments Act of 1985 in the case of export controls in effect on such date of enactment, the President's efforts under paragraph (1) are not successful in securing the cooperation of foreign governments described in paragraph (1) with respect to those export controls, the Secretary shall thereafter take into account the foreign availability of the goods or technology subject to the

<sup>6</sup> Pub. L. 105-277 1422(b)(7) (112 Stat. 2681-793) amended references to the Director of the United States International Development Cooperation Agency to

export controls. If the Secretary affirmatively determines that a good or technology subject to the export controls is available in sufficient quantity and comparable quality from sources outside the United States to countries subject to the export controls so that denial of an export license would be ineffective in achieving purposes of the controls, then the Secretary shall, during the period of such foreign availability, approve any license application which is required for the export of the good or technology and which meets all requirements for such a license. The Secretary shall remove the good or technology from the list established pursuant to subsection (l) of this section if the Secretary determines that such action is appropriate.

(4) In making a determination of foreign availability under paragraph (3) of this subsection, the Secretary shall follow the procedures set forth in section 5 (f)(3) for this Act.

(i) International Obligations.-- The provisions of subsections (b), (c), (d), (e), (g) and (h) shall not apply in any case in which the President exercises the authority contained in this section to impose export controls, or to approve or deny export license applications, in order to fulfill obligations of the United States pursuant to treaties to which the United States is a party or pursuant to other international agreements.

(j) Countries Supporting International Terrorism.--

(1) A validated license shall be required for the export of goods or technology to a country if the Secretary of State has made the following determinations:

(A) The government of such country has repeatedly provided support for acts of international terrorism.

(B) The export of such goods or technology could make a significant contribution to the military potential of such country, including its military logistics capability, or could enhance the ability of such country to support acts of international terrorism.

(2) The Secretary and the Secretary of State shall notify the Committee on International Relations of the House of Representatives and the Committee on

Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate at least 30 days before issuing any validated license required by paragraph (1).

(3) Each determination of the Secretary of State under paragraph (1)(A), including each determination in effect on the date of the enactment of the Antiterrorism and Arms Export Amendments Act of 1989 [December 12, 1989], shall be published in the *Federal Register*.

(4) A determination made by the Secretary of State under paragraph (1)(A) may not be rescinded unless the President submits to the Speaker of the House of Representatives and the chairman of the Committee on Banking, Housing, and Urban Affairs and the chairman of the Committee on Foreign Relations of the Senate--

(A) before the proposed rescission would take effect, a report certifying that--

(i) there has been a fundamental change in the leadership and policies of the government of the country concerned;

(ii) that government is not supporting acts of international terrorism; and

(iii) that government has provided assurances that it will not support acts of international terrorism in the future; or

(B) at least 45 days before the proposed rescission would take effect, a report justifying the rescission and certifying that--

(i) the government concerned has not provided any support for international terrorism during the preceding 6-month period; and

(ii) the government concerned has provided assurances that it will not support acts of international terrorism in the future.

(5) (A) As used in paragraph (1), the term "repeatedly provided support for acts of international terrorism" shall include the recurring use of any part of the territory of the country as a sanctuary for terrorists or terrorist organizations.

## Legal Authority

**(B)** In this paragraph--

**(C)** the reasons why the proposed export or transfer is in the national interest of the United States;

**(D)** an analysis of the impact of the proposed export or transfer on the military capabilities of the foreign country or international organization to which such export or transfer would be made;

**(E)** an analysis of the manner in which the proposed export would affect the relative military strengths of countries in the region to which the goods

or services which are the subject of such export would be delivered and whether other countries in the region have comparable kinds and amounts of articles, services, or design and construction services; and

**(F)** an analysis of the impact of the proposed export or transfer on the United States relations with the countries in the region to which the goods or services which are the subject of such export would be delivered.<sup>7</sup>

**(k)** Negotiations with Other Countries.--

**(1)** Countries participating in certain agreements.-  
- The Secretary of State, in consultation with the Secretary, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with those countries participating in the groups known as the Coordinating Committee, the Missile Technology Control Regime, the Australia Group, and the Nuclear Suppliers' Group, regarding their cooperation in restricting the export of goods and technology in order to carry out--

**(A)** the policy set forth in section 3(2)(B) of this Act [50 U.S.C. app. 2402(2)(B)] and

**(B)** United States policy opposing the proliferation of chemical, biological, nuclear, and other weapons and their delivery systems, and effectively restricting the export of dual use components of such weapons and their delivery systems, in accordance with this subsection and subsections (a) and (l).

Such negotiations shall cover, among other issues, which goods and technology should be subject to multilaterally agreed export restrictions, and the implementation of the restrictions consistent with the principles identified in section 5(b)(2)(C) of this Act [50 U.S.C. app. 2402(b)(2)(C)].

**(2)** Other Countries.-- The Secretary of State, in consultation with the Secretary, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall be responsible for conducting negotiations with countries and groups of countries not referred to in paragraph (1) regarding

their cooperation in restricting the export of goods and technology consistent with purposes set forth in paragraph (1). In cases where such negotiations produce agreements on export restrictions that the Secretary, in consultation with the Secretary of State and the Secretary of Defense, determines to be consistent with the principles identified in section 5(b)(2)(C) of this Act [50 U.S.C. app. 2404(b)(2)(C)], the Secretary may treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports are treated to countries that are MTCR adherents.

(3) Review of Determinations.-- The Secretary shall annually review any determination under paragraph (2) with respect to a country. For each such country which the Secretary determines is not meeting the requirements of an effective export control system in accordance with section 5(b)(2)(C) [50 U.S.C. app. 2404(b)(2)(C)], the Secretary shall restrict or eliminate any preferential licensing treatment for exports to that country provided under this subsection.

### (I) Missile Technology.--

(1) Determination of Controlled Items.-- The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies--

(A) shall establish and maintain, as part of the control list established under this section, a list of all dual use goods and technology on the MTCR Annex; and

(B) may include, as part of the control list established under this section, goods and technology that would provide a direct and immediate impact on the development of missile delivery systems and are not included in the MTCR Annex but which the United States is proposing to the other MTCR adherents to have included in the MTCR Annex.

(2) Requirement of Individual Validated Licenses.-- The Secretary shall require an individual validated license for--

(A) any export of goods or technology on the list established under paragraph (1) To any country; and

(B) any export of goods or technology that the exporter knows is destined for a project or facility for the design, development, or manufacture of a missile in a country that is not an MTCR adherent.

### (3) Policy of Denial of Licenses.--

(A) Licenses under paragraph (2) should in general be denied if the ultimate consignee of the goods or technology is a facility in a country that is not an adherent to the Missile Technology Control Regime and the facility is designed to develop or build missiles.

(B) Licenses under paragraph (2) shall be denied if the ultimate consignee of the goods or technology is a facility in a country the government of which has been determined under subsection (j) To have repeatedly provided support for acts of international terrorism.

### (4) Consultation with Other Departments.--

(A) A determination of the Secretary to approve an export license under paragraph (2) for the export of goods or technology to a country of concern regarding missile proliferation may be made only after consultation with the Secretary of Defense and the Secretary of State for a period of 20 days. The countries of concern referred to in the preceding sentence shall be maintained on a classified list by the Secretary of State, in consultation with the Secretary and the Secretary of Defense.

(B) Should the Secretary of Defense disagree with the determination of the Secretary to approve an export license to which subparagraph (A) applies, the Secretary of Defense shall so notify the Secretary within the 20 days provided for consultation on the determination. The Secretary of Defense shall at the same time submit the matter to the President for resolution of the dispute. The Secretary shall also submit the Secretary's recommendation to the President on the license application.

(C) The President shall approve or disapprove the export license application within 20 days after receiving the submission of the Secretary of Defense under subparagraph (B).

## Legal Authority

(D) Should the Secretary of Defense fail to notify the Secretary within the time period prescribed in subparagraph (B), the Secretary may approve the license application without awaiting the notification by the Secretary of Defense. Should the President fail to notify the Secretary of his decision on the export license application within the time period prescribed in subparagraph (C), the Secretary may approve the license application without awaiting the President's decision on the license application.

(E) Within 10 days after an export license is issued under this subsection, the Secretary shall provide to the Secretary of Defense and the Secretary of State the license application and accompanying documents issued to the applicant, to the extent that the relevant Secretary indicates the need to receive such application and documents.

(5) Information Sharing.-- The Secretary shall establish a procedure for information sharing with appropriate officials of the intelligence community, as determined by the Director of Central Intelligence, and other appropriate Government agencies, that will ensure effective monitoring of transfers of MTCR equipment or technology and other missile technology.

### (m) Chemical and Biological Weapons.--

(1) Establishment of List.-- The Secretary, in consultation with the Secretary of State, the Secretary of Defense, and the heads of other appropriate departments and agencies, shall establish and maintain, as part of the list maintained under this section, a list of goods and technology that would directly and substantially assist a foreign government or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability.

(2) Requirement for Validated Licenses.-- The Secretary shall require a validated license for any

export of goods or technology on the list established under paragraph (1) To any country of concern.

(3) Countries of Concern.-- For purposes of paragraph (2), the term "country of concern" means any country other than--

(A) a country with whose government the United States has entered into a bilateral or multilateral arrangement for the control of goods or technology on the list established under paragraph (1); and

(B) such other countries as the Secretary of State, in consultation with the Secretary and the Secretary of Defense, shall designate consistent with the purposes of the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991.<sup>8</sup>

### (n) Crime Control Instruments.--

(1) Crime control and detection instruments and equipment shall be approved for export by the Secretary only pursuant to a validated export license. Notwithstanding any other provision of this Act--

(A) any determination of the Secretary of what goods or technology shall be included on the list established pursuant to subsection (l) of this section as a result of the export restrictions imposed by this subsection shall be made with the concurrence of the Secretary of State, and

(B) any determination of the Secretary to approve or deny an export license application to export crime control or detection instruments or equipment shall be made in concurrence with the recommendations of the Secretary of State submitted to the Secretary with respect to the application pursuant to section 10(e) of this Act, except that, if the Secretary does not agree with the Secretary of State with respect to any determination under subparagraph (A) or (B), the matter shall be referred to the President for resolution.

<sup>8</sup> Chemical and Biological Weapons Control and Warfare Elimination Act of 1991, Pub. L. No. 102-182, 304(b), 105 Stat. 1245, 1246-1247, added subsection (m). Section 304(a) of the Act directs the President to Ause the authorities of the Export Administration Act of 1979 to control the export of those goods and technologies that the

President determines would assist the government of any foreign country in acquiring the capability to develop, produce, stockpile, deliver or use chemical or biological weapons. (22 U.S.C. 5603)).

## Legal Authority

(2) The provisions of this subsection shall not apply with respect to exports to countries which are members of the North Atlantic Treaty Organizations or to Japan, Australia, or New Zealand, or to such other countries as the President shall designate consistent with the purposes of this subsection and section 502B of the Foreign Assistance Act of 1961 [22 U.S.C. 2304].

(o) Control List.-- The Secretary shall establish and maintain, as part of the control list, a list of any goods or technology subject to export controls under this section, and the countries to which such controls apply. The Secretary shall clearly identify on the control list which goods or technology, and which countries or destinations, are subject to which types of controls under this section. Such list shall consist of goods and technology identified by the Secretary of State, with the concurrence of the Secretary. If the Secretary and the Secretary of State are unable to agree on the list, the matter shall be referred to the President. Such list shall be reviewed not less frequently than every three years in the case of controls maintained cooperatively with other countries, and annually in the case of all other controls, for the purpose of making such revisions as are necessary in order to carry out this section. During the course of such review, an assessment shall be made periodically of the availability from sources outside the United States, or any of its territories or possessions, of goods or technology comparable to those controlled for export from the United States under this section.

(p) Effect on Existing Contracts and Licenses.-- The President may not, under this section, prohibit or curtail the export or reexport of goods, technology, or their information--

(1) in performance of a contract or agreement entered into before the date on which the President reports to the Congress, pursuant to subsection (f) of this section, his intention to impose controls on the export or reexport of such goods, technology, or other information, or

(2) under a validated license or other authorization issued under this Act, unless and until the President determines and certifies to the Congress that--

(A) a breach of the peace poses a serious and

direct threat to the strategic interest of the United States,

(B) the prohibition or curtailment of such contracts, agreements, licenses, or authorizations will be instrumental in remedying the situation posing the direct threat, and

(C) the export controls will continue only so long as the direct threat persists.

(q) Extension of Certain Controls.-- Those export controls imposed under this section with respect to South Africa which were in effect on February 28, 1982, and ceased to be effective on March 1, 1982, September 15, 1982, or January 20, 1983, shall become effective on the date of the enactment of this subsection [July 12, 1985], and shall remain in effect until 1 year after such date of enactment. At the end of that 1-year period, any of those controls made effective by this subsection may be extended by the President in accordance with subsections (b) and (f) of this section.

(r) Expanded Authority to Impose Controls.--

(1) In any case in which the President determines that it is necessary to impose controls under this section without any limitation contained in subsection (c), (d), (e), (g), (h), or (p), of this section, the President may impose those controls only if the President submits that determination to the Congress, together with a report pursuant to subsection (f) of this section with respect to the proposed controls, and only if a law is enacted authorizing the imposition of those controls. If a joint resolution authorizing the imposition of those controls is introduced in either House of Congress within 30 days after the Congress receives the determination and report of the President, that joint resolution shall be referred to the Committee on Banking, Housing, and Urban Affairs of the Senate and to the appropriate committee of the House of Representatives. If either such committee has not reported the joint resolution at the end of 30 days after its referral, the committee shall be discharged from further consideration of the joint resolution.

(2) For purposes of this subsection, the term "joint resolution" means a joint resolution the matter after the resolving clause of which is as follows: "That the Congress, having received on \_\_\_\_\_, a

determination of the President under Section 6(r)(1) of the Export Administration Act of 1979 with respect to the export controls which are set forth in the report submitted to the Congress with that determination, authorizes the President to impose those export controls.”, with the date of the receipt of the determination and report inserted in the blank.

(3) In the computation of the periods of 30 days referred to in paragraph (1), there shall be excluded the days on which either House of Congress is not in session because of adjournment of more than 3 days to a day certain or because of an adjournment of the Congress sine die.

### (s) Spare Parts.--

(1) At the same time as the President imposes or expands export controls under this section, the President shall determine whether such export controls will apply to replacement parts for parts in goods subject to such export controls.

(2) With respect to export controls imposed under this section before the date of the enactment of this subsection [August 23, 1988], an individual validated export license shall not be required for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that was lawfully exported from the United States, unless the President determines that such a license should be required for such parts.

## Section 7. SHORT SUPPLY CONTROLS

### (a) Authority.--

(1) In order to carry out the policy set forth in section 3(2)(C) of this Act, the President may prohibit or curtail the export of any goods subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States. In curtailing exports to carry out the policy set forth in section 3(2)(C) of this Act, the President shall allocate a portion of export licenses on the basis of factors other than a prior history of exportation. Such factors shall include the extent to which a country engages in equitable trade practices with respect to United States goods and treats the United States equitably in times

of short supply.

(2) Upon imposing quantitative restrictions on exports of any goods to carry out the policy set forth in section 3(2)(C) of this Act, the Secretary shall include in a notice published in the *Federal Register* with respect to such restrictions an invitation to all interested parties to submit written comments within 15 days from the date of publication on the impact of such restrictions and the method of licensing used to implement them.

(3) In imposing export controls under this section, the President's authority shall include, but not be limited to, the imposition of export license fees.

### (b) Monitoring.--

(1) In order to carry out the policy set forth in section 3(2)(C) of this Act, the Secretary shall monitor exports, and contracts for exports, of any good (other than a commodity which is subject to the reporting requirements of section 812 of the Agricultural Act of 1970 [7 U.S.C. 612c-3]) when the volume of such exports in relation to domestic supply contributes, or may contribute, to an increase in domestic prices or a domestic shortage, and such price increase or shortage has, or may have, a serious adverse impact on the economy or any sector thereof. Any such monitoring shall commence at a time adequate to assure that (c) The monitoring will result in a data base sufficient to enable policies to be developed, in accordance with section 3(2)(C) of this Act, to mitigate a short supply situation or serious inflationary price rise or, if export controls are needed, to permit imposition of such controls in a timely manner. Information which the Secretary requires to be furnished in effecting such monitoring shall be confidential, except as provided in paragraph (2) of this subsection.

(2) The results of such monitoring shall, to the extent practicable, be aggregated and included in weekly reports setting forth, with respect to each item monitored, actual and anticipated exports, the destination by country, and the domestic and worldwide price, supply, and demand. Such reports may be made monthly if the Secretary determines that there is insufficient information to justify weekly reports.

(3) The Secretary shall consult with the Secretary

of Energy to determine whether monitoring or export controls under this section are warranted with respect to exports of facilities, machinery, or equipment normally and principally used, or intended to be used, in the production, conversion, or transportation of fuels and energy (except nuclear energy), including, but not limited to, drilling rigs, platforms, and equipment; petroleum refineries, natural gas processing, liquefaction, and gasification plants; facilities for production of synthetic natural gas or synthetic crude oil; oil and gas pipelines, pumping stations, and associated equipment; and vessels for transporting oil, gas, coal, and other fuels.

### (c) Petitions for Monitoring or Controls.--

(1) (A) Any entity, including a trade association, firm, or certified or recognized union or group of workers, that is representative of an industry or a substantial segment of an industry that processes metallic materials capable of being recycled may transmit a written petition to the Secretary requesting the monitoring of exports or the imposition of export controls, or both, with respect to any such material, in order to carry out the policy set forth in section 3(2)(C) of this Act.

(B) Each petition shall be in such form as the Secretary shall prescribe and shall contain information in support of the action requested. The petition shall include any information reasonably available to the petitioner indicating that each of the criteria set forth in paragraph (3)(A) of this subsection is satisfied.

(2) Within 15 days after receipt of any petition described in paragraph (1), the Secretary shall publish a notice in the *Federal Register*. The notice shall

(A) include the name of the material that is the subject of the petition,

(B) include the Schedule B number of the material as set forth in the Statistical Classification of Domestic and Foreign Commodities Exported from the United States,

(C) indicate whether the petition is requesting that controls or monitoring, or both, be imposed with respect to the exportation of such material, and

(D) provide that interested persons shall have a

period of 30 days beginning on the date of publication of such notice to submit to the Secretary written data, views, or arguments, with or without opportunity for oral presentation, with respect to the matter involved. At the request of the petitioner or any other entity described in paragraph (1)(A) with respect to the material which is the subject of the petition, or at the request of any entity representative of producers or exporters of such material, the Secretary shall conduct public hearings with respect to the subject of the petition, in which case the 30-day period may be extended to 45 days.

(3) (A) Within 45 days after the end of the 30- or 45-day period described in paragraph (2), as the case may be, the Secretary shall determine whether to impose monitoring or controls, or both, on the export of the material that is the subject of the petition in order to carry out the policy set forth in section 3(2)(C) of this Act. In making such determination, the Secretary shall determine whether--

(i) there has been a significant increase, in relation to a specific period of time, in exports of such material in relation to domestic supply and demand;

(ii) there has been a significant increase in domestic price of such material or a domestic shortage of such material relative to demand;

(iii) exports of such material are as important as any other cause of a domestic price increase or shortage relative to demand found under clause (ii);

(iv) a domestic price increase or shortage relative to demand found under clause (ii) has significantly adversely affected or may significantly adversely affect the national economy or any sector thereof, including a domestic industry; and

(v) monitoring or controls, or both, are necessary in order to carry out the policy set forth in section 3(2)(C) of this Act.

(B) The Secretary shall publish in the *Federal Register* a detailed statement of the reasons for the Secretary's determination pursuant to subparagraph (A) of whether to impose monitoring or controls, or

both, including the findings of fact in support of that determination.

(4) Within 15 days after making a determination under paragraph (3) To impose monitoring or controls on the export of a material, the Secretary shall publish in the *Federal Register* proposed regulations with respect to such monitoring or controls. Within 30 days after the publication of such proposed regulations, and after considering any public comments on the proposed regulations, the Secretary shall publish and implement final regulations with respect to such monitoring or controls.

(5) For purposes of publishing notices in the *Federal Register* and scheduling public hearings pursuant to this subsection, the Secretary may consolidate petitions, and responses to such petitions, which involve the same or related materials.

(6) If a petition with respect to a particular material or group of materials has been considered in accordance with all the procedures prescribed in this subsection, the Secretary may determine, in the absence of significantly changed circumstances, that any other petition with respect to the same material or group of materials which is filed within 6 months after the consideration of the prior petition has been completed does not merit complete consideration under this subsection.

(7) The procedures and time limits set forth in this subsection with respect to a petition filed under this subsection shall take precedence over any review undertaken at the initiative of the Secretary with respect to the same subject as that of the petition.

(8) The Secretary may impose monitoring or controls on a temporary basis, on the export of a metallic material after a petition is filed under paragraph (1)(A) with respect to that material but before the Secretary makes a determination under paragraph (3) with respect to that material only if--

(A) the failure to take such temporary action would result in irreparable harm to the entity filing the petition, or to the national economy or segment thereof, including a domestic industry, and

(B) the Secretary considers such action to be necessary to carry out the policy set forth in Section

3(2)(C) of this Act.

(9) The authority under this subsection shall not be construed to affect the authority of the Secretary under any other provision of this Act, except that if the Secretary determines, on the Secretary's own initiative, to impose monitoring or controls, or both, on the export of metallic materials capable of being recycled, under the authority of this section, the Secretary shall publish the reasons for such action in accordance with paragraph (3)(A) and (B) of this subsection.

(10) Nothing contained in this subsection shall be construed to preclude submission on a confidential basis to the Secretary of information relevant to a decision to impose or remove monitoring or controls under the authority of this Act, or to preclude consideration of such information by the Secretary in reaching decisions required under this subsection. The provisions of this paragraph shall not be construed to affect the applicability of section 552(b) of title 5, United States Code.

### (d) Domestically Produced Crude Oil.--

(1) Notwithstanding any other provision of this Act and notwithstanding subsection (u) of section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), no domestically produced crude oil transported by pipeline over right-of-way granted pursuant to section 203 of the TransAlaska Pipeline Authorization Act (43 U.S.C. 1652) (except any such crude oil which (A) is exported to an adjacent foreign country to be refined and consumed therein in exchange for the same quantity of crude oil being exported from that country to the United States; such exchange must result through convenience or increased efficiency of transportation in lower prices for consumers of petroleum products in the United States as described in paragraph (2)(A)(ii) of this subsection, (B) is temporarily exported for convenience or increased efficiency of transportation across parts of an adjacent foreign country and reenters the United States or (C) is transported to Canada, to be consumed therein, in amounts not to exceed an annual average of 50,000 barrels per day, in addition to exports under subparagraphs (A) and (B), except that any ocean transportation of such oil shall be by vessels documented under section 12106 of title 46, United

States Code)<sup>9</sup> may be exported from the United States, or any of its territories and possessions, subject to paragraph (2) of this subsection.

(2) Crude oil subject to the prohibition contained in paragraph (1) may be exported only if--

(A) the President so recommends to the Congress after making and publishing express findings that exports of such crude oil, including exchanges--

(i) will not diminish the total quantity or quality of petroleum refined within, stored within, or legally committed to be transported to and sold within the United States;

(ii) will, within 3 months following the initiation of such exports or changes, result in (I) acquisition costs to the refiners which purchase the imported crude oil being lower than the acquisition costs such refiners would have to pay for the domestically produced oil in the absence of such an export or exchange, and (II) not less than 75 percent of such savings in costs being reflected in wholesale and retail prices of products refined from such imported crude oil;

(iii) will be made only pursuant to contracts which may be terminated if the crude oil supplies of the United States are interrupted, threatened, or diminished.

(iv) are clearly necessary to protect the national interest; and

(v) are in accordance with the provisions of this Act; and

(B) the President includes such findings in his recommendation to the Congress and the Congress, within 60 days after receiving that recommendation, agrees to a joint resolution which approves such exports on the basis of those findings, and which is thereafter enacted into law.

(3) Notwithstanding any other provision of this section or any other provision of law, including subsection (u) of section 28 of the Mineral Leasing Act

of 1920 [30 U.S.C. 185(u)], the President may export oil to any country pursuant to a bilateral international oil supply agreement entered into by the United States with such nation before June 25, 1979, or to any country pursuant to the International Emergency Oil Sharing Plan of the International Energy Agency.

(e) Refined Petroleum Product.--

(1) In any case in which the President determines that it is necessary to impose export controls on refined petroleum products in order to carry out the policy set forth in Section 3(2)(C) of this Act, the President shall notify the Congress of that determination. The President shall also notify the Congress if and when he determines that such export controls are no longer necessary. During any period in which a determination that such export controls are necessary is in effect, no refined petroleum product may be exported except pursuant to an export license specifically authorizing such export. Not later than 5 days after an application for a license to export any refined petroleum product or residual fuel oil is received, the Secretary shall notify the Congress of such application, together with the name of the exporter, the destination of the proposed export, and the amount and price of the proposed export. Such notification shall be made to the chairman of the Committee on International Relations of the House of Representatives and the chairman of the Committee on Banking, Housing, and Urban Affairs of the Senate.

(2) The Secretary may not grant such license during the 30-day period beginning on the date on which notification to the Congress under paragraph (1) is received, unless the President certifies in writing to the Speaker of the House of Representatives and the President pro tempore of the Senate that the proposed export is vital to the national interest and that a delay in issuing the license would adversely affect that interest.

(3) This subsection shall not apply to (A) any export license application for exports to a country with respect to which historical export quotas established by the Secretary on the basis of past trading relationships apply, or (B) any license application for exports to a country if exports under the license would not result in more than 250,000 barrels of refined petroleum products being exported from the United

States to such country in any fiscal year.

(4) For purposes of this subsection, “refined petroleum product” means gasoline, kerosene, distillates, propane or butane gas, diesel fuel, and residual fuel oil refined within the United States or entered for consumption within the United States.

(5) The Secretary may extend any time period prescribed in section 10 of this Act to the extent necessary to take into account delays in action by the Secretary on a license application on account of the provisions of this subsection.

(f) Certain Petroleum Products.-- Petroleum products refined in United States Foreign Trade Zones, or in the United States Territory of Guam, from foreign crude oil shall be excluded from any quantitative restrictions imposed under this section except that, if the Secretary finds that a product is in short supply, the Secretary may issue such regulations as may be necessary to limit exports.

(g) Agricultural Commodities.--

(1) The Authority conferred by this section shall not be exercised with respect to any agricultural commodity, including fats and oils or animal hides or skins, without the approval of the Secretary of Agriculture. The Secretary of Agriculture shall not approve the exercise of such authority with respect to any such commodity during any period for which the supply of such commodity is determined by the Secretary of Agriculture to be in excess of the requirements of the domestic economy except to the extent the President determines that such exercise of authority is required to carry out the policies set forth in subparagraph (A) or (B) of paragraph (2) of section 3 of this Act. The Secretary of Agriculture shall, by exercising the authority which the Secretary of Agriculture has under other applicable provisions of law, collect data with respect to export sales of animal hides and skins.

(2) Upon approval of the Secretary, in consultation with the Secretary of Agriculture, agricultural commodities purchased by or for use in a foreign country may remain in the United States for export at a later date free from any quantitative limitations on export which may be imposed to carry out the policy set forth in section 3(2)(C) of this Act subsequent to

such approval. The Secretary may not grant such approval unless the Secretary receives adequate assurance and, in conjunction with the Secretary of Agriculture, finds (A) That such commodities will eventually be exported, (B) That neither the sale nor export thereof will result in an excessive drain of scarce materials and have a serious domestic inflationary impact, (C) That storage of such commodities in the United States will not unduly limit the space available for storage of domestically owned commodities, and (D) That the purpose of such storage is to establish a reserve of such commodities for later use, not including resale to or use by another country. The Secretary may issue such regulations as may be necessary to implement this paragraph.

(3) (A) If the President imposes export controls on any agricultural commodity in order to carry out the policy set forth in paragraph (2)(B), (2)(C), (7), or (8) of Section 3 of this Act, the President shall immediately transmit a report on such action to the Congress, setting forth the reasons for the controls in detail and specifying the periods of time, which may not exceed 1 year, that the controls are proposed to be in effect. If the Congress, within 60 days after the date of its receipt of the report, adopts a joint resolution pursuant to paragraph (4) approving the imposition of the export controls, then such controls shall remain in effect for the period specified in the report, or until terminated by the President, whichever occurs first. If the Congress, within 60 days after the date of its receipt of such report, fails to adopt a joint resolution approving such controls then such controls shall cease to be effective upon the expiration of that 60-day period.

(B) The provisions of subparagraph (A) and paragraph (4) shall not apply to export controls--

(i) which are extended under this Act if the controls, when imposed, were approved by the Congress under subparagraph (A) and paragraph (4); or

(ii) which are imposed with respect to a country as part of the prohibition or curtailment of all exports to that country.

(4) (A) For purposes of this paragraph, the term “joint resolution” means only a joint resolution the matter after the resolving clause of which is as follows: “That pursuant to Section 7(g)(3) of the Export

If either House is not in session on the day on which such a report is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

**(C)** All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee and all joint resolutions introduced in the Senate shall be referred to the Committee on Banking, Housing, and Urban Affairs.

**(D)** If the committee of either House to which a joint resolution has been referred has not reported the joint resolution at the end of 30 days after its referral, the committee shall be discharged from further consideration of the resolution or of any other joint resolution introduced with respect to the same matter.

**(E)** A joint resolution under this paragraph shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976 (22 U.S.C. “ 2151 *et seq.*, Pub. L. 94-329, June 30, 1976). For the purpose of expediting the consideration and passage of joint resolutions reported or discharged pursuant to the provisions of this paragraph, it shall be in order for the Committee on Rules of the House of Representatives to present for consideration a resolution of the House of Representatives providing procedures for the immediate consideration of a joint resolution under this paragraph which may be similar, if applicable, to

the procedures set forth in section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

**(F)** In the case of a joint resolution described in subparagraph (A), if, before the passage by one House of a joint resolution of that House, that House receives a resolution with respect to the same matter from the other House, then:

**(i)** the procedure in that House shall be the same as if no joint resolution has been received from the other House; but

**(ii)** the vote on final passage shall be on the joint resolution of the other House.

**(5)** In the computation of the period of 60 days referred to in paragraph (3) and the period of 30 days referred to in subparagraph (D) of paragraph (4), there shall be excluded the days on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain or because of an adjournment of the Congress sine die.

## **(h)** Barter Agreements.--

**(1)** The exportation pursuant to a barter agreement of any goods which may lawfully be exported from the United States, for any goods which may lawfully be imported into the United States, may be exempted, in accordance with paragraph (2) of this subsection, from any quantitative limitation on exports (other than any reporting requirement) imposed to carry out the policy set forth in section 3(2)(C) of this Act.

**(2)** The Secretary shall grant an exemption under paragraph (1) if the Secretary finds, after consultation with the appropriate department or agency of the United States, that--

**(A)** for the period during which the barter agreement is to be performed--

**(i)** the average annual quantity of the goods to be exported pursuant to the barter agreement will not be required to satisfy the average amount of such goods estimated to be required annually by the domestic economy and will be surplus thereto; and

(ii) the average annual quantity of the goods to be imported will be less than the average amount of such goods estimated to be required annually to supplement domestic production; and

(B) the parties to such barter agreement have demonstrated adequately that they intend, and have the capacity, to perform such barter agreement.

(3) For purposes of this subsection, the term “barter agreement” means any agreement which is made for the exchange, without monetary consideration, of any goods produced in the United States for any goods produced outside of the United States.

(4) This subsection shall apply only with respect to barter agreements entered into after the effective date of this Act [September 30, 1979].

### (i) Unprocessed Red Cedar.--

(1) The Secretary shall require a validated license, under the authority contained in subsection (a) of this section, for the export of unprocessed western red cedar (*Thuja plicata*) logs, harvested from State or Federal lands. The Secretary shall impose quantitative restrictions upon the export of unprocessed western red cedar logs harvested from State or Federal lands during the 3-year period beginning on the effective date of this Act as follows:

(A) Not more than thirty million board feet scribner of such logs may be exported during the first year of such 3-year period.

(B) Not more than fifteen million board feet scribner of such logs may be exported during the second year of such period.

(C) Not more than five million board feet scribner of such logs may be exported during the third year of such period.

After the end of such 3-year period, no unprocessed western red cedar logs harvested from State or Federal lands may be exported from the United States.

(2) To the maximum extent practicable, the Secretary shall utilize the multiple validated export licenses described in section 4(a)(2) of this Act in lieu

of validated licenses for exports under this subsection.

(3) The Secretary shall allocate export licenses to exporters pursuant to this subsection on the basis of a prior history of exportation by such exporters and such other factors as the Secretary considers necessary and appropriate to minimize any hardship to the producers of western red cedar and to further the foreign policy of the United States.

(4) Unprocessed western red cedar logs shall not be considered to be an agricultural commodity for purposes of subsection (g) of this section.

(5) As used in this subsection, the term “unprocessed western red cedar” means red cedar timber which has not been processed into--

(A) lumber of American Lumber Standards Grades of Number 3 dimension or better, or Pacific Lumber Inspection Bureau Export R-List Grades of Number 3 common or better;

(B) chips, pulp, and pulp products;

(C) veneer and plywood;

(D) poles, posts, or pilings cut or treated with preservative for use as such and not intended to be further processed; or

(E) shakes and shingles.

(j) Effect of Controls on Existing Contracts.-- The export restrictions contained in subsection (i) of this section and any export controls imposed under this section shall not affect any contract to harvest unprocessed western red cedar from State lands which was entered into before October 1, 1979, and the performance of which would make the red cedar available for export. Any export controls imposed under this section on any agricultural commodity (including fats, oils, and animal hides and skins) or on any forest product or fishery product, shall not affect any contract to export entered into before the date on which such controls are imposed. For purposes of this subsection, the term “contract to export” includes, but is not limited to, an export sales agreement and an agreement to invest in an enterprise which involves the export of goods or technology.

### Section 8. FOREIGN BOYCOTTS

#### (a) Prohibitions and Exceptions.--

**(1)** For the purpose of implementing the policies set forth in subparagraph (A) or (B) of paragraph (5) of section 3 of this Act, the President shall issue regulations prohibiting any United States person, with respect to his activities in the interstate or foreign commerce of the United States, from taking or knowingly agreeing to take any of the following actions with intent to comply with, further, or support any boycott fostered or imposed by a foreign country against a country which is friendly to the United States and which is not itself the object of any form of boycott pursuant to United States law or regulation:

**(A)** Refusing, or requiring any other person to refuse, to do business with or in the boycotted country, with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person, pursuant to an agreement with, a requirement of, or a request from or on behalf of the boycotting country. The mere absence of a business relationship with or in the boycotted country with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person, does not indicate the existence of the intent required to establish a violation of regulations issued to carry out this subparagraph.

**(B)** Refusing, or requiring any other person to refuse, to employ or otherwise discriminating against any United States person on the basis of race, religion, sex, or national origin of that person or of any owner, officer, director, or employee of such person.

**(C)** Furnishing information with respect to the race, religion, sex, or national origin of any United States person or of any owner, officer, director, or employee of such person.

**(D)** Furnishing information about whether any person has, has had, or proposes to have any business relationship (including a relationship by way of sale, purchase, legal or commercial representation, shipping or other transport, insurance, investment, or supply) with or in the boycotted country, with any business concern organized under the laws of the boycotted country, with any national or resident of the boycotted country, or with any other person which is known or believed to be restricted from having any business relationship with or in the boycotted country. Nothing in this paragraph shall prohibit the furnishing of normal business information in a commercial context as defined by the Secretary.

**(E)** Furnishing information about whether any person is a member of, has made contribution to, or is otherwise associated with or involved in the activities of any charitable or fraternal organization which supports the boycotted country.

**(F)** Paying, honoring, confirming, or otherwise implementing a letter of credit which contains any condition or requirement compliance with which is prohibited by regulations issued pursuant to this paragraph, and no United States person shall, as a result of the application of this paragraph, be obligated to pay or otherwise honor or implement such letter of credit.

**(2)** Regulations issued pursuant to paragraph (1) shall provide exceptions for--

**(A)** complying or agreeing to comply with requirements (i) prohibiting the import of goods or services from the boycotted country or goods produced or services provided by any business concern organized under the laws of the boycotted country or by nationals or residents of the boycotted country, or (ii) prohibiting the shipment of goods to the boycotted country on a carrier of the boycotted country, or by a route other than that prescribed by the boycotting country or the recipient of the shipment;

subsection (k).

(B) complying or agreeing to comply with import and shipping document requirements with respect to the country of origin, the name of the carrier and route of shipment, the name of the supplier of the shipment or the name of the provider of other services, except that no information knowingly furnished or conveyed in response to such requirements may be stated in negative, blacklisting, or similar exclusionary terms, other than with respect to carriers or route of shipment as may be permitted by such regulations in order to comply with precautionary requirements protecting against war risks and confiscation;

(C) complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurers, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

(D) complying or agreeing to comply with export requirements of the boycotting country relating to shipments or transshipment of exports to the boycotted country, to any business concern of or organized under the laws of the boycotted country, or to any national or resident of the boycotted country;

(E) compliance by an individual or agreement by an individual to comply with the immigration or passport requirements of any country with respect to such individual or any member of such individual's family or with requests for information regarding requirements of employment of such individual within the boycotting country; and

(F) compliance by a United States person resident in a foreign country or agreement by such person to comply with the laws of the country with respect to his activities exclusively therein, and such regulations may contain exceptions for such resident complying with the laws or regulations of the foreign country governing imports into such country of trademarked, trade named, or similarly specifically identifiable products, or components of products for his own use, including the performance of contractual services within that country, as may be defined by such regulations.

(3) Regulations issued pursuant to paragraphs (2)(C) and (2)(F) shall not provide exceptions from paragraphs (1)(B) and (1)(C).

(4) Nothing in the subsection may be construed to supersede or limit the operation of the antitrust or civil rights laws of the United States.

(5) This section shall apply to any transaction or activity undertaken, by or through a United States person or any other person, with intent to evade the provisions of this section as implemented by the regulations issued pursuant to this subsection, and such regulations shall expressly provide that the exceptions set forth in paragraph (2) shall not permit activities or agreements (expressed or implied by a course of conduct, including a pattern of responses) otherwise prohibited, which are not within the intent of such exceptions.

### (b) Foreign Policy Controls.--

(1) In addition to the regulations issued pursuant to subsection (a) of this section, regulations issued under section 6 of this Act shall implement the policies set forth in section 3(5).

(2) Such regulations shall require that any United States person receiving a request for the furnishing of information, the entering into or implementing of agreements, or the taking of any other action referred to in section 3(5) shall report that fact to the Secretary, together with such other information concerning such request as the Secretary may require for such action as the Secretary considers appropriate for carrying out the policies of that section. Such person shall also report to the Secretary whether such person intends to comply and whether such person has complied with such request. Any report filed pursuant to this paragraph shall be made available promptly for public inspection and copying, except that information regarding the quantity, description, and value of any goods or technology to which such report relates may be kept confidential if the Secretary determines that disclosure thereof would place the United States person involved at a competitive disadvantage. The Secretary shall periodically transmit summaries of the information contained in such reports to the Secretary of State for such action as the Secretary of State, in consultation with the Secretary, considers appropriate for carrying out the policies set forth in section 3(5) of

## Legal Authority

this Act.

(c) Preemption.-- The provisions of this section and the regulations issued pursuant thereto shall preempt any law, rule, or regulation of any of the several States or the District of Columbia, or any of the territories or possessions of the United States, or of any governmental subdivision thereof, which law, rule, or regulation pertains to participation in, compliance with, implementation of, or the furnishing of information regarding restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries.

### Section 9. PROCEDURES FOR HARDSHIP RELIEF FROM EXPORT CONTROLS

(a) Filing of Petitions.-- Any person who, in such person's domestic manufacturing process or other domestic business operation, utilizes a product produced abroad in whole or in part from a good historically obtained from the United States but which has been made subject to export controls, or any person who historically has exported such good, may transmit a petition of hardship to the Secretary requesting an exemption from such controls in order to alleviate any unique hardship resulting from the imposition of such controls. A petition under this section shall be in such form as the Secretary shall prescribe and shall contain information demonstrating the need for the relief requested.

(b) Decision of the Secretary.-- Not later than 30 days after receipt of any petition under subsection (a), the Secretary shall transmit a written decision to the petitioner granting or denying the requested relief. Such decision shall contain a statement setting forth the Secretary's basis for the grant or denial. Any exemption granted may be subject to such conditions as the Secretary considers appropriate.

(c) Factors to be Considered.-- For purposes of this section, the Secretary's decision with respect to the grant or denial of relief from unique hardship resulting directly or indirectly from the imposition of export controls shall reflect the Secretary's consideration of factors such as the following:

(1) Whether denial would cause a unique hardship

to the petitioner which can be alleviated only by granting an exception to the applicable regulations. In determining whether relief shall be granted, the Secretary shall take into account--

(A) ownership of material for which there is no practicable domestic market by virtue of the location or nature of the material;

(B) potential serious financial loss to the applicant if not granted an exception;

(C) inability to obtain, except through import, an item essential for domestic use which is produced abroad from the good under control;

(D) the extent to which denial would conflict, to the particular detriment of the applicant, with other national policies including those reflected in any international agreement to which the United States is a party;

(E) possible adverse effects on the economy (including unemployment) in any locality or region of the United States; and

(F) other relevant factors, including the applicant's lack of an exporting history during any base period that may be established with respect to export quotas for the particular good.

(2) The effect a finding in favor of the applicant would have an attainment of the basic objectives of the short supply control program.

In all cases, the desire to sell at higher prices and thereby obtain greater profits shall not be considered as evidence of a unique hardship, nor will circumstances where the hardship is due to imprudent acts or failure to act on the part of the petitioner.

### Section 10. PROCEDURES FOR PROCESSING EXPORT LICENSE APPLICATIONS; OTHER INQUIRIES

(a) Primary Responsibility of the Secretary.--

(1) All export license applications required under this Act shall be submitted by the applicant to the

## Legal Authority

Secretary. All determinations with respect to any such application shall be made by the Secretary, subject to the procedures provided in this section.

(2) It is the intent of the Congress that a determination with respect to any export license application be made to the maximum extent possible by the Secretary without referral of such application to any other department or agency of the Government.

(3) To the extent necessary, the Secretary shall seek information and recommendations from the Government departments and agencies concerned with aspects of United States domestic and foreign policies and operations having an important bearing on exports. Such departments and agencies shall cooperate fully in rendering such information and recommendations.

(b) Initial Screening.-- Within 10 days after the date on which any export license application is submitted pursuant to subsection (a)(1), the Secretary shall--

(1) send the applicant an acknowledgment of the receipt of the application and the date of the receipt;

(2) submit to the applicant a written description of the procedures required by this section, the responsibilities of the Secretary and of other departments and agencies with respect to the application, and the rights of the applicant;

(3) return the application without action if the application is improperly completed or if additional information is required, with sufficient information to permit the application to be properly resubmitted, in which case if such application is resubmitted, it shall be treated as a new application for the purpose of calculating the time periods prescribed in this section;

(4) determine whether it is necessary to refer the application to any other department or agency and, if such referral is determined to be necessary, inform the applicant of any such department or agency to which the application will be referred; and

(5) determine whether it is necessary to submit the application to a multilateral review process, pursuant to a multilateral agreement, formal or informal, to which the United States is a party and, if so, inform the applicant of this requirement.

(c) Action on Certain Applications.-- Except as provided in subsection (o), in each case in which the Secretary determines that it is not necessary to refer an application to any other department or agency for its information and recommendations, a license shall be formally issued or denied within 60 days after a properly completed application has been submitted pursuant to this section.

(d) Referral to Other Departments and Agencies.-- Except in the case of exports described in subsection (o), in each case in which the Secretary determines that it is necessary to refer an application to any other department or agency for its information and recommendations, the Secretary shall, within 20 days after the submission of a properly completed application--

(1) refer the application, together with all necessary analysis and recommendations of the Department of Commerce, concurrently to all such departments or agencies; and

(2) if the applicant so requests, provide the applicant with an opportunity to review for accuracy any documentation to be referred to any such department or agency with respect to such application for the purpose of describing the export in question in order to determine whether such documentation accurately describes the proposed export.

Notwithstanding the 10-day period set forth in subsection (b), in the case of exports described in subsection (o), in each case in which the Secretary determines that it is necessary to refer an application to any other department or agency for its information and recommendations, the Secretary shall, immediately upon receipt of the properly completed application, refer the application to such department or agency for its review. Such review shall be concurrent with that of the Department of Commerce.

(e) Action by Other Departments and Agencies.--

(1) Any department or agency to which an application is referred pursuant to subsection (d) shall submit to the Secretary the information or recommendations requested with respect to the application. The information or recommendations shall be submitted within 20 days after the department

## Legal Authority

or agency receives the application or, in the case of exports described in subsection (o), before the expiration of the time periods permitted by that subsection. Except as provided in paragraph (2), any such department or agency which does not submit its recommendations within the time period prescribed in the preceding sentence shall be deemed by the Secretary to have no objection to the approval of such application.

(2) (A) Except in the case of exports described in subsection (o), if the head of any such department or agency notifies the Secretary before the expiration of the time period provided in paragraph (1) for submission of its recommendations that more time is required for review by such department or agency, such department or agency shall have an additional 20-day period to submit its recommendations to the Secretary. If such department or agency does not submit its recommendations within the time period prescribed by the preceding sentence, it shall be deemed by the Secretary to have no objection to the approval of such application.

If such department or agency does not submit its recommendations within the time periods permitted under subsection (o), it shall be deemed by the Secretary to have no objection to the approval of such application.

(f) Action by the Secretary.--

(1) Within 60 days after receipt of the recommendations of other departments and agencies with respect to a license application, as provided in subsection (e), the Secretary shall formally issue or deny the license. In deciding whether to issue or deny a license, the Secretary shall take into account any recommendation of a department or agency with respect to the application in question. In cases where the Secretary receives conflicting recommendations,

the Secretary shall, within the 60-day period provided for in this subsection, take such action as may be necessary to resolve such conflicting recommendations. The provisions of this paragraph shall not apply in the case of exports described in subsection (o).

(2) In cases where the Secretary receives questions or negative considerations or recommendations from any other department or agency with respect to an application, the Secretary shall, to the maximum extent consistent with the national security and foreign policy of the United States, inform the applicant in writing of the specific questions raised and any such negative considerations or recommendations. Before a final determination with respect to the application is made, the applicant shall be entitled--

(F) to the extent consistent with the national security and foreign policy of the United States, the specific considerations which led to the determination to deny the application, and

(G) the availability of appeal procedures.

The Secretary shall allow the applicant at least 30 days to respond to the Secretary's determination before the license application is denied. In the event decisions on license applications are deferred inconsistent with the provisions of this section, the applicant shall be so informed in writing within 5 days after such deferral.

(4) If the Secretary determines that a particular application or set of applications is of exceptional importance and complexity, and that additional time is required for negotiations to modify the application or applications, the Secretary may extend any time period prescribed in this section. The Secretary shall notify the Congress and the applicant of such extension and the reasons therefor. The provisions of this paragraph shall not apply in the case of exports described in subsection (o).

(g) Special Procedures for Secretary of Defense.--

(1) Notwithstanding any other provision of this section, the Secretary of Defense is authorized to review any proposed export of any goods or technology to any country to which exports are controlled for national security purposes and, whenever the Secretary of Defense determines that the export of such goods or technology will make a significant contribution, which would prove detrimental to the national security of the United States, to the military potential of any such country, to recommend to the President that such export be disapproved.

(2) Notwithstanding any other provision of law, the Secretary of Defense shall determine, in consultation with the Secretary, and confirm in writing the types and categories of transactions which should be reviewed by the Secretary of Defense in order to make a determination referred to in paragraph (1). Whenever a license or other authority is requested for

the export to any country to which exports are controlled for national security purposes of goods or technology within any such type or category, the Secretary shall notify the Secretary of Defense of such request, and the Secretary may not issue any license or other authority pursuant to such request before the expiration of the period within which the President may disapprove such export. The Secretary of Defense shall carefully consider any notification submitted by the Secretary pursuant to this paragraph and, not later than 20 days after notification of the request, shall--

(A) recommend to the President and the Secretary that he disapprove any request for the export of the goods or technology involved to the particular country if the Secretary of Defense determines that the export of such goods or technology will make a significant contribution, which would prove detrimental to the national security of the United States, to the military potential of such country or any other country;

(B) notify the Secretary that he would recommend approval subject to specified conditions; or

(C) recommend to the Secretary that the export of goods or technology be approved.

Whenever the Secretary of Defense makes a recommendation to the President pursuant to paragraph (2)(A), the Secretary shall also submit his recommendation to the President on the request to export if the Secretary differs with the Secretary of Defense. If the President notifies the Secretary, within 20 days after receiving a recommendation from the Secretary of Defense, that he disapproves such export, no license or other authority may be issued for the export of such goods or technology to such country. If the Secretary of Defense fails to make a recommendation or notification under this paragraph within the 20-day period specified in the third sentence, or if the President, within 20 days after receiving a recommendation from the Secretary of Defense with respect to an export, fails to notify the Secretary that he approves or disapproves the export, the Secretary shall approve or deny the request for a license or other authority to export without such recommendation or notification.

The license shall be issued upon approval of the application under such multilateral review. If such multilateral review has not resulted in a determination with respect to the application within 40 days after such date, the Secretary's approval of the license shall be final and the license shall be issued, unless the Secretary determines that issuance of the license would prove detrimental to the national security of the United States. At the time at which the Secretary makes such a determination, the Secretary shall notify the applicant of the determination and shall notify the Congress of the determination, the reasons for the determination, the reasons for which the multilateral review could not be concluded within such 40-day period, and the actions planned or being taken by the United States Government to secure conclusion of the multilateral review. At the end of every 40-day period after such notification to Congress, the Secretary shall advise the applicant and the Congress of the status of the application, and shall report to the Congress in detail on the reasons for the further delay and any further actions being taken by the United States Government to secure conclusion of the multilateral review. In addition, at the time at which the Secretary issues or denies the license upon conclusion of the multilateral review, the Secretary shall notify the Congress of such issuance or denial and of the total time required for the multilateral review.

When such petition is filed, the Secretary shall take immediate steps to correct the situation giving rise to the petition and shall immediately notify the applicant of such steps.

**(3)** If, within 20 days after a petition is filed under paragraph (2), the processing of the application has not been brought into conformity with the requirements of this section, or the application has been brought into conformity with such requirements but the Secretary has not so notified the applicant, the applicant may bring an action in an appropriate United States district court for a restraining order, a temporary or permanent injunction, or other appropriate relief, to require compliance with the requirements of this section. The United States district courts shall have jurisdiction to provide such relief, as appropriate.

**(k) Changes in Requirements for Applications.--** Except as provided in subsection (b)(3) of this section, in any case in which, after a license application is submitted, the Secretary changes the requirements for such a license application, the Secretary may request appropriate additional information of the applicant, but the Secretary may not return the application to the applicant without action because it fails to meet the changed requirements.

All information obtained at any time under this Act or previous Acts regarding the control of exports, including any report or license application required under this Act, shall be made available to any committee or subcommittee of Congress of appropriate jurisdiction upon request of the chairman or ranking minority member of such committee or subcommittee. No such committee or subcommittee, or member thereof, shall disclose any information obtained under this Act or previous Acts regarding the control of exports which is submitted on a confidential basis unless the full committee determines that the withholding of that information is contrary to the national interest. Notwithstanding paragraph (1) of this subsection, information referred to in the second sentence of this paragraph shall, consistent with the protection of intelligence, counterintelligence, and law enforcement sources, methods, and activities, as determined by the agency that originally obtained the information, and consistent with the provisions of section 313 of the Budget and Accounting Act, 1921 (31 U.S.C. 716), be made available only by that agency, upon request, to the Comptroller General of the United States or to any officer or employee of the General Accounting Office who is authorized by the Comptroller General to have access to such information. No officer or employee of the General Accounting Office shall disclose, except to the Congress in accordance with this paragraph, any such information which is submitted on a confidential basis and from which any individual can be identified.

(3) Any department or agency which obtains information which is relevant to the enforcement of this Act, including information pertaining to any investigation, shall furnish such information to each department or agency with enforcement responsibilities under this Act to the extent consistent with the protection of intelligence, counterintelligence, and law enforcement sources, methods, and activities. The provisions of this

The Secretary and the Commissioner of U.S. Customs and Border Protection, upon request, shall exchange any licensing and enforcement information with each other which is necessary to facilitate enforcement efforts and effective license decisions. The Secretary, the Attorney General, and the Commissioner of U.S. Customs and Border Protection shall consult on a continuing basis with one another and with the head of other departments and agencies which obtain information subject to this paragraph, in order to facilitate the exchange of such information.

**(d) Reporting Requirements.--** In the administration of this Act, reporting requirements shall be so designed as to reduce the cost of reporting, recordkeeping, and export documentation required under this Act to the extent feasible consistent with effective enforcement and compilation of useful trade statistics. Reporting, recordkeeping and export documentation requirements shall be periodically reviewed and revised in the light of developments in the field of information technology.

**(e) Simplification of Regulations.--** The Secretary, in consultation with appropriate United States Government departments and agencies and with appropriate technical advisory committees established under section 5(h), shall review the regulations issued under this Act and the commodity control list in order to determine how compliance with the provisions of this Act can be facilitated by simplifying such regulations, by simplifying or clarifying such list, or by any other means.

### **Section 13. ADMINISTRATIVE PROCEDURE AND JUDICIAL REVIEW**

**(a) Exemption.--** Except as provided in section 1-1(c)(2) and subsection (c) of this section, the functions exercised under this Act are excluded from the operation of sections 551, 553 through 559, and 701 through 706 of title 5, United States Code.

**(b) Public Participation.--** It is the intent of the Congress that, to the extent practicable, all regulations imposing controls on exports under this Act be issued in proposed form with meaningful opportunity for public comment before taking effect. In cases where a regulation imposing controls under this Act is issued with immediate effect, it is the intent of the Congress that meaningful opportunity for public comment also be provided and that the regulation be reissued in final form after public comments have been fully considered.

**(c) Procedures Relating to Civil Penalties and Sanctions.--**

**(1)** In any case in which a civil penalty or other civil sanction (other than a temporary denial order or a penalty or sanction for a violation of Section 8) is sought under Section 11 of this Act, the charged party is entitled to receive a formal complaint specifying the charges and, at his or her request, to contest the charges in a hearing before an administrative law judge. Subject to the provisions of this subsection, any such hearing shall be conducted in accordance with Sections 556 and 557 of Title 5, United States Code. With the approval of the administrative law judge, the Government may present evidence in camera in the presence of the charged party or his or her representative. The Secretary shall, in a written order, affirm, modify, or vacate the decision of the administrative law judge within 30 days after receiving the decision. The order of the Secretary shall be final and is not subject to judicial review, except as provided in paragraph (3).

**(3)** The order of the Secretary under paragraph (1) shall be final, except that the charged party may, within 15 days after the order is issued, appeal the order in the United States Court of Appeals for the District of Columbia, which shall have jurisdiction of the appeal. The court may, while the appeal is pending, stay the order of the Secretary. The court may review only those issues necessary to determine

liability for the civil penalty or other sanction involved. In an appeal filed under this paragraph, the court shall set aside any finding of fact for which the court finds there is not substantial evidence on the record and any conclusion of law which the court finds to be arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

(4) An administrative law judge referred to in this subsection shall be appointed by the Secretary from among those considered qualified for selection and appointment under Section 3105 of Title 5, United States Code. Any person who, for at least 2 of the 10 years immediately preceding the date of the enactment of the Export Administration Amendments Act of 1985, has served as a hearing commissioner of the Department of Commerce shall be included among those considered as qualified for selection and appointment to such position.

**Sec. 10.** (a) (1) The Secretary of Energy, hereinafter referred to as the Secretary, shall develop, with the concurrence of the Director of the Office of Management and Budget, and in consultation with the Secretary of Defense, the Secretary of Housing and Urban Development, the Administrator of Veterans' Affairs, the Administrator of the Energy Research and Development Administration, the Administrator of General Services, and the heads of such other Executive agencies as he deems appropriate, the ten-year plan for energy conservation with respect to Government buildings, as provided by section 381(a)(2) of the Energy Policy and Conservation Act (42 U.S.C. 6361(a)(2)).

(b) The Secretary shall establish requirements and procedures, which shall be observed by each agency unless a waiver is granted by the Secretary, designed to ensure that each agency to the maximum extent practicable aims to achieve the following goals:

(1) For the total of all Federally-owned existing buildings the goal shall be a reduction of 20 percent in the average annual energy use per gross square foot of floor area in 1985 from the average energy use per gross square foot of floor area in 1975. This goal shall apply to all buildings for which construction was or

design specifications were completed prior to the date of promulgation of the guidelines pursuant to subsection (d) of this Section.

(2) For the total of all Federally-owned new buildings the goal shall be a reduction of 45 percent in the average annual energy requirement per gross square foot of floor area in 1985 from the average annual energy use per gross square foot of floor area in 1975. This goal shall apply to all new buildings for which design specifications are completed after the date of promulgation of the guidelines pursuant to subsection (d) of this Section.

(c) The Secretary with the concurrence of the Director of the Office of Management and Budget, in consultation with the heads of the Executive agencies specified in subsection (a) and the Director of the National Bureau of Standards, shall establish, for purposes of developing the ten-year plan, a practical and effective method for estimating and comparing life cycle capital and operating costs for Federal buildings, including residential, commercial, and industrial type categories. Such method shall be consistent with the Office of Management and Budget Circular No. A-94, and shall be adopted and used by all agencies in developing their plans pursuant to subsection (e), annual reports pursuant to subsection (g), and budget estimates pursuant to subsection (h). For purposes of this paragraph, the term 'life cycle cost' means the total costs of owning, operating, and maintaining a building over its economic life, including its fuel and energy costs, determined on the basis of a systematic evaluation and comparison of alternative building systems.

(d) Not later than November 1, 1977, the Secretary, with the concurrence of the Director of the Office of Management and Budget, and after consultation with the Administrator of General Services and the heads of the Executive agencies specified in subsection (a) shall issue guidelines for the plans to be submitted pursuant to subsection (e).

(e) (1) The head of each Executive agency that maintains any existing building or will maintain any new building shall submit no later than six months after the issuance of guidelines pursuant to subsection (d), to the Secretary a ten-year plan designed to the maximum extent practicable to meet the goals in subsection (b) for the total of existing or new Federal buildings. Such ten-year plans shall only consider

improvements that are cost-effective consistent with the criteria established by the Director of the Office of Management and Budget (OMB Circular A-94) and the method established pursuant to subsection (c) of this Section. The plan submitted shall specify appropriate energy-saving initiatives and shall estimate the expected improvements by fiscal year in terms of specific accomplishments—energy savings and cost savings—together with the estimated costs of achieving the savings.

(2) The plans submitted shall, to the maximum extent practicable, include the results of preliminary energy audits of all existing buildings with over 30,000 gross square feet of space owned and maintained by Executive agencies. Further, the second annual report submitted under subsection (g)(2) of this Section shall, to the maximum extent practicable, include the results of preliminary energy audits of all existing buildings with more than 5,000 but not more than 30,000 gross square feet of space. The purpose of such preliminary energy audits shall be to identify the type, size, energy use level and major energy using systems of existing Federal buildings.

(3) The Secretary shall evaluate agency plans relative to the guidelines established pursuant to subsection (d) for such plans and relative to the cost estimating method established pursuant to subsection (c). Plans determined to be deficient by the Secretary will be returned to the submitting agency head for revision and resubmission within 60 days.

(4) The head of any Executive agency submitting a plan, should he disagree with the Secretary's determination with respect to that plan, may appeal to the Director of the Office of Management and Budget for resolution of the disagreement.

(f) The head of each agency submitting a plan or revised plan determined not deficient by the Secretary or, on appeal, by the Director of the Office of Management and Budget, shall implement the plan in accord with approved budget estimates.

(g)(1) Each Executive agency shall submit to the Secretary an overall plan for conserving fuel and energy in all operations of the agency. This overall plan shall be in addition to and include any ten-year plan for energy conservation in Government buildings submitted in accord with Subsection (e).

(2) By July 1 of each year, each Executive agency shall submit a report to the Secretary on progress made toward achieving the goals established in the overall

## Legal Authority

plan required by paragraph (1) of this subsection. The annual report shall include quantitative measures and accomplishment with respect to energy saving actions taken, the cost of these actions, the energy saved, the costs saved, and other benefits realized.

(3) The Secretary shall prepare a consolidated annual report on Federal government progress toward achieving the goals, including aggregate quantitative measures of accomplishment as well as suggested revisions to the ten-year plan, and submit the report to the President by August 15 of each year.

(h) Each agency required to submit a plan shall submit to the Director of the Office of Management and Budget with the agency's annual budget submission, and in accordance with procedures and requirements that the Director shall establish, estimates for implementation of the agency's plan. The Director of the Office of Management and Budget shall consult with the Secretary about the agency budget estimates.

(i) Each agency shall program its proposed energy conservation improvements of buildings so as to give the highest priority to the most cost-effective projects.

(j) No agency of the Federal government may enter into a lease or a commitment to lease a building the construction of which has not commenced by the effective date of this Order unless the building will likely meet or exceed the general goal set forth in subsection (b)(2).

(k) The provisions of this Section do not apply to housing units repossessed by the Federal Government.

Executive Order 12938, as amended  
by Executive Orders 13094 and 13128 and 13382<sup>17</sup>

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.), the National Emergencies Act (50 U.S.C. 1601 et seq.), the Arms Export Control Act, as amended (22 U.S.C. 2751 et seq.), Executive Order Nos. 12851 and 12924, and section 301 of title 3, United States Code.

**I, William J. Clinton**, President of the United States of America, find that the proliferation of nuclear, biological, and chemical weapons (“weapons of mass destruction”) and of the means of delivering such weapons, constitutes an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States, and hereby declare a national emergency to deal with that threat.

Accordingly, I hereby order:

**Sec. 2. *Imposition of Controls.*** As provided herein, the Secretary of State and the Secretary of Commerce shall use their respective authorities, including the Arms Export Control Act and the International Emergency Economic Powers Act, to control any exports, to the extent they are not already controlled by the Department of Energy and the

Nuclear Regulatory Commission, that either Secretary determines would assist a country in acquiring the capability to develop, produce, stockpile, deliver, or use weapons of mass destruction or their means of delivery. The Secretary of State shall pursue early negotiations with foreign governments to adopt effective measures comparable to those imposed under this order.

**Sec. 3. *Department of Commerce Controls.*** (a) The Secretary of Commerce shall prohibit the export of any goods, technology, or services subject to the Secretary's export jurisdiction that the Secretary of Commerce determines, in consultation with the Secretary of State, the Secretary of Defense, and other appropriate officials, would assist a foreign country in acquiring the capability to develop, produce, stockpile, deliver, or use weapons of mass destruction or their means of delivery. The Secretary of State shall pursue early negotiations with foreign governments to adopt effective measures comparable to those imposed under this section.

(b) Subsection (a) of this section will not apply to exports relating to a particular category of weapons of mass destruction (i.e., nuclear, chemical, or biological weapons) if their destination is a country with whose government the United States has entered into a bilateral or multilateral arrangement for the control of that category of weapons of mass destruction-related goods (including delivery systems) and technology, or maintains domestic export controls comparable to controls that are imposed by the United States with respect to that category of goods and technology, or that are otherwise deemed adequate by the Secretary of State.

(c) The Secretary of Commerce shall require validated licenses to implement this order and shall coordinate any license applications with the Secretary of State and the Secretary of Defense.

<sup>17</sup> Executive Order 13094 of July 28, 1998 (63 Fed. (e) The Secretary of Commerce shall impose and enforce such restrictions on the importation of chemicals into the United States as may be necessary to carry out the requirements of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction.

On July 28, 1998, by Executive Order 13094, the President amended Executive Order 12938 to respond more effectively to the worldwide threat of proliferation activities related to weapons of mass destruction. ## Part III.10. ADMINISTRATION OF EXPORT CONTROLS

Executive Order 12981, as amended  
by Executive Orders 13020, 13026 and 13117<sup>20</sup>

By the authority vested in me as President by the Constitution and the laws of the United States of America, including but not limited to the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*) (the “Act”), and in order to take additional steps with respect to the national emergency described and declared in Executive Order No. 12924 of August 19, 1994,<sup>21</sup> and continued on August 15, 1995, I, WILLIAM J. CLINTON, President of the United States of America, find that it is necessary for the procedures set forth below to apply to export license applications submitted under the Act and the Export Administration Regulations (15 C.F.R. Part 730 *et seq.*) (“the Regulations”) or under any renewal of, or successor to, the Export Administration Act of 1979, as amended (50 U.S.C. App. 2401 *et seq.*) (“the Export Administration Act”), and the Regulations. Accordingly, it is hereby ordered as follows:

<sup>20</sup> Executive Order 13020 of October 12, 1996 (61 Fed. Reg. 54079, October 17, 1996), titled “Amendment to Executive Order 12981,” amended sections 5(a)(3)(B) and 5(b)(1) of Executive Order 12981 to include special procedures for the processing of applications for the export of any commercial communication satellites and any hot-section technologies for the development, production, and overhaul of commercial aircraft engines transferred from the United States Munitions List to the Commerce Control List in October 1996. Executive Order 13026 of November 15, 1996 (61 Fed. Reg. 58767, November 19, 1996), titled “Administration of Export Controls on Encryption Products,” added a new section 6 to Executive Order

12981, and renumbered previous sections 6 and 7 as sections 7 and 8, respectively. Executive Order 13026 is also reprinted in its entirety below. Executive Order 13117 of March 31, 1999 (64 Fed. Reg. 16591, April 5, 1999) deleted references to the Arms Control and Disarmament Agency throughout Executive Order 12981.

<sup>21</sup> Executive Order 12924 continued the Export Administration Regulations in effect during a temporary lapse of the EAA. In 2001, after the EAA was temporarily reauthorized by Congress, Executive Order 12924 was revoked as unnecessary and the emergency it declared was cancelled by Executive Order 13206. This action did not affect any measures taken while the order was in effect.

## Legal Authority

**Section 1. License Review.** To the extent permitted by law and consistent with Executive Order No. 12924 of August 19, 1994, the power, authority, and discretion conferred upon the Secretary of Commerce (“the Secretary”) under the Export Administration Act to require, review, and make final determinations with regard to export licenses, documentation, and other forms of information submitted to the Department of Commerce pursuant to the Act and the Regulations or under any renewal of, or successor to, the Export Administration Act and the Regulations, with the power of successive redelegation, shall continue. The Departments of State, Defense, and Energy each shall have the authority to review any export license application submitted to the Department of Commerce pursuant to the Act and the Regulations or under any renewal of, or successor to, the Export Administration Act and the Regulations. The Secretary may refer license applications to other United States Government departments or agencies for review as appropriate. In the event that a department or agency determines that certain types of applications need not be referred to it, such department or agency shall notify the Department of Commerce as to the specific types of such applications that it does not wish to review. All departments or agencies shall promptly respond, on a case-by-case basis, to requests from other departments or agencies for historical information relating to past license applications.

**Sec. 2. Determinations.** (a) All license applications submitted under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, shall be resolved or referred to the President no later than 90 calendar days after registration of the completed license application.

(b) The following actions related to processing a license application submitted under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations shall not be counted in calculating the time periods prescribed in this order:

(1) *Agreement of the Applicant.* Delays upon which the Secretary and the applicant mutually agree.

(2) *Preliminary Checks.* Preliminary checks through government channels that may be required to establish the identity and reliability of the recipient of items controlled under the Act and the Regulations or

any renewal of, or successor to, the Export Administration Act and the Regulations, provided that:

(A) The need for such preliminary check is established by the Secretary, or by another department or agency if the request for preliminary check is made by such department or agency;

(B) The Secretary requests the preliminary check within 5 days of the determination that it is necessary; and

(C) The Secretary completes the analysis of the result of the preliminary check within 5 days.

(3) *Requests for Government-To-Government Assurances.* Requests for government-to-government assurances of suitable end-use of items approved for export under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, when failure to obtain such assurances would result in rejection of the application, provided that:

(A) The request for such assurances is sent to the Secretary of State within 5 days of the determination that the assurances are required;

(B) The Secretary of State initiates the request of the relevant government within 10 days thereafter; and

(C) The license is issued within 5 days of the Secretary's receipt of the requested assurances. Whenever such preliminary checks and assurances are not requested within the time periods set forth above, they must be accomplished within the time periods established by this section.

(4) *Multilateral Reviews.* Multilateral review of a license application as provided for under the Act and the Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations, as long as multilateral review is required by the relevant multilateral regime.

(5) *Consultations.* Consultation with other governments, if such consultation is provided for by a relevant multilateral regime or bilateral arrangement as a precondition for approving a license.

**Sec. 3. Initial Processing.** Within 9 days of registration of any license application, the Secretary shall, as appropriate:

(a) request additional information from the applicant. The time required for the applicant to supply the additional information shall not be counted in calculating the time periods prescribed in this

## Legal Authority

section.

(b) refer the application and pertinent information to agencies or departments as stipulated in section 1 of this order, and forward to the agencies any relevant information submitted by the applicant that could not be reduced to electronic form.

(c) assure that the stated classification on the application is correct; return the application if a license is not required; and, if referral to other departments or agencies is not required, grant the application or notify the applicant of the Secretary's intention to deny the applications.

**Sec. 4. Department or Agency Review.** (a) Each reviewing department or agency shall specify to the Secretary, within 10 days of receipt of a referral as specified in subsection 3(b), any information not in the application that would be required to make a determination, and the Secretary shall promptly request such information from the applicant. If, after receipt of the information so specified or other new information, a reviewing department or agency concludes that additional information would be required to make a determination, it shall promptly specify that additional information to the Secretary, and the Secretary shall promptly request such information from the applicant. The time that may elapse between the date the information is requested by the reviewing department or agency and the date the information is received by the reviewing department or agency shall not be counted in calculating the time periods prescribed in this order. Such information specified by reviewing departments or agencies is in addition to any information that may be requested by the Department of Commerce on its own initiative during the first 9 days after registration of an application.

(b) Within 30 days of receipt of a referral and all required information, a department or agency shall provide the Secretary with a recommendation either to approve or deny the license application. As appropriate, such recommendation may be with the benefit of consultation and discussions in interagency groups established to provide expertise and coordinate interagency consultation. A recommendation that the Secretary deny a license shall include a statement of the reasons for such recommendation that are consistent with the provisions of the Act and the

Regulations or any renewal of, or successor to, the Export Administration Act and the Regulations and shall cite both the statutory and the regulatory bases for the recommendation to deny. A department or agency that fails to provide a recommendation within 30 days with a statement of reasons and the statutory and regulatory bases shall be deemed to have no objection to the decision of the Secretary.

**Sec. 5. Interagency Dispute Resolution.** (a) *Committees.* (1)(A) *Export Administration Review Board.* The Export Administration Review Board ("the Board"), which was established by Executive Order No. 11533 of June 4, 1970, and continued in Executive Order No. 12002 of July 7, 1977, is hereby continued. The Board shall have as its members, the Secretary, who shall be Chair of the Board, the Secretary of State, the Secretary of Defense and the Secretary of Energy. The Chairman of the Joint Chiefs of Staff and the Director of Central Intelligence shall be nonvoting members of the Board. No alternate Board members shall be designated, but the acting head or deputy head of any member department or agency may serve in lieu of the head of the concerned department of agency. The Board may invite the heads of other United States Government departments or agencies, other than the departments or agencies represented by the Board members, to participate in the activities of the Board when matters of interest to such departments or agencies are under consideration.

(B) The Secretary may, from time to time, refer to the Board such particular export license matters, involving questions of national security or other major policy issues, as the Secretary shall select. The Secretary shall also refer to the Board any other such export license matter, upon the request of any other member of the Board or the head of any other United States Government department or agency having any interest in such matter. The Board shall consider the matters so referred to it, giving due consideration to the foreign policy of the United States, the national security, the domestic economy, and concerns about the proliferation of armaments, weapons of mass destruction, missile delivery systems, and advanced conventional weapons and shall make recommendations thereon to the Secretary.

(2) *Advisory Committee on Export Policy.* An Advisory Committee on Export Policy ("ACEP") is established and shall have as its members the Assistant Secretary of Commerce for Export

Administration, who shall be Chair of the ACEP, and Assistant Secretary-level representatives of the Departments of State, Defense, and Energy. Appropriate representatives of the Joint Chiefs of Staff and of the Nonproliferation Center of the Central Intelligence Agency shall be nonvoting members of the ACEP. Representatives of the departments or agencies shall be the appropriate Assistant Secretary or equivalent (or appropriate acting Assistant Secretary or equivalent in lieu of the Assistant Secretary or equivalent) of the concerned department or agency, or appropriate Deputy Assistant Secretary or equivalent (or the appropriate acting Deputy Assistant Secretary or equivalent in lieu of the Deputy Assistant Secretary or equivalent) of the concerned department or agency. Regardless of the department or agency representative's rank, such representative shall speak and vote at the ACEP on behalf of the appropriate Assistant Secretary or equivalent of such department or agency. The ACEP may invite Assistant Secretary-level representatives of other United States Government departments or agencies, other than the departments and agencies represented by the ACEP members, to participate in the activities of the ACEP when matters of interest to such departments or agencies are under consideration.

(3)(A) *Operating Committee.* An Operating Committee (“OC”) of the ACEP is established. The Secretary shall appoint its Chair, who shall also serve as Executive Secretary of the ACEP. Its other members shall be representatives of appropriate agencies in the Departments of Commerce, State, Defense, and Energy. The appropriate representatives of the Joint Chiefs of Staff and the Nonproliferation Center of the Central Intelligence Agency shall be nonvoting members of the OC. The OC may invite representatives of other United States Government departments or agencies, other than the departments and agencies represented by the OC members, to participate in the activities of the OC when matters of interest to such departments or agencies are under consideration.

(B) The OC shall review all license applications on which the reviewing departments and agencies are not in agreement. The Chair of the OC shall consider the recommendations of the reviewing departments and agencies and inform them of his or her decision on any such matters within 14 days after the deadline for receiving department and agency recommendations. However, for license applications concerning commercial communication

satellites and hot-section technologies for the development, production, and overhaul of commercial aircraft engines that are transferred from the United States Munitions List to the Commerce Control List pursuant to regulations issued by the Departments of Commerce and State after the date of this order, the Chair of the OC shall inform reviewing departments and agencies of the majority vote decision of the OC. As described below, any reviewing department or agency may appeal the decision of the Chair of the OC, or the majority vote decision of the OC in cases concerning the commercial communication satellites and hot-section technologies described above, to the Chair of the ACEP. In the absence of a timely appeal, the Chair's decision (or the majority vote decision in the case of license applications concerning the commercial communication satellites and hot-section technologies described above) will be final.

(b) Resolution Procedures. (1) If any department or agency disagrees with a licensing determination of the Department of Commerce made through the Chair of the OC (or a majority vote decision of the OC in the case of license applications concerning the commercial communication satellites and the hot-section technologies described in section 5(a)(3)(B)), it may appeal the matter to the ACEP for resolution. A department or agency must appeal a matter within 5 days of such a decision. Appeals must be in writing from an official appointed by the President, by and with the advice and consent of the Senate, or an officer properly acting in such capacity, and must cite both the statutory and the regulatory bases for the appeal. The ACEP shall review all departments' and agencies' information and recommendations, and the Chair of the ACEP shall inform the reviewing departments and agencies of the majority vote decision of the ACEP within 11 days from the date of receiving notice of the appeal. Within 5 days of the majority vote decision, any dissenting department or agency may appeal the decision by submitting a letter from the head of the department or agency to the Secretary in his or her capacity as the Chair of the Board. Such letter shall cite both the statutory and the regulatory bases for the appeal. Within the same 5-day period, the Secretary may call a meeting on his or her own initiative to consider a license application. In the absence of a timely appeal, the majority vote decision of the ACEP shall be final.

(2) The Board shall review all departments'

## Legal Authority

and agencies' information and recommendations, and such other export control matters as may be appropriate. The Secretary shall inform the reviewing departments and agencies of the majority vote of the Board within 11 days from the date of receiving notice of appeal. Within 5 days of the decision, any department or agency dissenting from the majority vote decision of the Board may appeal the decision by submitting a letter from the head of the dissenting department or agency to the President. In the absence of a timely appeal, the majority vote decision of the Board shall be final.

**Sec. 6. *Encryption Products.*** In conducting the license review described in section 1 above, with respect to export controls of encryption products that are or would be, on November 15, 1996, designated as defense articles in Category XIII of the United States Munitions List and regulated by the United States Department of State pursuant to the Arms Export Control Act, 22 U.S.C. 2778 *et seq.*, but that subsequently are placed on the Commerce Control List in the Export Administration Regulations, the Departments of State, Defense, Energy, and Justice shall have the opportunity to review any export license application submitted to the Department of Commerce. The Department of Justice shall, with respect to such encryption products, be a voting member of the Export Administration Review Board described in section 5(a)(1) of this order and of the Advisory Committee on Export Policy described in section 5(a)(2) of this order. The Department of Justice shall be a full member of the Operating Committee of the ACEP described in section 5(a)(3) of this order, and of any other committees and consultation groups reviewing export controls with respect to such encryption products.

**Sec. 7.** The license review process in this order shall take effect beginning with those license applications registered by the Secretary 60 days after the date of this order and shall continue in effect to the extent not inconsistent with any renewal of the Export Administration Act, or with any successor to that Act.

**Sec. 8. *Judicial Review.*** This order is intended

## Part III.11. ADMINISTRATION OF EXPORT CONTROLS ON ENCRYPTION PRODUCTS

Executive Order 13026

By the authority vested in me as President by the Constitution and the laws of the United States of America, including but not limited to the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*), and in order to take additional steps with respect to the national emergency described and declared in Executive Order No. 12924 of August 19, 1994,<sup>22</sup> and continued on August 15, 1995 and on August 14, 1996, I, WILLIAM J. CLINTON, President of the United States of America, have decided that the provisions set forth below shall apply to administration of the export control system maintained by the Export Administration Regulations, 15 C.F.R. Part 730 *et seq.* ("the EAR"). Accordingly, it is hereby ordered as follows:

**Section 1. *Treatment of Encryption Products.*** In order to provide for appropriate controls on the export and foreign dissemination of encryption products, export controls of encryption products that are or would be, on this date, designated as defense articles in Category XIII of the United States Munitions List and regulated by the United States Department of State pursuant to the Arms Export Control Act, 22 U.S.C. 2778 *et seq.* ("the AECA"), but that subsequently are placed on the Commerce Control List in the EAR, shall be subject to the following conditions:

revoked as unnecessary and the emergency it declared was cancelled by Executive Order 13206. This action did not affect any measures taken while the order was in effect.

## Legal Authority

(a) I have determined that the export of encryption products described in this section could harm national security and foreign policy interests even where comparable products are or appear to be available from sources outside the United States, and that facts and questions concerning the foreign availability of such encryption products cannot be made subject to public disclosure or judicial review without revealing or implicating classified information that could harm United States national security and foreign policy interests. Accordingly, sections 4(c) and 6(h)(2)-(4) of the Export Administration Act of 1979 (“the EAA”), 50 U.S.C. App. 2403(c) and 2405(h)(2)-(4), as amended and as continued in effect by Executive Order 12924 of August 19, 1994, and by notices of August 15, 1995, and August 14, 1996, all other analogous provisions of the EAA relating to foreign availability, and the regulations in the EAR relating to such EAA provisions, shall not be applicable with respect to export controls on such encryption products. Notwithstanding this, the Secretary of Commerce (“Secretary”) may, in his discretion, consider the foreign availability of comparable encryption products in determining whether to issue a license in a particular case or to remove controls on particular products, but is not required to issue licenses in particular cases or to remove controls on particular products based on such consideration;

(b) Executive Order 12981, as amended by Executive Order 13020 of October 12, 1996, is further amended as follows:

(1) A new section 6 is added to read as follows: “*Encryption Products.* In conducting the license review described in section 1 above, with respect to export controls of encryption products that are or would be, on November 15, 1996, designated as defense articles in Category XIII of the United States Munitions List and regulated by the United States Department of State pursuant to the Arms Export Control Act, 22 U.S.C. 2778 *et seq.*, but that subsequently are placed on the Commerce Control List in the Export Administration Regulations, the Departments of State, Defense, Energy, and Justice and the Arms Control and Disarmament Agency shall have the opportunity to review any export license application submitted to the Department of Commerce. The Department of Justice shall, with respect to such encryption products, be a voting member of the Export Administration Review Board

described in section 5(a)(1) of this order and of the Advisory Committee on Export Policy described in section 5(a)(2) of this order. The Department of Justice shall be a full member of the Operating Committee of the ACEP described in section 5(a)(3) of this order, and of any other committees and consultation groups reviewing export controls with respect to such encryption products.”

(2) Sections 6 and 7 of Executive Order 12981 of December 5, 1995, are renumbered as new sections 7 and 8, respectively.

(c) Because the export of encryption software, like the export of other encryption products described in this section, must be controlled because of such software’s functional capacity, rather than because of any possible informational value of such software, such software shall not be considered or treated as “technology,” as that term is defined in section 16 of the EAA (50 U.S.C. App. 2415) and in the EAR (61 Fed. Reg. 12714, March 25, 1996);

(d) With respect to encryption products described in this section, the Secretary shall take such actions, including the promulgation of rules, regulations, and amendments thereto, as may be necessary to control the export of assistance (including training) To foreign persons in the same manner and to the same extent as the export of such assistance is controlled under the AECA, as amended by section 151 of Public Law 104-164;

(e) Appropriate controls on the export and foreign dissemination of encryption products described in this section may include, but are not limited to, measures that promote the use of strong encryption products and the development of a key recovery management infrastructure; and

(f) Regulation of encryption products described in this section shall be subject to such further conditions as the President may direct.

**Sec. 2. *Effective Date.*** The provisions described section 1 shall take effect as soon as any encryption products described in section 1 are placed on the Commerce Control List in the EAR.

**Sec. 3. *Judicial Review.*** This order is intended only to improve the internal management of the executive branch and to ensure the implementation of

## Legal Authority

appropriate controls on the export and foreign dissemination of encryption products. It is not intended to, and does not, create any rights to administrative or judicial review, or any other right or benefit or trust responsibility, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

### Part III.12. CONTINUATION OF EXPORT CONTROL REGULATIONS

*Note: Most of the Export Administration Act of 1979 was repealed by the Export Control Reform Act of 2018.*

Executive Order 13222, as amended  
by Executive Order 13637<sup>23</sup>

By the authority vested in me as President by the Constitution and the laws of the United States of America, including but not limited to section 203 of the International Emergency Economic Powers Act (“Act”) (50 U.S.C. 1702), I, GEORGE W. BUSH, President of the United States of America, find that the unrestricted access of foreign parties to U.S. goods and technology and the existence of certain boycott practices of foreign nations, in light of the expiration of the Export Administration Act of 1979, as amended (50 U.S.C. App. 2401 *et seq.*), constitute an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States and hereby declare a national emergency with respect to that threat.

Accordingly, in order (a) To exercise the necessary vigilance over exports and activities affecting the national security of the United States; (b) To further significantly the foreign policy of the United States, including its policy with respect to cooperation by U.S. persons with certain foreign boycott activities, and to fulfill its international responsibilities; and (c) To protect the domestic economy from the excessive

drain of scarce materials and reduce the serious economic impact of foreign demand, it is hereby ordered as follows:

**Section 1.** To the extent permitted by law, the provisions of the Export Administration Act of 1979, as amended, and the provisions for administration of the Export Administration Act of 1979, as amended, shall be carried out under this order so as to continue in full force and effect and amend, as necessary, the export control system heretofore maintained by the Export Administration Regulations issued under the Export Administration Act of 1979, as amended. The delegations of authority set forth in Executive Order No. 12002 of July 7, 1977, as amended by Executive Order No. 12755 of March 12, 1991 and Executive Order 13026 of November 15, 1996; Executive Order No. 12214 of May 2, 1980; Executive Order No. 12735 of November 16, 1990; and Executive Order No. 12851 of June 11, 1993, shall be incorporated in this order and shall apply to the exercise of authorities under this order. All actions under this order shall be in accordance with Presidential directives relating to the export control system heretofore issued and not revoked.

**Sec. 2.** All rules and regulations issued or continued in effect by the Secretary of Commerce under the authority of the Export Administration Act of 1979, as amended, including those published in Title 15, Subtitle B, Chapter VII, Subchapter C, of the Code of Federal Regulations, Parts 730 through 774, and all orders, regulations, licenses, and other forms of administrative action issued, taken, or continued in effect pursuant thereto, shall, until amended or revoked by the Secretary of Commerce, remain in full force and effect as if issued or taken pursuant to this order, except that the provisions of sections 203(b)(2) and 206 of the Act (50 U.S.C. 1702(b)(2) and 1705) shall control over any inconsistent provisions in the regulations. Nothing in this section shall affect the continued applicability of administrative sanctions provided for by the regulations described above.

**Sec. 3.** Provisions for administration of section 38(e) of the Arms Export Control Act (22 U.S.C. 2778(e)) may be made and shall continue in full force and effect

<sup>23</sup> Executive Order 13637 of March 8, 2013 (78 Fed. Reg. 16127, March 13, 2013), titled “Administration of Reformed Export Controls,” added new sections 4 and 5

to Executive Order 13222, and renumbered previous section 4 as section 6.

## Legal Authority

until amended or revoked under the authority of section 203 of the Act (50 U.S.C. 1702). To the extent permitted by law, this order also shall constitute authority for the issuance and continuation in full force and effect of all rules and regulations by the President or his delegate, and all orders, licenses, and other forms of administrative actions issued, taken, or continued in effect pursuant thereto, relating to the administration of section 38(e).

**Sec. 4.** The Secretary of Commerce shall, to the extent required as a matter of statute or regulation, establish appropriate procedures for when Congress is to be notified of the export of firearms that are subject to the jurisdiction of the Department of Commerce under the Export Administration Regulations and that are controlled for purposes of permanent import by the Attorney General under section 38(a) of the Arms Export Control Act (22 U.S.C. 2778(a)) and appropriate procedures for when Congress is to be notified of the export of Major Defense Equipment controlled for purposes of permanent export under the jurisdiction of the Department of Commerce.

**Sec. 5.** (a) The Secretary of State is hereby authorized to take such actions and to employ those powers granted to the President by the Act as may be necessary to license or otherwise approve the export, reexport, or transfer of items subject to the jurisdiction of the Department of Commerce as agreed to by the Secretary of State and the Secretary of Commerce.

(b) Notwithstanding subsection (a) of this section, items licensed or otherwise approved by the Secretary of State pursuant to this section remain subject to the jurisdiction of the Department of Commerce.

**Sec. 6.** This order shall be effective as of midnight between August 20, 2001 and August 21, 2001, and shall remain in effect until terminated.

## PRESIDENTIAL NOTICE OF AUGUST 8, 2018 - CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO EXPORT CONTROL REGULATIONS<sup>24</sup>

On August 17, 2001, the President issued Executive Order 13222 pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.). In that order, the President declared a national emergency with respect to the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States related to the expiration of the Export Administration Act of 1979, as amended (50 U.S.C. 4601 et seq.). Because the Congress has not renewed the Export Administration Act, the national emergency declared on August 17, 2001, must continue in effect beyond August 17, 2018. Therefore, in accordance with section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)), I am continuing for 1 year the national emergency declared in Executive Order 13222, as amended by Executive Order 13637 of March 8, 2013.

This notice shall be published in the Federal Register and transmitted to the Congress.

## Legal Authority

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) (IEEPA), the National Emergencies Act (50 U.S.C. 1601 et seq.), section 5 of the United Nations Participation Act of 1945, as amended (22 U.S.C. 287c) (UNPA), and section 301 of title 3, United States Code, and in view of United Nations Security Council Resolution (UNSCR) 1214 of December 8, 1998, UNSCR 1267 of October 15, 1999, UNSCR 1333 of December 19, 2000, and the multilateral sanctions contained therein, and UNSCR 1363 of July 30, 2001, establishing a mechanism to monitor the implementation of UNSCR 1333,

I, GEORGE W. BUSH, President of the United States of America, find that grave acts of terrorism and threats of terrorism committed by foreign terrorists, including the terrorist attacks in New York, Pennsylvania, and the Pentagon committed on September 11, 2001, acts recognized and condemned in UNSCR 1368 of September 12, 2001, and UNSCR 1269 of October 19, 1999, and the continuing and immediate threat of further attacks on United States nationals or the United States constitute an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States, and in furtherance of my proclamation of September 14, 2001, Declaration of National Emergency by Reason of Certain Terrorist Attacks, hereby declare a national emergency to deal with that threat. I also find that because of the pervasiveness and expansiveness of the financial foundation of foreign terrorists, financial sanctions may be appropriate for those foreign persons that support or otherwise associate with these foreign terrorists. I also find that a need exists for further consultation and cooperation with, and sharing of information by, United States and foreign financial institutions as an additional tool to enable the United States to combat the financing of terrorism.

I hereby order:

(a) The term “person” means an individual or entity;

(b) The term “entity” means a partnership, association, corporation, or other organization, group, or subgroup;

(c) The term “United States person” means any United States citizen, permanent resident alien, entity organized under the laws of the United States (including foreign branches), or any person in the United States; and

(B) To influence the policy of a government by intimidation or coercion; or

(C) To affect the conduct of a government by mass destruction, assassination, kidnapping, or hostage-taking.

**Sec. 4.** I hereby determine that the making of donations of the type specified in section 203(b)(2) of IEEPA (50 U.S.C. 1702(b)(2)) by, to, or for the benefit of, any persons determined to be subject to this order would seriously impair my ability to deal with the national emergency declared in this order, and would endanger Armed Forces of the United States that are in a situation where imminent involvement in hostilities is clearly indicated by the circumstances, and hereby prohibit such donations as provided by section 1 of this order. Furthermore, I hereby determine that the Trade Sanctions Reform and Export

Enhancement Act of 2000 (title IX, Public Law 106-387) shall not affect the imposition or the continuation of the imposition of any unilateral agricultural sanction or unilateral medical sanction on any person determined to be subject to this order because imminent involvement of the Armed Forces of the United States in hostilities is clearly indicated by the circumstances.

**Sec. 5.** With respect to those persons designated pursuant to subsection 1(a)(iii) of this order, the Secretary of the Treasury, in the exercise of his discretion and in consultation with the Secretary of State, the Secretary of Homeland Security, and the Attorney General, may take such other actions than the complete blocking of property or interests in property as the President is authorized to take under IEEPA and UNPA if the Secretary of the Treasury, in consultation with the Secretary of State, the Secretary of Homeland Security, and the Attorney General, deems such other actions to be consistent with the national interests of the United States, considering such factors as he deems appropriate.

**Sec. 6.** The Secretary of State, the Secretary of the Treasury, and other appropriate agencies shall make all relevant efforts to cooperate and coordinate with other countries, including through technical assistance, as well as bilateral and multilateral agreements and arrangements, to achieve the objectives of this order, including the prevention and suppression of acts of terrorism, the denial of financing and financial services to terrorists and terrorist organizations, and the sharing of intelligence about funding activities in support of terrorism.

**Sec. 7.** The Secretary of the Treasury, in consultation with the Secretary of State and the Attorney General, is hereby authorized to take such actions, including the promulgation of rules and regulations, and to employ all powers granted to the President by IEEPA and UNPA as may be necessary to carry out the purposes of this order. The Secretary of the Treasury may redelegate any of these functions to other officers and agencies of the United States Government. All agencies of the United States Government are hereby directed to take all appropriate measures within their authority to carry out the provisions of this order.

**Sec. 8.** Nothing in this order is intended to affect the continued effectiveness of any rules, regulations, orders, licenses, or other forms of administrative action issued, taken, or continued in effect heretofore or hereafter under 31 C.F.R. chapter V, except as expressly terminated, modified, or suspended by or pursuant to this order.

I therefore determine that for these measures to be effective in addressing the national emergency declared in this order, there need be no prior notice of a listing or determination made pursuant to this order.

**Sec. 11.** (a) This order is effective at 12:01 a.m. eastern daylight time on September 24, 2001.

(b) This order shall be transmitted to the Congress and published in the *Federal Register*.

## Legal Authority

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) BUSH, President of the United States of America, hereby determine that the actions of the Government of Syria in supporting terrorism, continuing its occupation of Lebanon, pursuing weapons of mass destruction and missile programs, and undermining United States and international efforts with respect to the stabilization and reconstruction of Iraq constitute an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States and hereby declare a national emergency to deal with that threat. To address that threat, and to implement the SAA, I hereby order the following:

(ii) The receipt of any contribution or provision of funds, goods, or services from any such person.

**Sec. 4.** (a) Any transaction by a United States person or within the United States that evades or avoids, has the purpose of evading or avoiding, or attempts to violate any of the prohibitions set forth in this order is prohibited.

(b) Any conspiracy formed to violate the prohibitions set forth in this order is prohibited.

**Sec. 5.** I hereby determine that the making of donations of the type of articles specified in section 203(b)(2) of the IEEPA (50 U.S.C. 1702(b)(2)) would seriously impair the ability to deal with the national emergency declared in this order, and hereby prohibit,

**Sec. 7.** With respect to the prohibitions contained in section 1 of this order, consistent with subsection 5(b) of the SAA, I hereby determine that it is in the national security interest of the United States to waive, and hereby waive application of subsection 5(a)(1) and subsection 5(a)(2)(A) of the SAA so as to permit the exportation or reexportation of certain items as specified in the Department of Commerce's General Order No. 2 to Supplement No. 1, 15 C.F.R. part 736, as issued consistent with this order and as may be amended pursuant to the provisions of this order and in a manner consistent with the SAA. This waiver is made pursuant to the SAA only to the extent that regulation of such exports or reexports would not otherwise fall within my constitutional authority to conduct the Nation's foreign affairs and protect national security.

All agencies of the United States Government are hereby directed to take all appropriate measures within their authority to carry out the provisions of this order and, where appropriate, to advise the Secretaries of State, Commerce, Transportation, and the Treasury in a timely manner of the measures taken.

**Sec. 10.** This order is not intended to create, and does not create, any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, instrumentalities, or entities, its officers or employees, or any other person.

**Sec. 11.** For those persons whose property or interests in property are blocked pursuant to section 3 of this order who might have a constitutional presence in the United States, I find that because of the ability to transfer funds or assets instantaneously, prior notice to such persons of measures to be taken pursuant to this order would render these measures ineffectual.
