SUPPLEMENTARY INFORMATION:

Background

The FAA published a final rule in the **Federal Register** for Docket No. FAA-2023-1325 (88 FR 65311, September 22, 2023), amending VOR Federal airway V-36 and establishing Canadian RNAV route T-675 within U.S. airspace. In the final rule, the FAA added a cross-border route segment to T-675, at NavCanada's request, and explained the inclusion of the additional route segment as a difference from the proposed action published in the notice of proposed rulemaking (NPRM). The effective date for that final rule is November 30, 2023. After publishing the final rule, the FAA realized that not all the necessary aeronautical data required for establishing the additional segment of Canadian RNAV route T-675 within U.S. airspace had been submitted in time or accomplished for updating the FAA's National Airspace System Resource (NASR) database to meet the November 30, 2023, effective date. The FAA has determined delaying the effective date for the entire rule prevents confusion associated with amending V-36 and establishing T-675 in Airspace Docket 23-AGL-17 with two different effective dates for two chart cycles four months apart, and ensures all of the V-36 and T-675 actions publish accurately and concurrently on the same date.

The FAA expects to complete the associated aeronautical data requirements and update the NASR database for establishing all segments of Canadian RNAV route T-675 by March 21, 2024; therefore, the rule amending VOR Federal airway V-36 and establishing Canadian RNAV route T-675 within US airspace is delayed to coincide with that date.

VOR Federal airways are published in paragraph 6010(a) and Canadian Area Navigation Routes (T-routes) are published in paragraph 6013 of FAA JO Order 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11H, dated

August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington DC 20591; telephone: (202) 267-8783.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Good Cause for No Notice and Comment

Section 553(b)(3)(B) of Title 5, United States Code, (the Administrative Procedure Act) authorizes agencies to dispense with notice and comment procedures for rules when the agency for "good cause" finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under this section, an agency, upon finding good cause, may issue a final rule without seeking comment prior to the rulemaking. The FAA finds that prior notice and public comment to this final rule is unnecessary due to the brief length of the extension of the effective date and the fact that there is no substantive change to the rule.

Delay of Effective Date

Accordingly, pursuant to the authority delegated to me, the effective date of the final rule, Airspace Docket 23-AGL-17, as published in the **Federal Register** on September 22, 2023 (88 FR 65311), FR Doc. 2023-20449, is hereby delayed until March 21, 2024.

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., P. 389.

Issued in Washington, DC, on October 13, 2023.

[Docket No. 231013-0245]

RIN 0694-AJ41

Entity List Additions

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Final rule.

SUMMARY: In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding 13 entities to the Entity List under the destination of the People's Republic of China (China). These entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States.

DATES: This rule is effective October 17, 2023.

FOR FURTHER INFORMATION CONTACT:

Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-5991, Email: ERC@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Entity List (supplement no. 4 to part 744 of the EAR (15 CFR parts 730-774)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States, pursuant to § 744.11(b). The EAR impose additional license requirements on, and limit the availability of, most license exceptions for exports, reexports, and transfers (in-country) when a listed entity is a party to the transaction. The license review policy for each listed entity is identified in the "License Review Policy" column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the entity to the Entity List. The Bureau of Industry and Security (BIS) places entities on the Entity List pursuant to parts 744 (Control Policy: End-User and End-Use Based) and 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

Entity List Decisions

Additions to the Entity List

The ERC determined to add Beijing Biren Technology Development Co., Ltd.; Guangzhou Biren Integrated Circuit Co., Ltd.; Hangzhou Biren Technology Development Co., Ltd.; Light Cloud (Hangzhou) Technology Co., Ltd.; Moore Thread Intelligent Technology (Beijing) Co., Ltd.; Moore Thread Intelligent Technology (Chengdu) Co., Ltd.; Moore Thread Intelligent Technology (Shanghai) Co., Ltd.; Shanghai Biren Information Technology Co., Ltd.; Shanghai Biren Integrated Circuit Co., Ltd.; Shanghai Biren Intelligent Technology Co., Ltd.; Superburning Semiconductor (Nanjing) Co., Ltd.; Suzhou Xinyan Holdings Co., Ltd.; and Zhuhai Biren Integrated Circuit Co., Ltd., all under the destination of China, to the Entity List. These entities are involved in the development of advanced computing integrated circuits (ICs). As described in an upcoming amendment to regulations regarding advanced computing items and supercomputer and semiconductor end use, advanced computing ICs can be used to provide artificial intelligence capabilities to further development of weapons of mass destruction, advanced weapons systems, and high-tech surveillance applications that create national security concerns. This activity is contrary to U.S. national security and foreign policy interests under § 744.11 of the EAR. For all of these entities, BIS imposes a license requirement for all items subject to the EAR, which will be reviewed under a presumption of denial. They are also given a footnote 4 designation, which means that “items subject to the EAR,” for the purpose of these license requirements, include foreign-produced items that are subject to the EAR pursuant to § 734.9(e)(2) of the EAR.

For the reasons described above, this final rule adds the following 13 entities, including aliases where appropriate, to the Entity List:

China

- Beijing Biren Technology Development Co., Ltd.;
- Guangzhou Biren Integrated Circuit Co., Ltd.;
- Hangzhou Biren Technology Development Co., Ltd.;
- Light Cloud (Hangzhou) Technology Co., Ltd.;
- Moore Thread Intelligent Technology (Beijing) Co., Ltd.;
- Moore Thread Intelligent Technology (Chengdu) Co., Ltd.;
- Moore Thread Intelligent Technology (Shanghai) Co., Ltd.;

- Shanghai Biren Information Technology Co., Ltd.;
- Shanghai Biren Integrated Circuit Co., Ltd.;
- Shanghai Biren Intelligent Technology Co., Ltd.;
- Superburning Semiconductor (Nanjing) Co., Ltd.;
- Suzhou Xinyan Holdings Co., Ltd.;
- and
- Zhuhai Biren Integrated Circuit Co., Ltd.

Savings Clause

For the changes being made in this final rule, shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country), on October 17, 2023, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) before November 16, 2023. Any such items not actually exported, reexported or transferred (in-country) before midnight, on October 17, 2023, require a license in accordance with this final rule.

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS’s principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves an information collection approved by OMB under control number 0694–0088, Simplified Network Application Processing System. BIS does not anticipate a change to the burden hours associated with this

collection as a result of this rule. Information regarding the collection, including all supporting materials, can be accessed at <https://www.reginfo.gov/public/do/PRAMain>.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 64

[CG Docket Nos. 03–123, 10–51; FCC 23–78; FR ID 177808]

Video Relay Service Compensation Formula

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, to ensure that the providers of Telecommunications Relay Services (TRS) are compensated for the provision of Video Relay Service (VRS), the Federal Communications Commission (Commission) adopts a formula to compensate such providers from the Interstate TRS Fund (TRS Fund) for the provision of service for the next five-year compensation period.

DATES: This rule has been classified as a major rule subject to Congressional review. The effective date is December 18, 2023.

FOR FURTHER INFORMATION CONTACT: Michael Scott, Consumer and Governmental Affairs Bureau, 202–418–1264, *Michael.Scott@fcc.gov*.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s Report and Order, in CG Docket Nos. 03–123

and 10–51; FCC 23–78, adopted on September 22, 2023, released on September 28, 2023. The Commission previously sought comment on these issues in a Notice of Proposed Rulemaking, published at 86 FR 29969, June 4, 2021, with a correction published at 86 FR 31668, July 15, 2021. The full text of this document can be accessed electronically via the FCC’s Electronic Document Management System (EDOCS) website at <https://docs.fcc.gov/public/attachments/FCC-23-78A1.pdf> or via the FCC’s Electronic Comment Filing System (ECFS) website at www.fcc.gov/ecfs. Synopsis

1. Section 225 of the Communications Act of 1934, as amended (the Act), requires the Commission to ensure the availability of Telecommunications Relay Services (TRS) to persons who are deaf, hard of hearing, or deafblind or have speech disabilities, “to the extent possible and in the most efficient manner.” 47 U.S.C. 225(b)(1). TRS are defined as “telephone transmission services” enabling such persons to communicate by wire or radio “in a manner that is functionally equivalent to the ability of a hearing individual who does not have a speech disability to communicate using voice communication services.” 47 U.S.C. 225(a)(2). VRS, a relay service that allows people with hearing or speech

disabilities who use sign language to communicate with voice telephone users through video equipment, is supported entirely by the TRS Fund. VRS providers are compensated for the reasonable costs of providing VRS in accordance with payment formulas approved by the Commission. In a number of decisions over the past 20 years, the Commission has addressed whether certain cost categories are reasonable costs eligible for recovery from the TRS Fund. Reasonable costs are generally defined as those costs that providers must incur to provide relay service in accordance with mandatory minimum TRS standards.

2. In 2007, to ensure that VRS users could choose from a range of service offerings, despite significant disparities in VRS providers’ market shares and per-minute costs, the Commission introduced a tiered compensation structure for VRS. Under this approach, a VRS provider’s monthly compensation payment is calculated based on the application of different per-minute amounts to each of three specified “tiers” of minutes of service. The highest per-minute amount applies to an initial tier of minutes up to a defined maximum number, a lower amount applies to the next tier, again up to a second defined maximum number of minutes, and a still lower amount applies to any minutes of service in excess of the second maximum. Under the tiered approach, providers that handle a relatively small amount of minutes and therefore have relatively higher per-minute costs will receive compensation on a monthly basis that likely more accurately correlates to their
