

in this rule as well as being published in the NFDD.

The Smoky and Smoky High MOAs boundary descriptions are being amended to incorporate the geographic coordinates used in the R-3601A and R-3601B boundary descriptions to redefine the boundary segments previously defined by the Missouri Pacific Railroad Track. This amendment will ensure shared boundaries with the updated restricted area descriptions and prevent airspace conflict with any potential SUA overlap resulting from the redefined boundary segments. Also, the Smoky and Smoky High MOAs using agency information is being amended to match the associated restricted areas using agency amendments. The amended boundary descriptions and using agency information for the MOAs will be published in the NFDD; the rest of the MOAs legal descriptions remain unchanged.

The Rule

This action amends 14 CFR part 73 by modifying restricted areas R-3601A and R-3601B Brookville, KS. The FAA is taking this action to accurately define the restricted area boundaries using geographic coordinates to overcome the loss of the visual landmark used previously and update the using agency information to include the military service. The following restricted areas boundary and using agency information is amended as indicated:

The R-3601A and R-3601B boundary segments previously described by the Missouri Pacific Railroad Track are redefined using the geographic coordinates, “lat. 38°39’45” N., long. 97°46’01” W.; to lat. 38°38’20” N., long. 97°47’31” W.”

The R-3601A and R-3601B using agency information is amended by prefacing the existing using agency with “U.S. Air Force.”

This change does not affect the boundaries, designated altitudes, activities conducted within the restricted areas or the actual physical location of the airspace; therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The corresponding restricted area boundary segment amendments noted above are also being made to the Smoky and Smoky High MOAs boundary information, as needed, to retain shared boundaries with R-3601A and R-3601B. And, the Smoky and Smoky High MOAs using agency information is amended to match the restricted areas using agency information. The amended Smoky and Smoky High MOAs boundary and using agency information changes addressed

in this rule will be published in the NFDD as a separate action with a matching effective date.

This action does not affect the overall restricted area or MOA boundaries; designated altitudes; times of designation; or activities conducted within the restricted areas and MOAs.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5-6.5d. This action is an administrative change to the technical description of the affected restricted areas and is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exists that warrant preparation of an environmental assessment.

Revisions to the Unverified List (UVL)

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR) by adding twelve (12) persons to the Unverified List (the “Unverified List” or UVL), adding additional addresses for four (4) persons currently listed on the UVL, and removing two (2) persons

from the UVL. The 12 persons are being added to the UVL on the basis that BIS could not verify their *bona fides* because an end-use check could not be completed satisfactorily for reasons outside the U.S. Government's control. New addresses are added for four current UVL persons because BIS has determined they are receiving U.S. exports at addresses not previously included in their UVL listings. Finally, two persons are removed from the UVL based on BIS's ability to verify those person's *bona fides* through the successful completion of end-use checks.

DATES: *Effective date:* This rule is effective: October 7, 2015.

FOR FURTHER INFORMATION CONTACT: Kevin Kurland, Director, Office of Enforcement Analysis, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-4255 or by email at UVLRequest@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Unverified List, found in Supplement No. 6 to Part 744 to the EAR, contains the names and addresses of foreign persons who are or have been parties to a transaction, as that term is described in § 748.5 of the EAR, involving the export, reexport, or transfer (in-country) of items subject to the EAR, and whose *bona fides* BIS has been unable to verify through an end-use check. BIS may add persons to the UVL when BIS or federal officials acting on BIS's behalf have been unable to verify a foreign person's *bona fides* (i.e., legitimacy and reliability relating to the end use and end user of items subject to the EAR) because an end-use check, such as a pre-license check (PLC) or a post-shipment verification (PSV), cannot be completed satisfactorily for such purposes for reasons outside the U.S. Government's control.

End-use checks cannot be completed for a number of reasons, including reasons unrelated to the cooperation of the foreign party subject to the end-use check. For example, BIS sometimes initiates end-use checks and cannot find a foreign party at the address indicated on export documents, and cannot locate the party by telephone or email. Additionally, BIS sometimes is unable to conduct end-use checks when host government agencies do not respond to requests to conduct end-use checks, are prevented from scheduling such checks by a party to the transaction other than the foreign party that is the proposed subject of the end-use check, or the parties refuse to schedule them in a timely manner. Under these

circumstances, although BIS has an interest in informing the public of its inability to verify the foreign party's *bona fides*, there may not be sufficient information to add the foreign persons at issue to the Entity List under § 744.11 of the EAR (Criteria for revising the Entity List). In such circumstances, BIS may add the foreign persons to the UVL.

Furthermore, BIS sometimes conducts end-use checks but cannot verify the *bona fides* of a foreign party. For example, BIS may be unable to verify *bona fides* if, during the conduct of an end-use check, a recipient of items subject to the EAR is unable to produce those items for visual inspection or provide sufficient documentation or other evidence to confirm the disposition of those items. The inability of foreign persons subject to end-use checks to demonstrate their *bona fides* raises concerns about the suitability of such persons as participants in future exports, reexports, or transfers (in-country) and indicates a risk that items subject to the EAR may be diverted to prohibited end uses and/or end users. However, BIS may not have sufficient information to establish that such persons are involved in activities described in part 744 of the EAR, preventing the placement of the persons on the Entity List. In such circumstances, the foreign persons may be added to the Unverified List.

As provided in § 740.2(a)(17) of the EAR, the use of license exceptions for exports, reexports, and transfers (in-country) involving a party or parties to the transaction who are listed on the UVL is suspended. Additionally, under § 744.15(b) of the EAR, there is a requirement for exporters, reexporters, and transferors to obtain (and keep a record of) a UVL statement from a party or parties to the transaction who are listed on the UVL before proceeding with exports, reexports, and transfers (in-country) to such persons, when the exports, reexports and transfers (in-country) are not subject to a license requirement.

Requests for removal of a UVL entry must be made in accordance with § 744.15(d) of the EAR. Decisions regarding the removal or modification of UVL listings will be made by the Deputy Assistant Secretary for Export Enforcement, based on a demonstration by the listed person of its *bona fides*.

Changes to the EAR

Supplement No. 6 to Part 744 ("the Unverified List" or "UVL")

Among other things, this rule adds twelve (12) persons to the UVL by amending Supplement No. 6 to Part 744

of the EAR to include their names and addresses. BIS adds these persons in accordance with the criteria for revising the UVL set forth in § 744.15(c) of the EAR. The new entries consist of one person located in Canada, one person located in the Czech Republic, one person located in Georgia, four persons located in Hong Kong, and five persons located in the United Arab Emirates. Each listing is grouped within the UVL by country and accompanied by the party's name(s) in alphabetical order under the country, available alias(es) and address(es), as well as the **Federal Register** citation and the date the person was added to the UVL. The UVL is included in the Consolidated Screening List, available at www.export.gov.

This rule also adds new addresses for four current UVL persons in Hong Kong: (1) AST Technology Group (HK) Ltd.; (2) E-Chips Technology; (3) Ling Ao Electronic Technology Co. Ltd., a.k.a. Voyage Technology (HK) Co. Ltd.; and (4) Narpel Technology Co., Limited. BIS has determined that these persons are receiving U.S. exports at addresses other than those originally included in their UVL entries.

Lastly, this rule removes from the UVL two entries: One located in Hong Kong and one located in Pakistan.

The following entry (at three different locations) under the country heading Hong Kong is removed:

Ditis Hong Kong Ltd., Room 227-228, 2/F, Metre Centre II, 21 Lam Hing Street, Kowloon Bay, Kowloon, Hong Kong and Ditis Hong Kong Ltd., Rooms 1318-1320, Hollywood Plaza, 610 Nathan Road, Mong Kok, Kowloon, Hong Kong and Ditis Hong Kong Ltd., Room 205, 2/F, Sunley Centre, 9 Wing Tin Street, Kwai Chung, New Territories, Hong Kong.

The following entry under the country heading Pakistan is removed:

Fauji Fertilizer Company Ltd., 156 The Mall, Rawalpindi, Cantt, Pakistan.

These persons are removed from the UVL based on BIS's ability to confirm their *bona fides* through the successful completion of end-use checks. The removal of the above referenced persons from the UVL eliminates the restrictions against the use of license exceptions and the requirements specific to exports, reexports and transfers (in-country) not otherwise requiring a license to these persons, as described in § 744.15 of the EAR. However, the removal of these persons from the UVL does not remove other obligations under part 744 of the EAR or under other parts of the EAR. Neither the removal of persons from the UVL nor the removal of UVL-based restrictions and requirements relieves a person of the obligation to obtain a

license if the person knows that an export or reexport of any item subject to the EAR is destined to an end user or end use set forth in part 744, other than § 744.15, of the EAR. Additionally, these removals do not relieve persons of their obligation to apply for export, reexport or in-country transfer licenses required by other provisions of the EAR. BIS strongly urges the use of Supplement No. 3 to part 732 of the EAR, "BIS's 'Know Your Customer' Guidance and Red Flags," when persons are involved in transactions that are subject to the EAR.

Savings Clause

Shipments (1) removed from license exception eligibility or that are now subject to requirements in § 744.15 of the EAR as a result of this regulatory action; (2) eligible for export, reexport, or transfer (in-country) without a license before this regulatory action; and (3) on dock for loading, on lighter, laden aboard an exporting carrier, or en route aboard a carrier to a port of export, on October 7, 2015, pursuant to actual orders, may proceed to that UVL listed person under the previous license exception eligibility or without a license so long as the items have been exported from the United States, reexported or transferred (in-country) before November 6, 2015. Any such items not actually exported, reexported or transferred (in-country) before midnight, on November 6, 2015, are subject to the requirements in § 744.15 of the EAR in accordance with this regulation.

Export Administration Act

Since August 21, 2001, the Export Administration Act of 1979, as amended, has been in lapse. However, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as amended by Executive Order 13637 of March 8, 2013, 78 FR 16129 (March 13, 2013), and as extended by the Notice of August 7, 2015 (80 FR 48233 (Aug. 11, 2015)) has continued the EAR in effect under the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*). BIS continues to carry out the provisions of the Export Administration Act, as appropriate and to the extent permitted by law, pursuant to Executive Order 13222 as amended by Executive Order 13637.

Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits

(including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has not been designated a "significant regulatory action," under section 3(f) of Executive Order 12866.

2. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public comment and a delay in effective date are inapplicable to this rule—which is adding 12 persons, removing two persons, and updating the addresses of four other persons listed on the UVL—because this regulation involves military or foreign affairs under § 553(a)(1). BIS implements this rule to protect U.S. national security or foreign policy interests by requiring a license for items being exported, reexported, or transferred (in country) involving a party or parties to the transaction who are listed on the UVL. If this rule were delayed to allow for notice and comment and a delay in effective date, the entities being added to the UVL by this action and those entities operating at previously unlisted addresses would continue to be able to receive items without additional oversight by BIS and to conduct activities contrary to the national security or foreign policy interests of the United States. In addition, publishing a proposed rule would give these parties notice of the U.S. Government's intention to place them on the UVL, and create an incentive for these persons to accelerate receiving items subject to the EAR in furtherance of activities contrary to the national security or foreign policy interests of the United States, and/or take steps to set up additional aliases, change addresses, and other measures to try to limit the impact of the listing once a final rule is effective.

The Department finds there is good cause to waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment, under 5 U.S.C. 553(b)(B), and a thirty day delay of the effective date, under 5 U.S.C. 553(d)(3), to the provision of this rule removing two persons from the UVL because doing so is contrary to the public interest and unnecessary. The removals are being made following the completion of successful end-use checks. If the rule were to be delayed to allow for public comment, U.S. exporters may face unnecessary economic losses as they turn away

potential sales because the customer remained a listed person on the UVL even after BIS was able to verify that entity's *bona fides* through an end-use check. By publishing without prior notice and comment, BIS allows the entity to receive U.S. exports as quickly as possible following their cooperation in a successful end-use check. By quickly removing entities from the UVL following the successful completion of an end-use check, BIS encourages other entities to cooperate in end-use checks requested by BIS. Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule.

Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable. Accordingly, no regulatory flexibility analysis is required and none has been prepared.

3. Notwithstanding any other provision of law, no person is required to respond to, nor is subject to a penalty for failure to comply with, a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by OMB under the following control numbers: 0694–0088, 0694–0122, 0694–0134, and 0694–0137. The addition, revision, and removal of individuals to the UVL do not change the collection of information requirements placed on the public by the UVL implementing regulations.

4. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.
