

Additional Information

To find out if your non-U.S.-made item is subject to National Security (NS) controls, you must find out if there is a NS license requirement for the Non-U.S.-made item to the intended destination.

1. Find the classification (Export Control Classification Number – ECCN) for your non-U.S.-made item.

For more information about classifying a product go to the BIS classification guidance page

<http://www.bis.doc.gov/index.php/licensing/commerce-control-list-classification>

2. Look in the License Requirements section of that ECCN, where you will find a table that lists the license requirements, see below for an example.

3A001 Electronic components and "specially designed" "components" therefor, as follows (see List of Items Controlled).

LICENSE REQUIREMENTS

Reason for Control: NS, RS, MT, NP, AT

Control(s)	Country chart (see Supp. No. 1 to part 738)
NS applies to Microwave "Monolithic Integrated Circuits" (MMIC) power amplifiers in 3A001.b.2 and discrete microwave transistors in 3A001.b.3, except those 3A001.b.2 and b.3 items being exported or reexported for use in civil telecommunications applications	NS Column 1
NS applies to entire entry	NS Column 2
RS applies to Microwave "Monolithic Integrated Circuits" (MMIC) power amplifiers in 3A001.b.2 and discrete microwave transistors in 3A001.b.3, except those 3A001.b.2 and b.3 items being exported or reexported for use in civil telecommunications applications	RS Column 1
MT applies to 3A001.a.1.a when usable in "missiles"; and to 3A001.a.5.a when "designed or modified" for military use, hermetically sealed and rated for operation in the temperature range from below -54 °C to above + 125 °C	MT Column 1
NP applies to pulse discharge capacitors in in 3A001.e.2 and superconducting solenoidal electromagnets in 3A001.e.3 that meet or exceed the technical parameters in 3A201.a and 3A201.b, respectively	NP Column 1
AT applies to entire entry	AT Column 1

3. If the subparagraph, for example 3A001.b.3, is listed under an NS row, then your non-U.S.-made item has a NS license requirement. 3A001.b.3 might be NS:1, depending if the item meets the criteria listed for NS:1. However, 3A001.b.3 is definitely is NS:2, because NS:2 applies to the entire entry.

4. If there is an "X" under the applicable NS Column 1 or NS Column 2 on the Commerce Country Chart in Supplement No. 1 to part 738, then your non-U.S.-made item is controlled for NS reasons.

For example: If you have a 3A001.b.3 that is not a MMIC, then you have a NS Column 2 license requirement. If that 3A001.b.3 non-MMIC were being exported to Angola, then the 3A001.b.3 non-MMIC would be controlled for National Security reasons, because there is an X at the intersection of the Angola row and the NS:2 column. However, if you were exporting to Argentina instead, the item would not be controlled for NS reasons, because there is no X at the intersection of the Argentina row and the NS:2 column.

SUPPLEMENT NO. 1 TO PART 738—COMMERCE COUNTRY CHART

[Reason for control]

Countries	Chemical and biological weapons			Nuclear nonproliferation		National security		Missile tech	Regional stability		Firearms convention	Crime control			Anti-terrorism	
	CB 1	CB 2	CB 3	NP 1	NP 2	NS 1	NS 2	MT 1	RS 1	RS 2	FC 1	CC 1	CC 2	CC 3	AT 1	AT 2
